Retail Sales Restrictions

16-3-301. Unlawful purchases, transfers, sales, or deliveries — presumption of legal age. (1) It is unlawful for a licensed retailer to purchase or acquire beer from anyone except a brewer or wholesaler licensed under the provisions of this code.

(2) It is unlawful for a licensed retailer to transport beer from one licensed premises or other facility to any other licensed premises owned by the licensee.

(3) It is unlawful for any licensee, his or her employee or employees, or any other person to sell, deliver, or give away or cause or permit to be sold, delivered, or given away any alcoholic beverage to:

(a) any person under 21 years of age;

(b) any intoxicated person or any person actually, apparently, or obviously intoxicated.

(4) Any person under 21 years of age or other person who knowingly misrepresents his or her qualifications for the purpose of obtaining an alcoholic beverage from such licensee is equally guilty with said licensee and, upon conviction thereof, is subject to the penalty provided in 45-5-624. However, nothing herein contained may be construed as authorizing or permitting the sale of an alcoholic beverage to any person in violation of any federal law.

(5) It is further mandatory under the provisions of this code that all licensees display in a prominent place in their premises a placard as issued by the department stating fully the consequences for violations of the provisions of this code by persons under 21 years of age.

(6) For purposes of this title and 45-5-623, the establishment of the following facts by a person making a sale of alcoholic beverages to a person under the legal age constitutes prima facie evidence of innocence and a defense to a prosecution for sale of alcoholic beverages to a person under the legal age:

(a) the purchaser falsely represented and supported with documentary evidence that an ordinary and prudent person would accept that the purchaser was of legal age to purchase alcoholic beverages;

(b) the appearance of the purchaser was such that an ordinary and prudent person would believe the purchaser to be of legal age to purchase alcoholic beverages; and

(c) the sale was made in good faith and in reasonable reliance upon the representation and appearance of the purchaser that the purchaser was of legal age to purchase alcoholic beverages. *(See compiler's comments for contingent termination of certain text.)*

16-3-416. Table wine distributor provisions. (1) A supplier or table wine distributor must have a written agreement of distributorship that provides for purchase of the supplier's products from the supplier by the table wine distributor.

(2) An agreement of distributorship must provide that:

(a) a supplier shall notify a table wine distributor in writing at least 60 days prior to termination of an agreement of distributorship unless a termination without notice is permitted as provided in 16-3-417. The written notice must state the reasons for termination. Notice of termination is void if within 60 days of the notice, the table wine distributor rectifies the deficiency stated as the reason for termination and if the deficiency was not stated as reason for termination in a notice previously voided under the provisions of this subsection.

(b) a supplier may not unreasonably withhold or delay approval of a sale or transfer of the ownership, management, or control of a table wine distributorship. However, a table wine distributor shall give a supplier no less than 60 days' prior written notice of any material change in ownership, management, or control.

(3) Within 60 days after entering into an agreement of distributorship, the supplier shall advise the department of the agreement by filing a copy of the agreement that must include the sales area or areas designated for the table wine distributor.

(4) If a supplier terminates an agreement of distributorship under the provisions of subsection (2)(a), the table wine distributor subject to the termination is entitled to compensation for the laid-in cost of inventory. In the event of any termination of the agreement by the supplier other than termination for good cause or for any reason set forth in 16-3-417(3), the distributor is entitled to compensation for the laid-in cost of inventory and to liquidated damages based on the sales of the brand or brands involved, as may be provided in the agreement. If the supplier and the distributor are unable to agree on the amount of liquidated damages, the amount of liquidated damages must be determined by an arbitrator appointed under subsection (5) of this section.

(5) If undertaken in good faith by a supplier, a supplier may terminate an agreement of distributorship for a legitimate business reason not within the definition of good cause if an arbitrator appointed by the department finds, after hearing the supplier and the table wine distributor, that the termination is in the best interest of the table wine brand concerned. Arbitration under this section must be conducted under the provisions of Title 27, chapter 5.

(6) All agreements of distributorship are interpreted and governed by the laws of Montana.

(7) In any dispute resulting in litigation between a supplier and a distributor, the litigation must occur in a Montana court, federal or state, unless that forum would create an unreasonable burden on any party, as determined by the court in which the litigation is commenced.

(8) Agreements between a supplier and a distributor must recognize the constitutional right to a jury trial as set forth in Article II, section 26, of the Montana constitution.

(9) A provision in an agreement of distributorship that is inconsistent with the requirements of this section is void.

History: En. Sec. 3, Ch. 314, L. 1991; amd. Sec. 1, Ch. 226, L. 1995; amd. Sec. 2, Ch. 194, L. 1999.

(3) A supplier may terminate an agreement of distributorship immediately and without notice if the reason for the termination is insolvency, assignment for the benefit of creditors, bankruptcy, or revocation or suspension for more than 14 days of a license to operate that is required by the state or the federal government.

History: En. Sec. 4, Ch. 314, L. 1991.

16-3-420. Applicability. Within 60 days after October 1, 1991, or within 60 days after the execution of a new agreement by the parties, whichever is later, an agreement of distributorship must be reduced to writing and an exact copy of the agreement must be filed with the department as a public document and must be available to any of the parties to a dispute. Upon filing with the department, the agreement becomes subject to the provisions of 16-1-106, 16-3-401, and 16-3-415 through 16-3-421.

(2) Upon being satisfied, from such application or otherwise, that the applicant is qualified as provided, the department shall issue a license to such person, which license shall at all times be prominently displayed in the place of business of the applicant.

(3) If the department shall find that the applicant is not qualified, no license shall be granted and the license fee tendered shall be returned by the department.

(4) The department shall have the right and is hereby given authority to make, at any time, an examination of the books of account of any such retailer and of his premises and otherwise check his methods of conducting business and the alcoholic content of the beer kept by him for sale.

(5) A person may not sell beer at retail without a valid license issued under this code.

16-4-105. Limit on retail beer licenses — wine license amendments — limitation on use of license — exceptions. (1) Except as otherwise provided by law, a license to sell beer at retail or beer and wine at retail, in accordance with the provisions of this code and the rules of the department, may be issued to any person, firm, or corporation that is approved by the department as a person, firm, or corporation qualified to sell beer, except that:

(a) the number of retail beer licenses that the department may issue for premises situated within incorporated cities and incorporated towns and within a distance of 5 miles from the corporate limits of the cities and towns must be determined on the basis of population prescribed in 16-4-502 as follows:

(i) in incorporated towns of 500 inhabitants or less and within a distance of 5 miles from the corporate limits of the towns, not more than one retail beer license;

(ii) in incorporated cities or incorporated towns of more than 500 inhabitants and not over 2,000 inhabitants and within a distance of 5 miles from the corporate limits of the cities or towns, one retail beer license for every 500 inhabitants;

(iii) in incorporated cities of over 2,000 inhabitants and within a distance of 5 miles from the corporate limits of the cities, four retail beer licenses for the first 2,000 inhabitants, two additional retail beer licenses for the next 2,000 inhabitants or major fraction of 2,000 inhabitants, and one additional retail beer license for every additional 2,000 inhabitants;

(b) the number of the inhabitants in incorporated cities and incorporated towns, exclusive of the number of inhabitants residing within a distance of 5 miles from the corporate limits of the cities or towns, governs the number of retail beer licenses that may be issued for use within the cities and towns and within a distance of 5 miles from the corporate limits of the cities and towns. If two or more incorporated municipalities are situated within a distance of 5 miles from each other, the total number of retail beer licenses that may be issued for use in both the incorporated municipalities and within a distance of 5 miles from their respective corporate limits must be determined on the basis of the combined populations of both municipalities and may not exceed the limitations in this section. The distance of 5 miles from the corporate limits of any incorporated city or incorporated town must be measured in a straight line from the nearest entrance of the premises proposed for licensing to the nearest corporate boundary of the city or town.

(c) retail beer licenses of issue on March 7, 1947, and retail beer licenses issued under 16-4-110 that are in excess of the limitations in this section are renewable, but new licenses may not be issued in violation of the limitations;

(d) the limitations do not prevent the issuance of a nontransferable and nonassignable retail beer license to an enlisted persons', noncommissioned officers', or officers' club located on a state or federal military reservation on May 13, 1985, or to a post of a nationally chartered veterans' organization or a lodge of a recognized national fraternal organization if the veterans' or fraternal organization has been in existence for a period of 5 years or more prior to January 1, 1949;

(e) the number of retail beer licenses that the department may issue for use at premises situated outside of any incorporated city or incorporated town and outside of the area within a distance of 5 miles from the corporate limits or for use at premises situated within any unincorporated area must be determined by the department in its discretion, except that a retail beer license may not be issued for any premises so situated unless the department determines that the issuance of the license is required by public convenience and necessity pursuant to 16-4-203. Subsection (3) does not apply to licenses issued under this subsection (1)(e). The owner of the license whose premises are situated outside of an incorporated city or town may offer gambling, regardless of when the license was issued, if the owner and premises qualify under Title 23, chapter 5, part 3, 5, or 6.

(2) A person holding a license to sell beer for consumption on the premises at retail may apply to the department for an amendment to the license permitting the holder to sell wine as well as beer. The division may issue an amendment if it finds, on a satisfactory showing by the applicant, that the sale of wine for consumption on the premises would be supplementary to a restaurant or prepared-food business. Except for beer and wine licenses issued pursuant to 16-4-420, a person holding a beer and wine license may sell wine for consumption on or off the premises. Nonretention of the beer license, for whatever reason, means automatic loss of the wine amendment license.

(3) (a) Except as provided in subsections (1)(e) and (3)(b), a license issued pursuant to this section after October 1, 1997, must have a conspicuous notice that the license may not be used for premises where gambling is conducted.

(b) Subsection (3)(a) does not apply to licenses issued under this section if the department received the application before October 1, 1997. For the purposes of this subsection (3)(b), the application is received by the department before October 1, 1997, if the application's mail cover is postmarked by the United States postal service before October 1, 1997, or if the application was consigned to a private courier service for delivery to the department before October 1, 1997. An applicant who consigns an application to a private courier shall provide to the department, upon demand, documentary evidence satisfactory to the department that the application was consigned to a private courier before October 1, 1997.

16-4-202. Resort retail all-beverages licenses. (1) It is the intent and purpose of this section to encourage the growth of quality recreational resort facilities in undeveloped areas of the state and to provide for the orderly growth of existing recreational sites by the establishment of resort areas within which retail all-beverages licenses may be issued by the department under the terms of this section. In addition to the licenses set forth in this code, the department may issue one resort retail all-beverages license for the first 100 accommodation units and an additional license for each additional 50 accommodation units in a resort area. Regardless of how many resort area all-beverages licenses are issued, no more than 20 gambling machine permits may be issued for the resort area.

(2) (a) For the purposes of this section, "resort area" means a recreational facility meeting the qualifications determined by the department and as otherwise provided in this section.

(b) The term does not include any land or improvements that lie wholly within the boundaries of a quota area as described in 16-4-201(1).

(3) The department shall determine that the area for which licenses are to be issued is a resort area pursuant to rules.

(4) (a) In addition to the other requirements of this code, a resort area, for the purposes of qualification for the issuance of a resort retail all-beverages license, must:

(i) have a current actual valuation of resort or recreational facilities, including land and improvements, of not less than $500,000, at least half of which valuation must be for a structure or structures within the resort area;

(ii) be under the sole ownership or control of one person or entity at the time of the filing of the resort area plat referred to in subsection (5);

(iii) contain a minimum of 50 acres of land;

(iv) contain a minimum of 100 overnight guest accommodation units, each unit capable of being separately locked by the occupants and containing sleeping, bath, and toilet facilities; and

(v) provide on the grounds of the resort the recreational facilities that warrant the resort designation being granted.

(b) For the purposes of this section, "control" means land or improvements that are owned or that are held under contract, lease, option, or permit.

(5) The resort area must be determined by the resort area developer or landowner by a plat setting forth the resort area boundaries and designating the ownership of the lands within the resort area. The plat must be verified by the resort area developer or landowner and must be filed with the department prior to the filing of any applications for resort retail all-beverages licenses within the resort area. The plat must show the location and general design of the buildings and other improvements existing or to be built in the resort area. A master plan for the development of the resort area may be filed by the resort area developer in satisfaction of this section.

(6) Within 7 days after the plat is filed, the department shall schedule a public hearing to be held in the proposed area to determine whether the facility proposed by the resort area developer or landowner is a resort area. At least 30 days prior to the date of the hearing, the department shall publish notice of the hearing in a newspaper published in the county or counties in which the resort area is located, once a week for 4 consecutive weeks. The notice must include a description of the proposed resort area. Each resort area developer or landowner shall, at the time of filing an application, pay to the department an amount sufficient to cover the costs of publication.

(7) Any person may present, in person or in writing, a statement to the department at the hearing in opposition to or support of the plat.

(8) Within 30 days after the hearing, the department shall accept or reject the plat. If the plat is rejected, the department shall state its reasons and set forth the conditions, if any, under which the plat will be accepted. The decision of the department may be reviewed pursuant to the review procedure set forth in 16-4-406.

(9) Once filed with the department, the boundaries of a resort area may not be changed without:

(a) a hearing, noticed and conducted in the same manner as provided in subsections (6) and (7); and

(b) the prior approval of the department, determined according to public convenience and necessity.

(10) (a) When the department has accepted a plat and a given resort area has been determined, applications may be filed with the department for the issuance of resort retail all-beverages licenses within the resort area.

(b) Each applicant shall submit plans showing the location, appearance, and floor plan of the premises for which application for a resort retail all-beverages license is made.

(1) An original license issued pursuant to 16-4-104, 16-4-201, 16-4-202, or 16-4-208 or the transfer of location of an on-premises retail license may be approved if the department does not receive the minimum number of protests required for a public convenience and necessity determination pursuant to 16-4-207, in which case the application must be regarded as a prima facie showing of public convenience and necessity and no further determination of public convenience and necessity is allowed.

(2) (a) If the department receives at least the minimum number of protests required for a public convenience and necessity determination, as provided in 16-4-207, an application must be approved when evidence indicates that the issuance of an original license or transfer of location will materially promote the public's ability to engage in the licensed activity.

(b) The issuance of an original license or a transfer of location will materially promote the public's ability to engage in the licensed activity if:

(i) the applicant's history and experience demonstrate the capacity to operate the proposed license in a lawful manner;

(iv) the approval of the application for the premises at the proposed location is consistent with adopted or pending planning, annexation, and zoning ordinances of local governments that confer or will confer jurisdiction over business and developments such as the proposed license in the quota area where the proposed premises is located and in quota areas adjacent to the quota area where the proposed premises is located.

(3) When determining whether or not an application is justified by public convenience and necessity, the department may:

(a) receive evidence at the public hearing specified in 16-4-207 only from the applicant, any protestors whose protests the department has accepted pursuant to 16-4-207, and any other person summoned or called by either a protestor or applicant;

(b) find that the application is justified by public convenience and necessity if the applicant has provided substantial credible evidence as provided for in this subsection (3) that shows that the department's approval of the application will materially promote the public's ability to engage in the licensed activity. The substantial credible evidence required must include a consideration of each of the components of materially promoting the public's ability to engage in the licensed activity as provided in subsection (2)(b).

(4) For the purposes of this section, the following definitions apply:

16-4-402. Application — investigation. (1) Prior to the issuance of a license under this chapter, the applicant shall file with the department an application containing information and statements relative to the applicant and the premises where the alcoholic beverage is to be sold as required by the department.

(2) (a) Upon receipt of a completed application for a license under this code, accompanied by the necessary license fee or letter of credit as provided in 16-4-501(7)(f), the department shall request that the department of justice make a thorough investigation of all matters relating to the application. Based on the results of the investigation or on other information, the department shall determine whether:

(i) the applicant is qualified to receive a license;

(ii) the applicant's premises are suitable for the carrying on of the business; and

(iii) the requirements of this code and the rules promulgated by the department are met and complied with.

(b) This subsection (2) does not apply to a catering endorsement provided in 16-4-111 or 16-4-204(2), a retail beer and wine license for off-premises consumption as provided in 16-4-115, or a special permit provided in 16-4-301.

(c) For an original license application and an application for transfer of location of a license, the department of justice's investigation and the department's determination under this subsection (2) must be completed within 90 days of the request from the department to the department of justice. If information is requested from the applicant by either department, the time period in this subsection (2)(c) is tolled until the requested information is received by the requesting department. The basis for the tolling of the deadline must be documented.

(3) Upon proof that an applicant made a false statement in any part of the original application, in any part of an annual renewal application, or in any hearing conducted pursuant to an application, the application for the license may be denied, and if issued, the license may be revoked.

(4) The department shall issue a conditional approval letter upon the last occurrence of either:

(a) completion of the investigation and determination provided for in subsection (2) if the department has not received information that would cause the department to deny the application; or

(b) a final agency decision that either denies or dismisses a protest against the approval of an application pursuant to 16-4-207.

(5) The conditional approval letter must state the reasons upon which the future denial of the application may be based. The reasons for denial of the application after the issuance of the conditional approval letter are as follows:

(a) there is false or erroneous information in the application;

(b) the premises are not approved by local building, health, or fire officials;

(c) there are physical changes to the premises that if known prior to the issuance of the conditional approval letter would have constituted grounds for the denial of the application or denial of the issuance of the conditional approval; or

(d) a final decision by a court exercising jurisdiction over the matter either reverses or remands the department's final agency decision provided for in subsection (4).

16-4-404. Protest period — contents of license — posting — privilege — transfer. (1) A license may not be issued until on or after the date set in the notice for hearing protests.

(2) Every license issued under this code must state the name of the person to whom it is issued, the location, by street and number or other appropriate specific description of location if no street address exists, of the premises where the business is to be carried on under the license, and other information the department considers necessary. If the licensee is a partnership or if more than one person has an interest in the business operated under the license, the names of all persons in the partnership or interested in the business must appear on the license. Every license must be posted in a conspicuous place on the premises in which the business authorized under the license is conducted,

and the license must be exhibited upon request to any authorized representative of the department or the department of justice or to any peace officer of the state of Montana.

(3) A license issued under the provisions of this code is a privilege personal to the licensee named in the license and is valid until the expiration of the license unless sooner revoked or suspended.

(4) A license may be transferred to the executor or administrator of the estate of a deceased licensee when the estate consists in whole or in part of the business of selling alcoholic beverages under a license. The license may descend or be disposed of with the licensed business under appropriate probate proceedings.

(5) (a) A licensee may apply to the department for a transfer of the license to different premises within the quota area if:

(i) there has been major loss or damage to the licensed premises by unforeseen natural causes;

(ii) the lease of the licensed premises has expired;

(iii) in case of rented licensed premises, there has been an eviction or increase of rent by the landlord; or

(iv) the licensee has proposed removal of the license to premises that are as substantially suited for the retail alcoholic beverages business as the premises proposed to be vacated.

(b) The department may, after notice and opportunity for protest, permit a transfer in the cases specified in subsection (5)(a) if it appears to the department that a transfer is required to do justice to the licensee applying for the transfer and the transfer is justified by public convenience and necessity, pursuant to 16-4-203, unless a public convenience and necessity hearing is required by 16-4-207. The department may not allow a transfer to different premises where the sanitary, health, and service facilities are less satisfactory than facilities that exist or had existed at the premises from which the transfer is proposed to be made.

(6) Upon a bona fide sale of the business operated under a license, the license may be transferred to a qualified purchaser. A transfer of a license to a person or location is not effective unless approved by the department. A licensee or transferee or proposed transferee who operates or attempts to operate under a supposedly transferred license prior to the approval of the transfer by the department, endorsed upon the license in writing, is considered to be operating without a license and the license affected may be revoked or suspended by the department. The department may, within its discretion, permit a qualified purchaser to operate the business to be transferred pending final approval if there has not been a change in location and the application for transfer has been filed with the department.

(7) Except as provided in 16-4-204 and subsections (2) through (6) of this section, a license may not be transferred or sold or used for any place of business not described in the license. A license may be subject to mortgage and other valid liens, in which event the name of the mortgagee, upon application to and approval of the department, must be endorsed on the license. Beer or wine sold to a licensee on credit pursuant to 16-3-243 or 16-3-406 does not create a lien upon a license, but a subsequent licensee has the obligation to pay for the beer or wine.

16-4-412. Limits on concurrent applications. (1) An application for the issuance of a new license or for the transfer of an existing license may not be considered by the department if a previous application for the same premises is pending. An application is considered pending if a final decision:

(a) has not been made by the department; or

(b) has been made by the department but:

(i) a petition for judicial review can still be filed or has been filed; or

(ii) an appeal to the Montana supreme court can still be filed or has been filed.

(2) This section does not prevent the department from considering more than one application for the same location pursuant to competition for a last available license.

History: En. Sec. 1, Ch. 156, L. 1991.

16-4-413. Denial of application — five-year moratorium. (1) If an application for the issuance of a new license or for the transfer of an existing license has been denied for any reason provided in 16-4-405, the department may not consider an application or issue any retail license, special permit, or special license for those premises for 5 years unless the department, using the criteria described in subsection (3), determines that the proposed use is substantially different from the use that was rejected. The prohibition period commences on the date of the final agency decision or, if judicially reviewed, on the date the judicial decision is final.

(2) If an application is withdrawn after a hearing has been held in which testimony is received regarding any reason for denial provided in 16-4-405, the effect of the withdrawal is the same as if a final decision had been made denying the application for any reason provided in 16-4-405. The 5-year prohibition against considering an application or issuing a license for that vicinity commences on the date of the withdrawal.

(3) The department shall determine whether a proposed use is substantially different by considering:

(a) the capacity of the proposed use;

(b) the nature of the establishment;

(c) the presence and character of any entertainment; and

(d) the characteristics of the neighborhood.

History: En. Sec. 2, Ch. 156, L. 1991.

16-4-415. Changes in business entity ownership — department approval required. (1) In the case of corporate licensees, a person or entity that does not own stock or owns less than 10% of the stock in the corporation may not receive stock that results in the person or entity's share of stock in the corporation being 10% or greater unless the department reviews and determines that the person or entity qualifies for ownership of a liquor license as provided in 16-4-401.

(2) In the case of all other business entities, when a proposed transfer of ownership would result in a party who prior to the transfer owned no interest in the license owning an interest in the license, the proposed transfer must be submitted to the department for review. The proposed new party must qualify for ownership of a liquor license as provided in 16-4-401.

(3) In the case of a proposed change in business entity, the proposed new business entity shall apply for a transfer of ownership of the license with the department prior to changing the business entity. (a) in the case of an individual applicant:

(i) the applicant's past record and present status as a purveyor of alcoholic beverages and as a business person and citizen demonstrate that the applicant is likely to operate the establishment in compliance with all applicable laws of the state and local governments; and

(ii) if the applicant consists of more than one corporation, all corporations listed on a national stock exchange shall meet the requirements of subsection (1)(b)(i) and corporations not listed on a national stock exchange shall meet the requirements of subsection (1)(b)(ii);

(d) the applicant operates a restaurant at the location where the restaurant beer and wine license will be used or satisfies the department:

(i) that the applicant intends to open a restaurant that will meet the requirements of subsection (6) and intends to operate the restaurant so that at least 65% of the restaurant's gross income during its first year of operation is expected to be the result of the sale of food;

(ii) that the restaurant beer and wine license will be used in conjunction with that restaurant, that the restaurant will serve beer and wine only to a patron who orders food, and that beer and wine purchases will be stated on the food bill; and

(iii) that the restaurant will serve beer and wine from a service bar, as service bar is defined by the department by rule;

(e) the applicant understands and acknowledges in writing on the application that this license prohibits the applicant from being licensed to conduct any gaming or gambling activity or operate any gambling machines and that if any gaming or gambling activity or machine exists at the location where the restaurant beer and wine license will be used, the activity must be discontinued or the machines must be removed before the restaurant beer and wine license takes effect; and

(f) the applicant states the planned seating capacity of the restaurant, if it is to be built, or the current seating capacity if the restaurant is operating.

(2) (a) A restaurant that has an existing retail license for the sale of beer, wine, or any other alcoholic beverage may not be considered for a restaurant beer and wine license at the same location.

(b) A restaurant that sells its existing retail license may not apply for a license under this section for a period of 1 year from the date that license is transferred to a new purchaser.

(3) (a) A completed application for a license under this section and the appropriate application fee, as provided in subsection (11), must be submitted to the department. The department shall request that the department of justice make an investigation of all the items relating to the application as described in subsections (3)(a)(i) through (3)(a)(iv). Based on the results of the investigation or in exercising its sound discretion, the department shall determine whether:

(i) the applicant is qualified to receive a license;

(ii) the applicant's premises are suitable for the carrying on of the business;

(iii) the requirements of this code and the rules promulgated by the department are met and complied with; and

(iv) the seating capacity as stated on the application is correct.

(b) The department may retain 20% of the application fee collected under subsection (11) to defray the costs of the department and department of justice associated with investigating and processing applications.

(4) An application for a beer and wine license submitted under this section is subject to the provisions of 16-4-203, 16-4-207, and 16-4-405.

(5) If a premises proposed for licensing under this section is a new or remodeled structure, then the department may issue a conditional license prior to completion of the premises based on reasonable evidence, including a statement from the applicant's architect or contractor confirming that the seating capacity stated on the application is correct, that the premises will be

suitable for the carrying on of business as a bona fide restaurant, as defined in subsection (6).

(6) For purposes of this section, "restaurant" means a public eating place where individually priced meals are prepared and served for on-premises consumption. At least 65% of the restaurant's annual gross income from the operation must be from the sale of food and not from the sale of alcoholic beverages. Each year after a license is issued, the applicant shall file with the department a statement, in a form approved by the department, attesting that at least 65% of the gross income of the restaurant during the prior year resulted from the sale of food. The restaurant must have a dining room, a kitchen, and the number and kinds of employees necessary for the preparation, cooking, and serving of meals in order to satisfy the department that the space is intended for use as a full-service restaurant. A full-service restaurant is a restaurant that provides an evening dinner meal.

(7) (a) (i) Subject to the conditions of subsection (7)(a)(ii), a restaurant beer and wine license may be transferred, upon approval by the department, from the original applicant to a new owner of the restaurant if there is no change of location, and the original owner may transfer location after the license is issued by the department to a new location, upon approval by the department.

(ii) A new owner may not transfer the license to a new location for a period of 1 year following the transfer of the license to the new owner.

(b) A license issued under this section may be jointly owned, and the license may pass to the surviving joint tenant upon the death of the other tenant. However, the license may not be transferred to any other person or entity by operation of the laws of inheritance or succession or any other laws allowing the transfer of property upon the death of the owner in this state or in another state.

(c) An estate may, upon the sale of a restaurant that is property of the estate and with the approval of the department, transfer a restaurant beer and wine license to a new owner.

(8) (a) The department shall issue a restaurant beer and wine license to a qualified applicant:

(i) for a restaurant located in a quota area with a population of 20,000 persons or fewer, as the quota area population is determined in 16-4-105, if the number of restaurant beer and wine licenses issued in that quota area is equal to or less than 80% of the number of beer licenses that may be issued in that quota area pursuant to 16-4-105;

(ii) for a restaurant located in a quota area with a population of 20,001 to 60,000 persons, as the quota area population is determined in 16-4-105, if the number of restaurant beer and wine licenses issued in that quota area is equal to or less than 50% of the number of beer licenses that may be issued in that quota area pursuant to 16-4-105;

(iii) for a restaurant located in a quota area with a population of 60,001 persons or more, as the quota area population is determined in 16-4-105, if the number of restaurant beer and wine licenses issued in that quota area is equal to or less than 40% of the number of beer licenses that may be issued in that quota area pursuant to 16-4-105; and

(iv) for a restaurant located in a quota area that is also a resort community, as the resort community is designated by the department of commerce under 7-6-1501(5), if the number of restaurant beer and wine licenses issued in the quota area that is also a resort community is equal to or less than 100% of the number of beer licenses that may be issued in that quota area pursuant to 16-4-105.

(b) In determining the number of restaurant beer and wine licenses that may be issued under this subsection (8) based on the percentage amounts described in subsections (8)(a)(i) through (8)(a)(iii), the department shall round to the nearer whole number.

(c) If the department has issued the number of restaurant beer and wine licenses authorized for a quota area under subsections (8)(a)(i) through (8)(a)(iii), there must be a one-time adjustment of one additional license for that quota area.

(d) If there are more applicants than licenses available in a quota area, then the license must be awarded by lottery as provided in subsection (9).

(9) (a) When a restaurant beer and wine license becomes available by the initial issuance of licenses under this section or as the result of an increase in the population in the quota area, the nonrenewal of a restaurant beer and wine license, or the lapse or revocation of a license by the department, then the department shall advertise the availability of the license in the quota area for which it is available. If there are more applicants than number of licenses available, the license must be awarded to an applicant by a lottery.

(b) Any applicant who operates a restaurant that meets the qualifications of subsection (6) for at least 12 months prior to the filing of an application must be given a preference, and any unsuccessful lottery applicants from previous selections must also be given a preference. An applicant with both preferences must be awarded a license before any applicant with only one preference.

(c) The department shall numerically rank all applicants in the lottery. Only the successful applicants will be required to submit a completed application and a one-time required fee. An applicant's ranking may not be sold or transferred to another person or entity. The preference and an applicant's ranking apply only to the intended license advertised by the department or to the number of licenses determined under subsection (8) when there are more applicants than licenses available. The applicant's qualifications for any other restaurant beer and wine license awarded by lottery must be determined at the time of the lottery.

(10) Under a restaurant beer and wine license, beer and wine may not be sold for off-premises consumption.

(11) An application for a restaurant beer and wine license must be accompanied by a fee equal to 20% of the initial licensing fee. If the department does not make a decision either granting or denying the license within 4 months of receipt of a complete application, the department shall pay interest on the application fee at the rate set in 16-1-409(4) until a license is issued or the application is denied. Interest may not accrue during any period that the processing of an application is delayed by reason of a protest filed pursuant to 16-4-203 or 16-4-207. If the department denies issuing a license to an applicant, the application fee, plus any interest, less a $100 processing fee, must be refunded to the applicant. Upon the issuance of a license, the licensee shall pay

the balance of the initial licensing fee. The amount of the initial licensing fee is determined according to the following schedule:

(a) $5,000 for restaurants with a stated seating capacity of 60 persons or less;

(b) $10,000 for restaurants with a stated seating capacity of 61 to 100 persons; or

(c) $20,000 for restaurants with a stated seating capacity of 101 persons or more.

(12) The annual fee for a restaurant beer and wine license is $400.

(13) If a restaurant licensed under this part increases the stated seating capacity of the licensed restaurant or if the department determines that a licensee has increased the stated seating capacity of the licensed restaurant, then the licensee shall pay to the department the difference between the fees paid at the time of filing the original application and issuance of a license and the applicable fees for the additional seating.

(14) The number of beer and wine licenses issued to restaurants with a stated seating capacity of 101 persons or more may not exceed 25% of the total licenses issued.

(15) Possession of a restaurant beer and wine license is not a qualification for licensure of any gaming or gambling activity. A gaming or gambling activity may not occur on the premises of a restaurant with a restaurant beer and wine license.

16-4-801. Security interest in liquor license. (1) (a) A security interest in a liquor license is an interest in the liquor license that secures payment or performance of an obligation. A contract for the sale of a liquor license, including a provision allowing the seller to retain an ownership interest in the license solely for the purpose of guaranteeing payment for the license, may, for the purposes of this section, be treated as a security interest.

(b) For the purposes of this section:

(i) "default" means that:

(A) the defaulting party has acknowledged in writing pursuant to the terms of a written security agreement or contract for sale that the defaulting party no longer has any ownership interest or any other rights to possess or control the liquor license; or

(B) a court of competent jurisdiction has made an order foreclosing all of the defaulting party's interests in the license; and

(ii) "liquor license" means a license issued under this chapter.

(2) The department, after review of the underlying documents creating the security interest, may approve a transfer of ownership of a liquor license subject to a security interest as provided in subsection (1). A person holding a security interest may not have any control in the operation of the business operated under a license subject to a security interest nor may that person share in the profits or the liabilities of the business other than the payment or performance of the licensee's obligation under a security agreement.

(3) (a) Within 7 days of a default by a licensee, the person holding the security interest shall give notice to the department of the licensee's default and either apply to have the license transferred to that person, subject to that person meeting the requirements of 16-4-401 and all other applicable provisions of this code, or the person shall place the license on nonuser status. Upon receipt of an application to transfer the license, the department may, pursuant to 16-4-404, grant the applicant temporary authority to operate the license. If the person holding the license places the license on nonuser status, the person shall transfer ownership of the license within 180 days from the date on which the notice of the default was given to the department. The operation of a business under a license by a person holding a security interest for more than 7 days after default of the licensee or without temporary authority issued by the department must be considered to be a violation of this code and constitutes grounds for the department to either deny an application for transfer of the license or for the revocation of the license pursuant to 16-4-406.

(b) If the person holding the security interest does not qualify for or cannot qualify for ownership of a liquor license under 16-4-401, the secured party shall transfer ownership of the liquor license within 180 days of the notice of the default of the licensee.

(c) The department, upon a showing of good cause, may in its discretion extend the time for sale of the license for an additional period of up to 180 days.

(b) The cost of doing business by the retailer must be expressed as a percentage and applied to the cost to the wholesaler from whom the cigarettes were purchased.

(c) A retailer who purchases directly from a manufacturer or from any other person at or at less than or about the price normally and usually charged for purchases in wholesale quantities shall, in determining the cost to the retailer, add the cost of doing business by the wholesaler, as determined in subsection (5)(b), to the basic cost of cigarettes to the retailer, as well as the cost of doing business by the retailer.

(d) In the absence of the filing with the department of satisfactory proof of a lesser or higher cost of doing business by the retailer making the sale, the cost of doing business by the retailer is presumed to be 10% of the cost to the wholesaler.

(5) (a) The term "cost to the wholesaler" means the basic cost of cigarettes purchased by the wholesaler from a manufacturer plus the cost of doing business by the wholesaler as evidenced by the standards and methods of accounting regularly employed by the wholesaler in the wholesaler's determination of costs for income tax reporting purposes for the total operation of the wholesaler's business. Part 2
Sales Price of Cigarettes

16-10-201. Wholesaler-to-wholesaler sales. When one wholesaler sells cigarettes to any other wholesaler, the former may not be required to include in the selling price to the latter the cost to the wholesaler, as provided by 16-10-103, except that no such sale may be made at a price less than the basic cost of cigarettes, as defined in 16-10-103, but the latter wholesaler, upon resale to a retailer, is considered to be the wholesaler governed by the provisions of 16-10-103(5).

History: En. Sec. 4, Ch. 258, L. 1965; R.C.M. 1947, 51-305; amd. Sec. 6, Ch. 578, L. 1995.

History: En. Sec. 5, Ch. 258, L. 1965; R.C.M. 1947, 51-306.

16-10-203. Sales to meet competition permitted. (1) (a) Any retailer may advertise, offer to sell, or sell cigarettes at a price made in good faith to meet the price of a competitor who is selling the same article at cost to him as a retailer as prescribed in this chapter.

(b) Any wholesaler may advertise, offer to sell, or sell cigarettes at a price made in good faith to meet the price of a competitor who is rendering the same type of service and is selling the same article at cost to him as a wholesaler as prescribed in this chapter.

(c) The price of cigarettes advertised, offered for sale, or sold under the exceptions specified in 16-10-304 shall not be considered the price of a competitor and shall not be used as a basis for establishing prices below cost, nor shall the price established at a bankrupt sale be considered the price of a competitor within the purview of this section.

(2) In the absence of proof of the "price of a competitor" under this section, the "lowest cost to the retailer" or the "lowest cost to the wholesaler", as the case may be, determined by any "cost survey" made pursuant to 16-10-303, may be considered to be the "price of a competitor" within the meaning of this section.

History: En. Sec. 7, Ch. 258, L. 1965; R.C.M. 1947, 51-308.

16-10-204. Determining cost — prices below cost — free merchandise. (1) In determining the cost to the retailer and the cost to the wholesaler, the department or a court shall receive and consider evidence tending to show that any person accused of violating the provisions of this chapter purchased cigarettes, with respect to the sale of which complaint is made, below either the cost to the retailer or the cost to the wholesaler, depending upon the status of the person accused, or upon terms or in a manner or under invoices that conceal the true cost, discounts, or terms of purchase. Further, the department or a court shall receive and consider evidence of the normal, customary, and prevailing terms and discounts in connection with other sales of a similar nature in this state.

(2) Merchandise given gratis or payment made to a retailer or wholesaler by the manufacturer of the merchandise for display, advertising, promotion purposes, any type of discount, or otherwise may not be considered in determining the cost of cigarettes to the retailer or wholesaler.

History: En. Sec. 9, Ch. 258, L. 1965; R.C.M. 1947, 51-310; amd. Sec. 7, Ch. 578, L. 1995.

16-10-205. Purchases outside ordinary trade channels. In establishing the cost of cigarettes to the retailer or wholesaler, the invoice cost of said cigarettes purchased at a forced, bankrupt, or closeout sale or other sale outside of the ordinary channels of trade may not be used as a basis for justifying a price lower than one based upon the replacement cost of the cigarettes to the retailer or wholesaler in the quantity last purchased through the ordinary channels of trade.

History: En. Sec. 10, Ch. 258, L. 1965; R.C.M. 1947, 51-311.

Part 3

(a) advertise, offer to sell, or sell, at retail or wholesale, cigarettes at less than cost to a retailer or wholesaler;

(b) offer a rebate in price, give a rebate in price, offer a concession of any kind, or give a concession of any kind in connection with the sale of cigarettes that are sold by the wholesaler or retailer in the ordinary course of trade or business if the rebate or concession offered or given in connection with the sale of cigarettes is not offered or given by the wholesaler or retailer in the same ratio with respect to all other merchandise to which the rebate or concession may lawfully be given;

(2) for any retailer to:

(a) induce or attempt to induce or procure or attempt to procure the purchase of cigarettes at a price less than the cost to the wholesaler, as defined in this chapter;

The department, upon a finding by it that the licensee has failed to comply with any provisions of this chapter or any rule promulgated under this chapter, shall, in the case of a first offender, suspend the license of the licensee for a period of not less than 5 or more than 20 consecutive business days, impose a civil penalty in an amount not to exceed $500, or order both the suspension and the penalty. Part 1

Tax on Cigarettes

16-11-101. Legislative intent. The legislature hereby declares that its intent in enacting 16-11-111 is to enable those who are subject to the taxes imposed by the federal tax laws to avail themselves of the deductions respecting state and local taxes specified in section 164 of the federal Internal Revenue Code of 1954 in computing their taxable income.

History: **En. Sec. 2, Ch. 97, L. 1963; R.C.M. 1947, 84-5606.1.**

16-11-102. Definitions. (1) As used in this chapter, the following definitions apply, unless the context requires otherwise:

(a) "Cigarettes" means any roll for smoking made wholly or in part of tobacco, irrespective of size or shape and whether or not the tobacco is flavored, adulterated, or mixed with any other ingredient, the wrapper or cover of which is made of nontobacco paper or any other substance or material except tobacco.

(b) "Department" means the department of revenue provided for in 2-15-1301.

(c) "Person" means an individual, firm, partnership, corporation, association, company, or other business entity, however formed.

(2) As used in this part, the following definitions apply, unless the context requires otherwise:

(a) "Cigarette vendor" means a person doing business in the state who purchases cigarettes through a wholesaler, subjobber, or retailer for 10 or more cigarette vending machines that the person operates for a profit in premises or locations other than the person's own. That person must be treated as a wholesaler. A person who operates fewer than 10 cigarette vending machines must be treated as a retailer.

(b) "Full face value of insignia" means the total amount of the tax levied under this part.

(c) "Insignia" or "indicia" means the impression, mark, or stamp approved by the department under the provisions of this part.

(d) "Licensed retailer" means any person, other than a wholesaler, subjobber, or cigarette vendor, who is licensed under the provisions of this part.

(e) "Licensed subjobber" means a subjobber licensed under the provisions of this part. The person must be treated as a wholesaler.

(f) "Licensed wholesaler" means a wholesaler licensed under the provisions of this part.

(g) "Manufacturer" means any person who fabricates cigarettes from raw materials for the purpose of resale.

(h) "Public warehouses" means agents or representatives of manufacturers who receive cigarettes in carload lots for distribution in original cases to wholesalers and retailers.

(i) "Record" means an original document, a legible facsimile, or an electronically preserved copy.

(j) "Retailer" means a person who operates a store, stand, booth, concession, or other outlet for the purpose of selling cigarettes at retail.

(k) "Sale" or "sell" means any transfer of cigarettes for consideration, exchange, barter, gift, offer for sale, or distribution in any manner or by any means.

(l) "Sole distributor" means a person who either causes a unique brand of cigarettes to be manufactured according to distinctive specifications and acts as the exclusive distributor of the cigarettes or is the exclusive distributor of a brand of cigarettes within the continental United States.

(m) "Subjobber" means a person who purchases from a licensed wholesaler cigarettes with the Montana cigarette tax insignia affixed and sells or offers to sell the cigarettes to a licensed retailer or cigarette vendor. An isolated sale or exchange of cigarettes between licensed retailers does not constitute those retailers as subjobbers. A licensed subjobber shall use the license in the interest of the general public. If during any month more than 35% of the volume of cigarette sales by a subjobber is with any retail client whose business is controlled directly or indirectly through consanguinity or affinity with the owner or employer for that retail business, the license is considered to have been used or to be intended to be used in violation of this part.

(n) "Wholesaler" means a person who services retail outlets by maintaining an established place of business for the purchase of cigarettes and who:

(i) purchases cigarettes from a manufacturer for the purpose of selling cigarettes to retailers; or

16-11-111. Cigarette sales tax — exemption for sale to tribal member. (1) A tax on the purchase of cigarettes for consumption, use, or any purpose other than resale in the regular course of business is imposed and must be precollected by the wholesaler and paid to the state of Montana. The tax is 18 cents on each package containing 20 cigarettes and, when packages contain more or less than 20 cigarettes, a tax on each cigarette equal to 1/20th the tax on a package containing 20 cigarettes.

(2) The tax imposed in subsection (1) does not apply to quota cigarettes.

(3) Subject to the refund or credit provided in subsection (4), the tax must be precollected on all cigarettes entering a Montana Indian reservation.

(4) Pursuant to the procedure provided in subsection (5), a wholesaler making a sale of cigarettes to a retailer within the boundaries of a Montana Indian reservation may apply to the department for a refund or credit for taxes precollected on cigarettes sold by the retailer to a member of the federally recognized Indian tribe or tribes on whose reservation the sale is made. A wholesaler who does not file a claim within 1 year of the shipment date forfeits the refund or credit.

(5) The distribution of tax-free cigarettes to a tribal member must be implemented through a system of preapproved wholesaler shipments. A licensed Montana wholesaler shall contact the department for approval prior to the shipment of the untaxed cigarettes. The department may authorize sales based on whether the quota, as established in a cooperative agreement between the department and an Indian tribe or as set out in this chapter, has been met.

If authorized as a tax-exempt sale, the wholesaler, upon providing proof of order and delivery to a retailer within the boundaries of a Montana Indian reservation selling cigarettes to members of a federally recognized tribe or tribes of that reservation, must be given a credit or refund. Once the quota has been filled, the department shall immediately notify all affected wholesalers that further sales on that reservation must be taxed and that a claim for a refund or credit will not be honored for the remainder of the quota period. Quota allocations are not transferable between quota periods or between reservations.

(6) The total amount of refunds or credits allowed by the department to all wholesalers claiming the refund or credit under subsection (4) for any month may not exceed an amount that is equal to the tax due on the quota allocation. The department shall determine the amount of refunds or credits for each Indian reservation at the beginning of each fiscal year, using the most recent census data available from the bureau of Indian affairs or as provided in a cooperative agreement with the tribe or tribes of the Indian reservation.

Effective Date: Section 5, Ch. 412, L. 1999, provided that this part is effective on passage and approval. Approved April 21, 1999.

16-11-401. Findings and purpose. (1) Cigarette smoking presents serious public health concerns to the State and to the citizens of the State. The Surgeon General has determined that smoking causes lung cancer, heart disease and other serious diseases, and that there are hundreds of thousands of tobacco-related deaths in the United States each year. These diseases most often do not appear until many years after the person in question begins smoking.

(2) Cigarette smoking also presents serious financial concerns for the State. Under certain health-care programs, the State may have a legal obligation to provide medical assistance to eligible persons for health conditions associated with cigarette smoking, and those persons may have a legal entitlement to receive such medical assistance.

(3) Under these programs, the State pays millions of dollars each year to provide medical assistance for these persons for health conditions associated with cigarette smoking.

(4) It is the policy of the State that financial burdens imposed on the State by cigarette smoking be borne by tobacco product manufacturers rather than by the State to the extent that such manufacturers either determine to enter into a settlement with the State or are found culpable by the courts.

(5) On November 23, 1998, leading United States tobacco product manufacturers entered into a settlement agreement, entitled the "Master Settlement Agreement," with the State. The Master Settlement Agreement obligates these manufacturers, in return for a release of past, present and certain future claims against them as described therein, to pay substantial sums to the State (tied in part to their volume of sales); to fund a national foundation devoted to the interests of public health; and to make substantial changes in their advertising and marketing practices and corporate culture, with the intention of reducing underage smoking.

(6) It would be contrary to the policy of the State if tobacco product manufacturers who determine not to enter into such a settlement could use a resulting cost advantage to derive large, short-term profits in the years before liability may arise without ensuring that the State will have an eventual source of recovery from them if they are proven to have acted culpably. It is thus in the interest of the State to require that such manufacturers establish a reserve fund to guarantee a source of compensation and to prevent such manufacturers from deriving large, short-term profits and then becoming judgment-proof before liability may arise.

History: En. Sec. 1, Ch. 412, L. 1999.

16-11-402. Definitions. (1) "Adjusted for inflation" means increased in accordance with the formula for inflation adjustment set forth in Exhibit C to the Master Settlement Agreement.

(2) "Affiliate" means a person who directly or indirectly owns or controls, is owned or controlled by, or is under common ownership or control with, another person. Solely for purposes of this definition, the terms "owns," "is owned" and "ownership" mean ownership of an equity interest, or the equivalent thereof, of ten percent or more, and the term "person" means an individual, partnership, committee, association, corporation or any other organization or group of persons.

(3) "Allocable share" means Allocable Share as that term is defined in the Master Settlement Agreement.

(4) "Cigarette" means any product that contains nicotine, is intended to be burned or heated under ordinary conditions of use, and consists of or contains (a) any roll of tobacco wrapped in paper or in any substance not containing tobacco; or (b) tobacco, in any form, that is functional in the product, which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette; or (c) any roll of tobacco wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette described in clause (a) of this definition. The term "cigarette" includes "roll-your-own" (i.e., any tobacco which, because of its appearance, type, packaging, or labeling is suitable for use and likely to be offered to, or purchased by, consumers as tobacco for making cigarettes). For purposes of this definition of "cigarette," 0.09 ounces of "roll-your-own" tobacco shall constitute one individual "cigarette."

(5) "Master Settlement Agreement" means the settlement agreement (and related documents) entered into on November 23, 1998 by the State and leading United States tobacco product manufacturers.

(6) "Qualified escrow fund" means an escrow arrangement with a federally or State chartered financial institution having no affiliation with any tobacco product manufacturer and having assets of at least $1,000,000,000 where such arrangement requires that such financial institution hold the escrowed funds' principal for the benefit of releasing parties and prohibits the tobacco product manufacturer placing the funds into escrow from using, accessing or directing the use of the funds' principal except as consistent with 16-11-403(2) of this Act.

(7) "Released claims" means Released Claims as that term is defined in the Master Settlement Agreement.

(8) "Releasing parties" means Releasing Parties as that term is defined in the Master Settlement Agreement.

(9) "Tobacco Product Manufacturer" means an entity that after the date of enactment of this Act directly (and not exclusively through any affiliate):

(a) manufactures cigarettes anywhere that such manufacturer intends to be sold in the United States, including cigarettes intended to be sold in the United States through an importer (except where such importer is an original participating manufacturer (as that term is defined in the Master Settlement Agreement) that will be responsible for the payments under the Master

Settlement Agreement with respect to such cigarettes as a result of the provisions of subsections II(mm) of the Master Settlement Agreement and that pays the taxes specified in subsection II(z) of the Master Settlement Agreement, and provided that the manufacturer of such cigarettes does not market or advertise such cigarettes in the United States);

(b) is the first purchaser anywhere for resale in the United States of cigarettes manufactured anywhere that the manufacturer does not intend to be sold in the United States; or

(c) becomes a successor of an entity described in paragraph (a) or (b). The term "Tobacco Product Manufacturer" shall not include an affiliate of a tobacco product manufacturer unless such affiliate itself falls within any of paragraphs (a) - (c) above.

(10) "Units sold" means the number of individual cigarettes sold in the State by the applicable tobacco product manufacturer (whether directly or through a distributor, retailer or similar intermediary or intermediaries) during the year in question, as measured by excise taxes collected by the State on packs (or "roll-your-own" tobacco containers) bearing the excise tax stamp of the State. The department of revenue shall promulgate such regulations as are necessary to ascertain the amount of State excise tax paid on the cigarettes of such tobacco product manufacturer for each year.

History: En. Sec. 2, Ch. 412, L. 1999.

16-11-403. Requirements. Any tobacco product manufacturer selling cigarettes to consumers within the State (whether directly or through a distributor, retailer or similar intermediary or intermediaries) after the date of enactment of this Act shall do one of the following:

(1) become a participating manufacturer (as that term is defined in section II(jj) of the Master Settlement Agreement) and generally perform its financial obligations under the Master Settlement Agreement; or

(2) (a) place into a qualified escrow fund by April 15 of the year following the year in question the following amounts (as such amounts are adjusted for inflation) —

1999: $.0094241 per unit sold after the date of enactment of this Act;
2000: $.0104712 per unit sold;
for each of 2001 and 2002: $.0136125 per unit sold;
for each of 2003 through 2006: $.0167539 per unit sold;
for each of 2007 and each year thereafter: $.0188482 per unit sold.

(b) A tobacco product manufacturer that places funds into escrow pursuant to paragraph (a) shall receive the interest or other appreciation on such funds as earned. Such funds themselves shall be released from escrow only under the following circumstances-

(i) to pay a judgment or settlement on any released claim brought against such tobacco product manufacturer by the State or any releasing party located or residing in the State. Funds shall be released from escrow under this subparagraph (A) in the order in which they were placed into escrow and (B) only to the extent and at the time necessary to make payments required under such judgment or settlement;

(ii) to the extent that a tobacco product manufacturer establishes that the amount it was required to place into escrow in a particular year was greater than the State's allocable share of the total payments that such manufacturer would have been required to make in that year under the Master Settlement Agreement (as determined pursuant to section IX(i)(2) of the Master Settlement Agreement, and before any of the adjustments or offsets described in section IX(i)(3) of that Agreement other than the Inflation Adjustment) had it been a participating manufacturer, the excess shall be released from escrow and revert back to such tobacco product manufacturer; or

(iii) to the extent not released from escrow under subparagraphs (i) or (ii), funds shall be released from escrow and revert back to such tobacco product manufacturer twenty-five years after the date on which they were placed into escrow.

(c) Each tobacco product manufacturer that elects to place funds into escrow pursuant to this subsection shall annually certify to the Attorney General that it is in compliance with this subsection. The Attorney General may bring a civil action on behalf of the State against any tobacco product manufacturer that fails to place into escrow the funds required under this section. Any tobacco product manufacturer that fails in any year to place into escrow the funds required under this section shall-

(i) be required within 15 days to place such funds into escrow as shall bring it into compliance with this section. The court, upon a finding of a violation of this subsection, may impose a civil penalty to be paid to the general fund of the state in an amount not to exceed 5 percent of the amount improperly withheld from escrow per day of the violation and in a total amount not to exceed 100 percent of the original amount improperly withheld from escrow;

(ii) in the case of a knowing violation, be required within 15 days to place such funds into escrow as shall bring it into compliance with this section. The court, upon a finding of a knowing violation of this subsection, may impose a civil penalty to be paid to the general fund of the state in an amount not to exceed 15 percent of the amount improperly withheld from escrow per day of the violation and in a total amount not to exceed 300 percent of the original amount improperly withheld from escrow; and

(iii) in the case of a second knowing violation, be prohibited from selling cigarettes to consumers within the State (whether directly or through a distributor, retailer or similar intermediary) for a period not to exceed 2 years. Each failure to make an annual deposit required under this section shall constitute a separate violation.

Dedication of Revenue

17-1-501. Legislative intent. (1) It is the intent of the legislature, by establishing criteria for the review and evaluation of revenue dedication provisions, to ensure that provisions for revenue dedication:

(a) are based on sound principles of revenue dedication as described in 17-1-507;

(b) reflect present circumstances and legislative priorities for state spending;

(c) are terminated when they are no longer necessary or appropriate; and

(d) are subject to the same legislative scrutiny as programs or activities funded from the general fund.

(2) It is the intent of the legislature, by establishing criteria for the review and evaluation of statutory appropriation provisions, to ensure that provisions with statutory appropriations:

(a) reflect present circumstances and legislative priorities for state spending;

(b) are terminated when they are no longer necessary or appropriate; and

(c) are subject to the same legislative scrutiny as other appropriations.

History: En. Sec. 1, Ch. 593, L. 1993; amd. Sec. 14, Ch. 509, L. 1995; amd. Sec. 1, Ch. 8, L. 1999.

1999 Amendment: Chapter 8 deleted former (1) that read: "(1) The legislature finds that provisions for dedicating state revenue and statutorily appropriating funds have increased in number, reduce legislative control over state spending, complicate the state funding structure, and increase the effort required to budget, appropriate, and monitor public funds. The dedication and statutory appropriation of funds result in the inability of the legislature to practically and systematically conduct reasoned prioritization of programs or funds"; and made minor changes in style. Amendment effective October 1, 1999.

17-1-502. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Administrative costs" includes:

(a) personal services;

(b) operating expenses, such as travel, supplies, and communication costs; and

(c) capital expenses, such as equipment, building costs, and real property costs.

(2) (a) "Continuing and reliable source of revenue" means a revenue source for which an agency forecasts an annual level of collections based upon historical data and prepares a budget for expenditures commensurate with the level of collections. Collections may not change significantly on an annual basis.

(b) The term does not include revenue:

(i) that an agency will receive only as a result of an occurrence that is not a routine part of agency operations;

(ii) that will vary significantly on an annual basis; or

(iii) that is unable to be included in the agency budget because of the erratic nature of receipt.

(3) "Dedicated revenue provision" means an administrative or legislative action that allocates the revenue from a tax, fee, assessment, or other source to an account in the state special revenue fund as described in 17-2-102.

(4) "General revenue source" means a source of revenue not governed by established or implied restrictions based on the source or limited use of the revenue. The term includes taxes, interest earnings, investment earnings, fines, and forfeitures.

(5) "State special revenue fund" means a fund in the state treasury consisting of money from state sources that is earmarked for the purposes of defraying particular costs of an agency, program, or function of state government, as provided in 17-2-102.

History: En. Sec. 2, Ch. 593, L. 1993; amd. Sec. 15, Ch. 509, L. 1995.

Amendment effective October 1, 1999.

17-1-504. Effect of termination. (1) If the legislature has appropriated revenue from sources de-earmarked by the legislature, the appropriation is considered to have been made from the general fund.

(2) All assets, liabilities, and fund balances of accounts terminated by the legislature accrue to the general fund.

History: En. Sec. 4, Ch. 593, L. 1993; amd. Sec. 1, Ch. 252, L. 1995; amd. Sec. 17, Ch. 509, L. 1995.

17-1-505. Review of dedicated revenue provisions. (1) Each interim, the legislative finance committee shall review dedicated revenue provisions based upon procedures established under subsection (4) and the principles of revenue dedication set forth in 17-1-507 to ensure that legislative policy is clearly stated.

(2) The legislature recognizes that dedicated revenue provisions are subject to review by:

(a) the office of budget and program planning in the development and implementation of the executive budget and analysis of legislation;

(b) the legislative fiscal division in analyzing the executive budget;

(c) the legislative services division in drafting legislation;

(d) the legislative auditor in auditing agencies; and

(e) the department of administration in performing the functions provided for in 17-2-106 and 17-2-111.

(3) To avoid unnecessary use of dedicated revenue provisions, the entities listed in subsection (2) shall, in the course of current duties, consider the principles in 17-1-507 and the criteria listed in this subsection for each new or existing dedicated revenue provision. A dedicated revenue provision should not give a program or activity an unfair advantage for funding. The expenditures from a dedicated revenue provision must be based on requirements for meeting a legislatively established outcome. Statutorily mandated programs or activities funded through dedicated revenue provisions from general revenue sources must be reviewed to the same extent as programs or activities funded from the general fund. The use of a dedicated revenue provision may be justified if it satisfies one or more of the following:

(a) The program or activity funded provides direct benefits for those who pay the dedicated tax, fee, or assessment, and the tax, fee, or assessment is commensurate with the costs of the program or activity.

(b) The use of the dedicated revenue provision provides special information or other advantages that could not be obtained if the revenue were allocated to the general fund.

(c) The dedicated revenue provision provides program funding at a level equivalent to the expenditures established by the legislature.

(d) The dedicated revenue provision involves collection and allocation formulas that are appropriate to the present circumstances and current priorities in state government.

(e) The dedicated revenue provision does not impair the legislature's ability to scrutinize budgets, control expenditures, and establish priorities for state spending.

(f) The dedicated revenue provision results in an appropriate projected ending fund balance.

(g) The dedicated revenue provision fulfills a continuing, legislatively recognized need.

(h) The dedicated revenue provision does not result in accounting or auditing inefficiency.

(4) The committee shall establish procedures to facilitate a biennial review and evaluation of dedicated revenue provisions.

(5) Upon completion of the review, the committee shall report a summary of its findings to the legislature, including its recommendation of termination or extension, with or without modification, of the dedicated revenue provision.

The summary must state the reason why the revenue dedication is exempt from future review." Amendment effective October 1, 1999.

Chapter 51 in (2)(b) after "legislative" substituted "fiscal" for "finance". Amendment effective March 15, 1999.

17-1-506. Review of legislation. The office of budget and program planning shall, consistent with the review provisions in 17-1-505, review each piece of legislation that proposes to dedicate revenue. The office shall submit its findings concerning the dedication of revenue on the fiscal notes accompanying that legislation.

History: En. Sec. 6, Ch. 593, L. 1993.

17-1-507. Principles of revenue dedication. (1) It is the policy of the legislature that a revenue source not be dedicated for a specific purpose unless one or more of the following conditions are met:

(a) The person or entity paying the tax, fee, or assessment is the direct beneficiary of the specific activity that is funded by the tax, fee, or assessment; the entire cost of the activity is paid by the beneficiary; and the tax, fee, or assessment paid is commensurate with the cost of the activity, including reasonable administrative costs.

(b) There is an expectation that funds donated by a person or entity will be used for a specified purpose. Grants from private or public entities are considered donations under this subsection.

(c) There is a legal basis for the revenue dedication. A legal basis is a constitutional mandate, federal mandate, or statutory requirement in which a source of funds is designated for a specific purpose.

(d) There is a recognized need for accountability through a separation of funding from the general fund consistent with generally accepted accounting principles.

(2) The total funding for a program is a legislative budget and policy issue for which a dedicated revenue provision may not be justified if:

(a) a general fund appropriation is needed to supplement the dedicated revenue support for the program or activity; or

(b) dedicating a revenue source or portion of a revenue source diverts funds that could be considered a general revenue source.

(3) In the consideration of the general appropriations act for each biennium, the legislature shall determine the appropriateness of dedicating revenue to a program or activity under conditions described in subsection (2). The office of budget and program planning shall describe the occurrence in its presentation of the executive budget, and the legislative fiscal analyst shall highlight the issue in the budget analysis and for the appropriations subcommittee considering the revenue dedication.

History: En. Sec. 19, Ch. 509, L. 1995.

17-1-508. Review of statutory appropriations. (1) Each interim, the legislative finance committee shall, based upon procedures established pursuant to subsection (5), review statutory appropriations that are contained in the sections listed in 17-7-502 to eliminate those that no longer fulfill a legislative need and to ensure that legislative policy is clearly stated concerning the use of statutory appropriations.

(2) Each biennium, the office of budget and program planning shall, in development of the executive budget, identify instances in which statutory

appropriations in current law do not appear consistent with the guidelines set forth in subsection (3).

(3) The review of statutory appropriations must determine whether a statutory appropriation meets the requirements of 17-7-502. A statutory appropriation from a continuing and reliable source of revenue may not be used to fund administrative costs. In reviewing and establishing statutory appropriations, the legislature shall consider the following guidelines. A statutory appropriation may be considered appropriate if:

(a) the fund or use requires an appropriation;

(b) the money is not from a continuing, reliable, and estimable source;

(c) the use of the appropriation or the expenditure occurrence is not predictable and reliable;

(d) the authority does not exist elsewhere;

(e) an alternative appropriation method is not available, practical, or effective;

(f) other than for emergency purposes, it does not appropriate money from the state general fund;

(g) the money is dedicated for a specific use;

(h) the legislature wishes the activity to be funded on a continual basis; and

(i) when feasible, an expenditure cap and sunset date are included.

(4) The office of budget and program planning shall prepare a fiscal note for each piece of legislation that proposes to create or amend a statutory appropriation. It shall, consistent with the guidelines in this section, review each of these pieces of legislation. Its findings concerning the statutory appropriation must be contained in the fiscal note accompanying that legislation.

(5) The legislative finance committee shall establish procedures to facilitate a biennial review and evaluation of statutory appropriations. Upon completion of the review, the committee shall report a summary of its findings to the legislature, including a recommendation for terminating, extending, or modifying the statutory appropriations reviewed.

History: En. Sec. 20, Ch. 509, L. 1995; amd. Sec. 19, Ch. 422, L. 1997; amd. Sec. 4, Ch. 8, L. 1999; amd. Sec. 44, Ch. 51, L. 1999.

17-2-101. Title and purpose. (1) Sections 17-2-101 through 17-2-107 may be cited as the "Treasury Fund Structure Act".

(2) The purpose of these sections is to:

(a) comply with Article VIII, section 12, of the Montana constitution;

(b) simplify the accounting system and treasury fund structure of the state;

(c) make possible the full utilization of modern accounting methods;

(d) provide the legislature with a greater measure of control over public money; and

(e) enable the financial records of the state to accurately reflect the state's revenue, expenditures, expenses, and financial position in accordance with generally accepted accounting principles.

History: En. Sec. 1, Ch. 147, L. 1963; R.C.M. 1947, 79-409; amd. Sec. 1, Ch. 540, L. 1979; amd. Sec. 1, Ch. 28, L. 1981; amd. Sec. 6, Ch. 532, L. 1997.

17-2-102. Fund structure. (1) For the purpose of ensuring strict accountability for all revenue received and spent, there are in the state treasury only the following fund categories and types:

(a) the governmental fund category, which includes:

(i) the general fund, which accounts for all financial resources except those required to be accounted for in another fund;

(ii) the special revenue fund type, which accounts for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. The financial activities of the special revenue fund type are subdivided, for operational purposes, into the following funds to serve the purpose indicated:

(A) The state special revenue fund consists of money from state and other nonfederal sources deposited in the state treasury that is earmarked for the purposes of defraying particular costs of an agency, program, or function of state government and money from other nonstate or nonfederal sources that is restricted by law or by the terms of an agreement, such as a contract, trust agreement, or donation.

(B) The federal special revenue fund consists of money deposited in the treasury from federal sources, including trust income, that is used for the operation of state government.

(iii) the capital projects fund type, which accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds or trust funds; and

(iv) the debt service fund type, which accounts for the accumulation of resources for and the payment of general long-term debt principal and interest;

(b) the proprietary fund category, which includes:

(i) the enterprise fund type, which accounts for operations:

(A) that are financed and operated in a manner similar to private business enterprises whenever the intent of the legislature is that costs (i.e., expenses, including depreciation) of providing goods or services to the general public on a continuing basis are to be financed or recovered primarily through user charges; or

(B) whenever the legislature has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes; and

(ii) the internal service fund type, which accounts for the financing of goods or services provided by one department or agency to other departments or agencies of state government or to other governmental entities on a cost-reimbursed basis;

(c) the fiduciary fund category, which includes trust and agency fund types used to account for assets held by state government in a trustee capacity or as an agent for individuals, private organizations, other governmental entities, or other funds. These include the:

(i) expendable trust fund type;

(ii) nonexpendable trust fund type;

(iii) investment trust fund type;

(iv) pension trust fund type; and

(v) agency fund type.

(d) the higher education funds, which include:

(i) the current fund, which accounts for money deposited in the state treasury that is used to pay current operating costs relating to instruction, research, public service, and allied support operations and programs conducted within the Montana university system. The financial activities of the current fund are subdivided, for operational purposes, into the four following subfunds to serve the purpose indicated:

(A) The unrestricted subfund segregates that portion of the current fund's financial resources that can be expended for general operations and is free of externally imposed restrictions, except those imposed by the legislature.

(B) The restricted subfund segregates that portion of the current fund's financial resources that can be expended for general operations but only for purposes imposed by sources external to the board of regents and the legislature.

(C) The designated subfund segregates that portion of the current fund's financial resources that is associated with general operations but is separately classified in order to accumulate costs that are to be recharged as allocated to other funds or subfunds, identifies financial activities related to special organized activities of educational departments in which the activity is fully supported by supplemental assessments, and identifies special supply and facility fees that are approved for collections beyond normal course fees and their disposition.

(D) The auxiliary subfund segregates that portion of the current fund's financial resources that is devoted to providing essential on-campus services primarily to students, faculty, or staff wherein a fee, which is directly related to but does not necessarily equal the cost of the service provided, is charged to the consumer.

(ii) the student loan fund, which accounts for money deposited in the state treasury that may be loaned to students, faculty, or staff for purposes related to education, organized research, or public services by the Montana university system;

(iii) the endowment fund, which accounts for money deposited in the state treasury by the Montana university system wherein the principal portion of the amount received is nonexpendable but is available for investment, thus producing consumable income. Expendable earnings on endowment funds are to be transferred to appropriate operating funds pursuant to prevailing administrative requirements.

(iv) the annuity and life income fund, which accounts for money deposited in the state treasury by the Montana university system under an agreement whereby the money is made available on condition that the receiving unit of the Montana university system binds itself to pay stipulated amounts periodically to the donor or others designated by the donor over a specified period of time;

(v) the plant fund, which accounts for those financial resources allocated to or received by the Montana university system for capital outlay purposes or to retire long-term debts associated with construction or acquisition of fixed assets and the net accumulative results of these activities; and

(vi) the agency fund, which accounts for money deposited in the state treasury wherein the Montana university system acts in the capacity of a custodian or fiscal agent for individual students, faculty, staff, and qualified organizations.

(2) In addition to the funds provided for in subsection (1), there are in the state treasury the following account groups:

(a) the fixed assets account group, which is a self-balancing group of accounts set up to establish accounting control and accountability for the state's general fixed assets, except those accounted for in proprietary funds, trust funds, and the higher education funds designated in subsections (1)(d)(i)(D), (1)(d)(iii), and (1)(d)(v); and

(b) the long-term debt account group, which is a self-balancing group of accounts set up to establish accounting control and accountability for the state's unmatured general long-term liabilities, except those accounted for in proprietary funds, trust funds, and the higher education funds designated in subsections (1)(d)(i)(D), (1)(d)(iii), and (1)(d)(v).

17-2-103. Previous definitions of funds — identification or segregation of money and funds. (1) It is the intent of the legislature that the definitions in 17-2-102 supersede all previous definitions of public funds that are inconsistent with the definitions found in this part.

(2) Any laws enacted in the future or any contracts entered into in the future in pursuance of law that require the segregation of money in the state treasury by means of a separate treasury fund must be interpreted as permitting the segregation of the money by means of a subfund or account within one of the funds created by 17-2-102.

(3) Each federal grant or other federal money within any subfund or account of one of the funds created by 17-2-102(1)(a) through (1)(c) must be identifiable as a separate accounting entity, reporting center, responsibility center, or revenue identification code, and an account must be made of each such grant or other money by income and expenditure for each federal grant year or fiscal year as may be applicable.

(4) Unless otherwise specifically provided in the statutes pertaining to the tax, the portion of taxes collected by the state that, pursuant to a statute, are to be allocated or distributed to units of local government, school districts, authorities, or other local governmental entities must be accounted for in a state special revenue fund, established in 17-2-102, as prescribed by the department in accordance with generally accepted accounting principles.

17-2-105. Maintenance of fund and account records and interfund loans. (1) The state treasurer shall record receipts and disbursements for treasury funds and shall maintain fund records in a manner that reflects the total cash and invested balance of each fund. The state treasurer shall also maintain records of individual funds within the debt service, agency, capital projects, and trust fund types in a manner that reflects the total cash and invested balance of each fund. When necessary to meet federal or other requirements that money be segregated in the treasury, the state treasurer may establish accounts, funds, or subfunds within any fund type listed in 17-2-102.

(2) (a) For the purpose of supplying deficiencies in the general fund, the state treasurer may temporarily borrow from other treasury funds, excluding pension trust funds, providing that the loan is recorded in the state accounting records. Except as provided in subsection (2)(b), the loan does not bear interest. A fund may not be so impaired that all proper demands on the fund cannot be met.

(b) If a loan to the general fund is made from a fund that retains its own interest, the department shall repay the loan with interest at a rate established by the state treasurer based on the estimated interest rate the funds would have earned if the funds had not been borrowed.

1999 Amendment: Chapter 11 near beginning of (2)(b) inserted "to the general fund". Amendment effective July 1, 1999.

17-2-106. Creation and abolition of new accounts. (1) Moneys deposited in each fund except the general fund shall be segregated by the department of administration by specific accounts based on source, function, or department. When moneys deposited in the state treasury cannot logically be credited to an existing account or when it is impractical or undesirable for an agency of state government to segregate moneys in its own accounts, the department of administration, in its discretion, may create new accounts consistent with the definitions in 17-2-102. However, the department of administration shall create as few new accounts as practicable.

(2) The department of administration shall periodically examine all accounts and shall abolish or consolidate inactive or unnecessary accounts.

(3) When moneys have been appropriated from several sources for the operation of a state agency, the department of administration may establish an account to receive, hold, and disburse moneys appropriated for the operation of the agency and regulate the transfer of moneys to the account in accordance with the laws governing the expenditure of state moneys.

History: (1), (2)En. Sec. 5, Ch. 147, L. 1963; amd. Sec. 27, Ch. 326, L. 1974; Sec. 79-413, R.C.M. 1947; (3)En. Sec. 6, Ch. 147, L. 1963; amd. Sec. 1, Ch. 268, L. 1971; amd. Sec. 98, Ch. 326, L. 1974; Sec. 79-414, R.C.M. 1947; R.C.M. 1947, 79-413, 79-414(4).

17-2-107. Accurate accounting records and interentity loans. (1) The department shall record receipts and disbursements for treasury funds and for accounting entities within treasury funds and shall maintain records in a manner that reflects the total cash and invested balance of each fund and each accounting entity. The department shall adopt the necessary procedures to ensure that interdepartmental or intradepartmental transfers of money or loans do not result in inflation of figures reflecting total governmental costs and revenue.

(2) (a) Subject to 17-2-105, when the expenditure of an appropriation from a fund designated in 17-2-102(1)(a) through (1)(c) is necessary and the cash balance in the accounting entity from which the appropriation was made is insufficient, the department may authorize a temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is made may not be so impaired that all proper demands on the accounting entity cannot be met even if the loan is extended.

(b) (i) When an expenditure from a fund or subfund designated in 17-2-102(1)(d) is necessary and the cash balance in the fund or subfund from which the expenditure is to be made is insufficient, the commissioner of higher education may authorize a temporary loan, bearing interest as provided in subsection (4), of money from the agency's other funds or subfunds if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. A fund or subfund receiving a loan or from which a loan is made may not be so impaired that all proper demands on the fund or subfund cannot be met even if the loan is extended.

(ii) One accounting entity within each fund or subfund designated in 17-2-102(1)(d) must be established for the sole purpose of recording loans between the funds or subfunds. This accounting entity is the only accounting entity within each fund or subfund that may receive a loan or from which a loan may be made.

(c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date on which the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.

(3) Under unusual circumstances, the director of the department or the board of regents may grant one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall prepare a written justification and proposed repayment plan for each loan extension authorized and shall furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate finance and claims committees at the next legislative session.

(4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(1)(d)(i)(D) and (1)(d)(ii) through (1)(d)(vi) must bear interest at a rate equivalent to the previous fiscal year's average rate of return on the board of investments' short-term investment pool.

(5) If for 2 consecutive fiscal yearends a loan or an extension of a loan has been authorized to the same accounting entity as provided in subsection (2) or (3), the department or the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the accounting entity or accounting

entities within the university fund or subfund, and a plan for repaying the loans.

(6) If for 2 consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-2-102(1)(d) has a negative cash balance, the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a plan to address any problems concerning the accounting entity's negative cash balance or solvency.

(7) (a) An accounting entity in a fund designated in 17-2-102(1)(a) through (1)(c) may not have a negative cash balance at fiscal yearend. The department may, however, allow a fund type within each agency to carry a negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7 working days.

(b) (i) Except as provided in subsection (7)(b)(ii), a unit of the university system shall maintain a positive cash balance in the funds and subfunds designated in 17-2-102(1)(d).

(ii) If a fund or subfund inadvertently has a negative cash balance, the department may allow the fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash balance exists for more than 7 working days, a transaction may not be processed through the statewide accounting system for that fund or subfund.

(8) Notwithstanding the provisions of subsections (2) through (4), the department may authorize loans to accounting entities in the federal and state special revenue funds with long-term repayment whenever necessary because of the timing of the receipt of agreed-upon reimbursements from federal, private, or other governmental entity sources for disbursements made. If possible, the loans must be made from funds other than the general fund. The department may approve the loans if the requesting agency can demonstrate that the total loan balance does not exceed total receivables from federal, private, or other governmental entity sources and receivables have been billed on a timely basis. The loan must be repaid under terms and conditions that may be determined by the department or by specific legislative authorization.

17-2-108. Expenditure of nongeneral fund money first. (1) Except for the exemptions applicable to the Montana historical society in 22-3-114(5) and the Montana state library in 22-1-226(5), an office or entity of the executive, legislative, or judicial branch of state government shall apply expenditures against appropriated nongeneral fund money whenever possible before using general fund appropriations.

(2) The approving authority, as defined in 17-7-102, shall authorize the decrease of the general fund appropriation of an agency by the amount of money received from federal sources in excess of the appropriation in an appropriation act unless the decrease is contrary to federal law, federal rule, or a contract or unless the approving authority certifies that the services to be funded by the additional money are significantly different than those for which the agency received the general fund appropriation. If directed by an appropriation act, the approving authority shall decrease the general fund appropriation of an agency by the amount of money received from nonfederal sources in excess of the appropriation unless the decrease is contrary to state law, state rule, or a contract or unless the approving authority certifies that the services to be funded by the additional money are significantly different than those for which the agency received the general fund appropriation. If the general fund appropriation of an agency is decreased pursuant to this section, the appropriation for the fund in which the money is received is increased in the amount of the general fund decrease.

Amendment effective July 1, 1999.

Applicability: Section 6, Ch. 105, L. 1999, provided: "[This act] applies to refunds or payments made after December 31, 1999."

17-4-102. Accounts of persons indebted to state. (1) The department may:

(a) examine and settle the accounts of persons indebted to agencies, certify the amount owed, and give the person a discharge;

(b) require a person presenting an account for settlement to be sworn and to answer, orally or in writing, as to any facts relating to the account.

(2) The certificate referred to in subsection (1)(a) must show by whom the payment is to be made, the amount of the payment, and the fund into which the payment is to be deposited. The certificates must be numbered in order, beginning with number 1 at the commencement of each fiscal year.

17-4-103. Collection of claims by department. (1) (a) The department may examine the collection of money due an agency and institute suits:

(i) in its name for official delinquencies in relation to the assessment, collection, and payment of the revenue;

(ii) against persons who possess public money or property and fail to pay over or deliver the money or property; and

(iii) against debtors of the agencies.

(b) The courts of the county where the seat of government is located have jurisdiction, without regard to the residence of the defendants, over the collection suits authorized by this section.

(2) Whenever a person has money or other personal property that belongs to the state by escheat or otherwise or has been entrusted with the collection, management, or disbursement of money, bonds, or interest accruing from the money or bonds, belonging to or held in trust by the state, and fails to render an account of the money or personal property to and make settlement with the department within the time prescribed by law or, when a particular time is not specified, fails to render an account and make settlement or fails to pay into the state treasury the money belonging to the state, upon being required to do so by the department, within 20 days after the requisition, the department shall state an account with that person, charging 25% damages and interest at the rate of 10% a year from the time of the failure. A copy of the account in a suit is prima facie evidence of the things stated in the account, but when the department cannot for want of information state an account, the department may in an action aver that fact and allege generally the amount of money or other property due or belonging to the state.

(3) (a) The department may assist in the collection of a delinquent account owing to an agency and may separately charge the agency that transferred the debt for the cost of assistance. The department may designate the percentage of collected proceeds to be retained for the cost of assistance. The cost of assistance for collecting personal property taxes that would otherwise be collected by the county treasurer must be allocated in the same manner in which the taxes are distributed.

(b) A delinquent personal property tax usually collected by the county treasurer may be collected by the department only on request of the board of county commissioners. The request must be accompanied by proof of the amount of tax due and proof of the delinquency. The board shall also provide proof that, at least 30 days before making the request, the county has notified the delinquent taxpayer by mail of the board's intention to request assistance from the department.

(4) The department may provide a collection service for the general purpose of centralizing the collection of all debts owed to agencies.

17-4-104. Circumstances when department shall assist. Subject to and in accordance with rules adopted by the department, the department shall render assistance in the collection of accounts owing to any state agency if all of the following procedures have been completed to the department's satisfaction:

(1) A state agency shall make all reasonable efforts to collect money owed to it and shall determine that the money and any interest or penalties are uncollectible in accordance with criteria for uncollectibility formulated by that agency.

(2) Once a state agency has determined that an account owed to it is uncollectible, it shall certify to the department the amount of the money, interest, and penalties, as accurately as can be determined. The department may require the agency to submit all relevant evidence and other information regarding the debt and may examine the records of any other state agency that may be pertinent in determining the uncollectibility of the debt, unless examination is specifically prohibited by law.

(3) If the department finds that the debt is uncollectible in accordance with the criteria for uncollectibility of money due that state agency, the department shall direct the agency to write off the debt on its accounts and transfer the debt to the department.

(4) Debts described in 17-4-105(4) need not be determined uncollectible for purposes of this section.

17-4-105. Authority to collect debt — offsets. (1) Once a debt of an agency has been transferred to the department, the department may collect it. The department may contract with commercial collection agents for recovery of debts owed to agencies.

(2) The department shall, when appropriate, offset any amount due an agency from a person or entity against any amount, including refunds of taxes, owing the person or entity by an agency. The department may not exercise this right of offset until the debtor has first been notified by the department and been given an opportunity for a hearing pursuant to 15-1-211. An offset may not be made against any amount paid out as child support collected by the department of public health and human services. The department shall deduct from the claim and draw warrants for the amounts offset in favor of the respective agencies to which the debt is due and for any balance in favor of the claimant. Whenever insufficient to offset all amounts due the agencies, the amount available must be applied first to debts owed by reason of the nonpayment of child support and then in the manner determined appropriate by the department.

(3) (a) The department may enter into an agreement with the federal government to offset against tax refunds payable by the federal government and pay to this state those taxes or other debts owed to an agency of this state.

(b) (i) The department may enter into an agreement with another state or an agency of another state to offset against tax refunds payable by the other state or agency of the other state and pay to this state those taxes or other debts owed to this state or an agency of this state.

(ii) To facilitate an agreement of the kind authorized by subsection (3)(b)(i), the department may enter into an agreement that allows the other state or agency of the other state to offset against tax refunds payable by this state the whole or part of an amount owed for taxes to the other state or agency of the other state. However, the department may enter into an agreement of the type authorized by this subsection (3)(b)(ii) only if the other state or agency of the other state allows this state or an agency of this state to offset against tax refunds owed by the other state or agency of the other state taxes or other debts owed to this state or an agency of this state.

(c) A state or agency of another state entering into an agreement with the department pursuant to subsection (3)(b)(ii) may not exercise the offset against tax refunds unless the other state or agency of the other state has notified the taxpayer of the taxes due and has given the taxpayer an opportunity for review or appeal of the tax debt. Another state or agency of another state intending to offset taxes shall provide the department with proof of notification and opportunity for review or appeal before the offset is exercised.

(4) (a) A debt owed to the department of public health and human services or being collected by the department of public health and human services on behalf of any person or agency may be offset by the department if the debt is being enforced or collected by the department of public health and human services under Title IV-D of the Social Security Act.

(b) The debt need not be determined to be uncollectible as provided for in 17-4-104 before being transferred to the department for offset. The debt must have accrued through written contract, court judgment, or administrative order.

(c) Within 30 days following the notification provided for in subsection (2), the person owing a debt described in subsection (4)(a) may request a hearing. The request must be in writing and be mailed to the department. The person owing a debt is not entitled to a hearing if the amount of the debt has been the subject matter of any proceeding conducted for the purpose of determining the validity of the debt and a decision made as a result of that proceeding has become final. The hearing must initially be conducted by teleconferencing methods and is subject to the provisions of the Montana Administrative Procedure Act. The department of public health and human services shall adopt rules governing the hearing procedures.

(5) If the department determines that a person or entity has refused or neglected to file a claim within a reasonable time, the head of the state agency owing the amount shall file the claim on behalf of the person or entity. If the claim is approved by the department, the claim has the same force and effect as though filed by the person or entity. The amount due any person or entity from the state or any agency of the state is the net amount otherwise owing the person or entity after any offset, as provided in this section.

(c) the refunding of the notes, from time to time, without further action by the board, unless the board revokes such authority to refund; and

(d) such other terms and conditions as the board may consider appropriate.

(4) In connection with the issuance and sale of notes, the board may arrange for lines of credit with any bank, firm, or person for the purpose of providing an additional source of repayment for notes issued pursuant to this section. Amounts drawn on such lines of credit may be evidenced by negotiable or nonnegotiable notes or other evidences of indebtedness, containing such

terms and conditions as the board may authorize in the resolution approving them.

17-5-805. Bond anticipation notes — when issued — payment of principal and interest. (1) When the board has been authorized to issue and sell bonds under this part, it may, pending the issuance of the bonds, issue in the name of the state temporary notes in anticipation of the money to be derived from the sale of the bonds. The notes must be designated as "bond anticipation notes". The proceeds of the sale of the bond anticipation notes may be used only for the purposes for which the proceeds of the bonds could be used, including costs of issuance. If, prior to the issuance of the bonds, it becomes necessary to redeem outstanding notes, additional bond anticipation notes may be issued to redeem the outstanding notes. No renewal of any note may be issued after the sale of bonds in anticipation of which the original notes were issued.

(2) Bond anticipation notes or other short-term evidences of indebtedness maturing not more than 1 year after the date of issue may be issued from time to time as the proceeds thereof are needed. Such notes must be authorized by the board and must have such terms and details as may be provided by resolution of the board. However, each resolution of the board authorizing notes must:

(a) describe the need for the proceeds of the notes to be issued; and

(b) specify:

(i) the principal amount of the notes or maximum principal amount of the notes that may be outstanding at any one time;

(ii) the rate or rates of interest, the maximum rate of interest, or the interest rate formula (to be determined in the manner specified in the resolution authorizing the notes) to be incurred through the issuance of such notes; and

(iii) the maturity date or maximum maturity date of the notes.

(3) Subject to the limitations contained in this section and the standards and limitations prescribed in the authorizing resolution, the board in its discretion may provide for the notes described in subsection (2) to be issued and sold, in whole or in part, from time to time, and may delegate to the state treasurer the power to determine the time or times of sale, the manner of sale, the amounts, the maturities, the rate or rates of interest, and such other terms and details of the notes as may be considered appropriate by the board, or the state treasurer in the event of such delegation. The board in its discretion, but

subject to the limitations contained in this section, may also provide in the resolution authorizing the issuance of notes for:

(a) the employment of one or more persons or firms to assist the board in the sale of the notes;

(b) the appointment of one or more banks or trust companies, either in or outside of the state, as depository for safekeeping and as agent for the delivery and payment of the notes;

(c) the refunding of the notes, from time to time, without further action by the board, unless and until the board revokes such authority to refund; and

(d) such other terms and conditions as the board may consider appropriate.

(4) In connection with the issuance and sale of notes as provided in this section, the board may arrange for lines of credit with any bank, firm, or person for the purpose of providing an additional source of repayment for notes issued pursuant to this section. Amounts drawn on such lines of credit may be evidenced by negotiable or nonnegotiable notes or other evidences of indebtedness, containing such terms and conditions as the board may authorize in the resolution approving them.

(b) "Authorized officer" means, with respect to any uncertificated public obligation, any individual referred to in this subsection (1) as an authorized officer with respect to a certificated public obligation of the same class or series.

(2) "Certificated public obligation" means an obligation that is:

(a) issued pursuant to a system of registration;

(b) represented by an instrument; and

(c) either one of a class or series or by its terms divisible into a class or series of obligations.

(3) "Code" means the Internal Revenue Code of 1954, as amended.

(4) "Facsimile seal" means the reproduction by engraving, imprinting, stamping, or other means of the seal of the issuer, official, or official body.

(5) "Facsimile signature" means the reproduction by engraving, imprinting, stamping, or other means of the manual signature of an authorized officer.

(6) "Financial intermediary" means a bank, broker, clearing corporation, or trust company or the nominee of any of them or other person or nominee which in the ordinary course of its business maintains public obligation accounts for its customers.

(7) "Issuer" means a public entity that:

(a) executes a certificated public obligation to evidence its duty to perform an obligation represented by the certificated public obligation;

(b) undertakes to perform an obligation that is an uncertificated public obligation; or

(c) becomes responsible for or in place of a public entity described as an issuer in this subsection (7).

(8) "Obligation" means an agreement of an issuer to pay principal and interest and includes a share, participation, or other interest in any such agreement.

(9) "Official actions" means the actions by statute, order, ordinance, resolution, contract, or other authorized means by which the issuer provides for issuance of a public obligation.

(10) "Official or official body" means the officer or body that is empowered under the laws of one or more states, including this state, to provide for original issuance of a public obligation of the issuer by defining the obligation and its terms, conditions, and other incidents; the successor or successors of any such official or official body; and such other person or group of persons as are assigned duties of such official or official body under applicable law from time to time.

(11) "Original issuance" means the first transfer of a public obligation by an issuer to a purchaser.

(12) "Public entity" means any entity, department, or agency that is empowered under the laws of one or more states, including this state, to issue obligations, any interest with respect to which may under any provision of law be provided an exemption from the income tax referred to in the code. The term "public entity" may include this state, a political subdivision, a municipal corporation, a state university or college, a school district or other special district, a joint agreement entity, a public authority, a public trust, a nonprofit corporation, or other organization.

(13) "Public obligation" means either a certificated or an uncertificated public obligation.

17-5-1103. Declarations of state interest — purposes. (1) Sections 103 and 103A of the code provide that interest with respect to certain obligations may not be exempt from the income tax if they are not in registered form. It is therefore a matter of state concern that public entities be authorized to provide for the issuance of obligations in such form. It is a purpose of this part to authorize all public entities to establish and maintain a system pursuant to which obligations may be issued in registered form within the meaning of sections 103 and 103A of the code.

(2) Obligations have traditionally been issued in bearer rather than in registered form, and a change from bearer to registered form will significantly affect the relationships, rights, and duties of issuers of and the persons that deal with obligations and, by such effect, the costs. Such effects will impact the various issuers and varieties of obligations differently, depending on their legal and financial characteristics, their markets, and their adaptability to recent

and prospective technological and organizational developments. It is therefore a matter of state concern that public entities be provided flexibility in the development of systems of registration and control over system incidents, so as to accommodate differing impacts. It is a purpose of this part to provide for the establishment and maintenance, and amendment from time to time, of differing systems of registration of obligations, including system incidents, so as to accommodate the differing impacts upon issuers and varieties of obligations.

The system may permit the issuance of public obligations in any denomination to represent several public obligations of smaller denominations. The system may also provide for the form of any certificated public obligations, for differing record and payment dates, for varying denominations, and for accounting, canceled certificate destruction, and other incidental matters.

(5) Under a system pursuant to which both certificated and uncertificated public obligations are issued, both types of public obligations may be regularly issued or one type may be regularly issued and the other type issued only under described circumstances or to particular described categories of owners. Under a system pursuant to which uncertificated public obligations are regularly issued, provisions may be made for registration of pledges and releases.

(6) The system may include covenants of the issuer as to amendments, discontinuances, and reinstitutions and the effect of such on the exemption of interest from the income tax provided for by the code.

(7) If the effect of a conversion from one of the forms of public obligations provided for in this part to a form not provided for in this part is that interest will continue to be exempt from the income tax provided for by the code, this part does not preclude such conversion.

(8) To the extent not inconsistent with this part, the rights provided by other laws with respect to obligations in other forms must be provided with respect to obligations in forms that may be used under this part.

The notes shall be designated as "bond anticipation notes". The proceeds of the sale of the bond anticipation notes must be used only for the purpose for which the proceeds of the bonds could be used, including costs of issuance. If, prior to the issuance of the bonds, it becomes necessary to redeem outstanding notes, additional bond anticipation notes may be issued to redeem the outstanding notes. No renewal of any note may be issued after the sale of bonds in anticipation of which the original notes were issued.

(2) Bond anticipation notes or other short-term evidences of indebtedness maturing not more than 3 years after the date of issue may be issued from time to time as the proceeds thereof are needed. The notes must be authorized by the board and must have such terms and details as may be provided by resolution of the board. However, each resolution of the board authorizing notes must:

(a) describe the need for the proceeds of the notes to be issued; and

(b) specify the principal amount of the notes or maximum principal amount of the notes which may be outstanding at any one time, the rate or rates of interest or maximum rate of interest or interest rate formula (to be determined in the manner specified in the resolution authorizing the notes to be incurred through the issuance of such notes), and the maturity date or maximum maturity date of the notes.

(3) Subject to the limitations contained in this section and the standards and limitations prescribed in the authorizing resolution, the board in its discretion may provide for the notes described in subsection (2) to be issued and sold, in whole or in part, from time to time. The board may delegate to the administrator of the board the power to determine the time or times of sale, the manner of sale, the amounts, the maturities, the rate or rates of interest, and such other terms and details of the notes as considered appropriate by the board or the administrator in the event of such delegation. The board in its discretion but subject to the limitations contained in this section may also provide in the resolution authorizing the issuance of notes for:

(a) the employment of one or more persons or firms to assist the board in the sale of the notes;

(b) the appointment of one or more banks or trust companies, either inside or outside the state of Montana, as depository for safekeeping and as agent for the delivery and payment of the notes;

(c) the refunding of the notes from time to time, without further action by the board, unless and until the board revokes such authority to refund; and

(d) such other terms and conditions as the board considers appropriate.

(4) In connection with the issuance and sale of notes as provided in this section, the board may arrange for lines of credit with any bank, firm, or person for the purpose of providing an additional source of repayment for notes issued pursuant to this section. Amounts drawn on such lines of credit may be evidenced by negotiable or nonnegotiable notes or other evidences of indebtedness, containing such terms and conditions as the board may authorize in the resolution approving the same.

(3) "Governing body" means the board or body that exercises the legislative power of the public body.

(4) "Public body" means any political subdivision of the state and includes but is not limited to a county, city, town, or school district.

The sinking fund account must be maintained as an escrow account with a suitable financial institution within or outside the state and amounts in it must be invested in securities that are direct obligations of the United States or on which the payment of the principal and interest is guaranteed by the United States. refunded may be appropriated by the public body to the sinking fund account for the bonds.

(3) The public body may pay the reasonable costs and expenses of issuing bonds and of establishing and maintaining the escrow account.

(4) On the crossover date, obligations refunded pursuant to this part are no longer considered outstanding for purposes of any debt limitation if the provisions of subsection (5) are met.

(5) The securities in the escrow account must mature or be callable at the option of the holder on such date, bearing interest at such rate, and payable on such dates as necessary to provide sufficient funds, in addition to any cash retained in the escrow account, to pay when due:

(a) the interest that will accrue on each refunded obligation to its maturity or redemption date, if called for redemption;

(b) the principal of each refunded obligation at maturity or on the redemption date; and

(c) any redemption premium.

Investment of public funds, Art. VIII, sec. 13, Mont. Const.

17-6-201. Unified investment program — general provisions. (1) The unified investment program directed by Article VIII, section 13, of the Montana constitution to be provided for public funds must be administered by the board of investments in accordance with the prudent expert principle, which requires an investment manager to:

(a) discharge the duties with the care, skill, prudence, and diligence, under the circumstances then prevailing, that a prudent person acting in a like capacity with the same resources and familiar with like matters exercises in the conduct of an enterprise of a like character with like aims;

(b) diversify the holdings of each fund within the unified investment program to minimize the risk of loss and to maximize the rate of return unless, under the circumstances, it is clearly prudent not to do so; and

(c) discharge the duties solely in the interest of and for the benefit of the funds forming the unified investment program.

(2) (a) Retirement funds may be invested in common stocks of any corporation.

(b) Other public funds may not be invested in private corporate capital stock. "Private corporate capital stock" means only the common stock of a corporation.

(3) (a) This section does not prevent investment in any business activity in Montana, including activities that continue existing jobs or create new jobs in Montana.

(b) The board is urged under the prudent expert principle to invest up to 3% of retirement funds in venture capital companies. Whenever possible, preference should be given to investments in those venture capital companies that demonstrate an interest in making investments in Montana.

(c) In discharging its duties, the board shall consider the preservation of purchasing power of capital during periods of high monetary inflation.

(d) The board may not make a direct loan to an individual borrower. The purchase of a loan or a portion of a loan originated by a financial institution is not considered a direct loan.

(4) The board has the primary authority to invest state funds. Another agency may not invest state funds unless otherwise provided by law. The board shall direct the investment of state funds in accordance with the laws and constitution of this state. The board has the power to veto investments made under its general supervision.

(5) The board shall:

(a) assist agencies with public money to determine if, when, and how much surplus cash is available for investment;

(b) determine the amount of surplus treasury cash to be invested;

(c) determine the type of investment to be made;

(d) prepare the claim to pay for the investment; and

(e) keep an account of the total of each investment fund and of all the investments belonging to the fund and a record of the participation of each treasury fund account in each investment fund.

(6) The board may:

(a) execute deeds of conveyance transferring real property obtained through investments. Prior to the transfer of real property directly purchased and held as an investment, the board shall obtain an appraisal by a qualified appraiser.

(b) direct the withdrawal of funds deposited by or for the state treasurer pursuant to 17-6-101 and 17-6-105;

(c) direct the sale of securities in the program at their full and true value when found necessary to raise money for payments due from the treasury funds for which the securities have been purchased.

(7) The cost of administering and accounting for each investment fund must be deducted from the income from each fund.

The audit must cover all of the microbusiness development corporation's activities and must include verification of compliance with requirements specific to the microbusiness program.

(11) A certified microbusiness development corporation that is in default for nonperformance under rules established by the department may be required to refund the outstanding balance of development loans awarded prior to the default declaration. History: En. Sec. 1, Ch. 559, L. 1995.

17-6-502. Legislative findings — purpose. (1) The legislature finds and declares that:

(a) it is the policy of the state to foster and encourage economic development within the state in order to promote the general welfare of the people; and

(b) access to capital for the creation, expansion, and retention of qualified businesses, particularly for working capital, is a serious problem that inhibits the growth of businesses, jobs, and tax revenue.

(2) The purpose of this part is to create a job investment program that encourages and assists in the creation, development, and financing of businesses whose primary obstacle to expansion or retention of employment is access to the appropriate type and amount of financing. This financial need is particularly acute in areas of the state that are economically depressed, and emphasis should be given to projects that will be located in these areas if the projects meet the requirements of this part and rules adopted pursuant to 17-6-505 and meet acceptable levels of financial risk as determined by the loan review committee.

17-6-505. Rulemaking authority. The department shall adopt rules to implement the provisions of this part, including rules:

(1) determining the amount of interest and the method of computation and payment of interest charged to recipients of job investment loans and specifying amortization schedules and other terms and conditions for job investment loans as necessary. The rate of interest charged on a loan may not be less than the prevailing market rate.

(2) establishing criteria for determining nonperformance and declaring default for a job investment loan;

(3) specifying security and collateral requirements that must be met as a condition of receiving a job investment loan;

(4) encouraging financial institutions to participate to the greatest extent possible in the financing of job investment projects;

(5) requiring that the job investment loan may not exceed the funding provided by private lenders and that at least one private lender must be a financial institution. The board shall secure the most favorable collateral position possible on any job investment loan.

(6) establishing appropriate loan loss reserves; and

(7) providing for an application process and a loan review process that:

(a) incorporate the funding criteria adopted by the department to implement the federal community development block grant program pursuant to 90-1-103(5);

17-7-111. Preparation of state budget — agency program budgets — form distribution and contents. (1) (a) To prepare a state budget, the executive branch, the legislature, and the citizens of the state need information that is consistent and accurate. Necessary information includes detailed disbursements by fund type for each agency and program for the appropriate time period, recommendations for creating a balanced budget, and recommended disbursements and estimated receipts by fund type and fund category.

(b) Subject to the requirements of this chapter, the budget director and the legislative fiscal analyst shall by agreement:

(i) establish necessary standards, formats, and other matters necessary to share information between the agencies and to ensure that information is consistent and accurate for the preparation of the state's budget; and

(ii) provide for the collection and provision of budgetary and financial information that is in addition to or different from the information otherwise required to be provided pursuant to this section.

(2) In the preparation of a state budget, the budget director shall, not later than the date specified in 17-7-112(1), distribute to all agencies the proper forms and instructions necessary for the preparation of budget estimates by the budget director. These forms must be prescribed by the budget director to procure the information required by subsection (3). (a) a consolidated agency budget summary of funds subject to appropriation or enterprise funds that transfer profits to the general fund or to an account subject to appropriation for the current base budget expenditures, including statutory appropriations, and for each present law adjustment and new proposal request setting forth the aggregate figures of the full-time equivalent personnel positions (FTE) and the budget, showing a balance between the total proposed disbursements and the total anticipated receipts, together with the other means of financing the budget for each fiscal year of the ensuing biennium, contrasted with the corresponding figures for the last completed fiscal year and the fiscal year in progress;

(b) a schedule of the actual and projected receipts, disbursements, and solvency of each accounting entity within each fund for the current biennium and estimated for the subsequent biennium;

(c) a statement of the agency mission and a statement of goals and objectives for each program of the agency. (d) actual FTE and disbursements for the completed fiscal year of the current biennium, estimated FTE and disbursements for the current fiscal year, and the agency's request for the ensuing biennium, by program;

(e) actual disbursements for the completed fiscal year of the current biennium, estimated disbursements for the current fiscal year, and the agency's recommendations for the ensuing biennium, by disbursement category;

(g) for only agencies with more than 20 FTE, a plan to reduce the proposed budget to 85% of the current base budget. The plan must include:

(i) a prioritized list of services that would be eliminated or reduced;

(iii) the consequences or impacts of the proposed elimination or reduction of each service.

(h) other information the budget director feels is necessary for the preparation of a budget.

(4) The budget director shall prepare and submit to the legislative fiscal analyst in accordance with 17-7-112:

(a) detailed recommendations for the state long-range building program. Each recommendation must be presented by institution, agency, or branch, by funding source, with a description of each proposed project.

17-7-138. Operating budget. (1) (a) Expenditures by a state agency must be made in substantial compliance with the budget approved by the legislature. Substantial compliance may be determined by conformity to legislative intent as established in the narrative accompanying the general appropriations act. An explanation of any significant change in agency or program scope, objectives, activities, or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. If the approving authority certifies that a change is time-sensitive, the approving authority may approve the change prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes to the legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall immediately notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report fully explaining the reasons for the action to the next meeting of the legislative finance committee. Except as provided in subsection (2), the expenditure of money appropriated in the general appropriations act is contingent upon approval of an operating budget by August 1 of each fiscal year. An approved original operating budget must comply with state law.

(b) For the purposes of this subsection (1), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

(i) the expenditure change exceeds $1 million; or

(ii) the expenditure change exceeds 25% of a budget category and the change is greater than $25,000. If there have been other changes to the budget category in the current fiscal year, all the changes, including the change under consideration, must be used in determining the 25% and $25,000 threshold.

(2) The expenditure of money appropriated in the general appropriations act to the university system units, as defined in 17-7-102, is contingent upon approval of an operating budget by October 1 of each fiscal year. All other requirements in this section apply to the university system.

(3) The operating budget for money appropriated by the general appropriations act must be separate from the operating budget for money appropriated by another law except a law appropriating money for the state pay plan or any portion of the state pay plan. Each operating budget must include expenditures for each agency program, detailed at least by first-level categories as provided in 17-1-102(3). Each agency shall record its operating budget and any approved changes on the statewide budget and accounting system. Forms used for changing an operating budget must reference the current, complete, and approved operating budget, show the proposed changes to the operating budget, and reference any other pending documents to change the operating budget.

17-7-139. Program transfers. (1) Unless prohibited by law, the approving authority may approve agency requests to transfer appropriations between programs within each fund type within each fiscal year. An explanation of any transfer that involves a significant change in agency or program scope, objectives, activities, or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. If the approving authority certifies that a request for a transfer representing a significant change in agency or program scope, objectives, activities, or expenditures is time-sensitive, the approving authority may approve the transfer prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes to the legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall immediately notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report fully explaining the reasons for the action to the next meeting of the legislative finance committee. All program transfers must be completed within the same fund from which the transfer originated. A request for a transfer accompanied by a justification explaining the reason for the transfer must be submitted by the requesting agency to the approving authority and the office of budget and program planning. Upon approval of the transfer, the approving authority shall inform the legislative fiscal analyst of the approved transfer and the justification for the transfer. If money appropriated for a fiscal year is transferred to another fiscal year, the money may not be retransferred.

(2) For the purposes of subsection (1), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

(a) the budget transfer exceeds $1 million; or

(b) the budget transfer exceeds 25% of a program's total operating plan and the transfer is greater than $25,000. If there have been other transfers to or from the program in the current fiscal year, all the transfers, including the transfer under consideration, must be used in determining the 25% and $25,000 threshold.

1999 Amendment: Chapter 6 in (1) inserted 10th sentence prohibiting the subsequent transfer of money transferred to another fiscal year. Amendment effective July 1, 1999.

17-7-140. Reduction in spending. (1) (a) As the chief budget officer of the state, the governor shall ensure that the expenditure of appropriations does not exceed available revenue. Except as provided in subsection (2), in the event of a projected general fund budget deficit, the governor, taking into account the criteria provided in subsection (1)(b), shall direct agencies to reduce spending in an amount that ensures that the projected ending general fund balance for the biennium will be at least 1% of all general fund appropriations during the biennium. An agency may not be required to reduce general fund spending for any program, as defined in each general appropriations act, by more than 10% during a biennium. Departments or agencies headed by elected officials or the board of regents may not be required to reduce general fund spending by a percentage greater than the percentage of general fund spending reductions required for the total of all other executive branch agencies. The legislature may exempt from a reduction an appropriation item within a program or may direct that the appropriation item may not be reduced by more than 10%.

(b) The governor shall direct agencies to manage their budgets in order to reduce general fund expenditures. Prior to directing agencies to reduce spending as provided in subsection (1)(a), the governor shall direct each agency to analyze the nature of each program that receives a general fund appropriation to determine whether the program is mandatory or permissive and to analyze the impact of the proposed reduction in spending on the purpose of the program. An agency shall submit its analysis to the office of budget and program planning and shall at the same time provide a copy of the analysis to the legislative fiscal analyst. The office of budget and program planning shall review each agency's analysis, and the budget director shall submit to the governor a copy of the office of budget and program planning's recommendations for reductions in spending. The budget director shall provide a copy of the recommendations to the legislative fiscal analyst at the time that the recommendations are submitted to the governor and shall provide the legislative fiscal analyst with any proposed changes to the recommendations. The legislative finance committee shall meet within 20 days of the date that the proposed changes to the recommendations for reductions in spending are provided to the legislative fiscal analyst. The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the proposed reductions in spending to the budget director at least 5 days before the meeting of the legislative finance committee. The committee may make recommendations concerning the proposed reductions in spending. The governor shall consider each agency's analysis and the recommendations of the office of budget and program planning and the legislative finance committee in determining the agency's reduction in spending. Reductions in spending must be designed to have the least adverse impact on the provision of services determined to be most integral to the discharge of the agency's statutory responsibilities.

(2) Reductions in spending for the following may not be directed by the governor:

(a) payment of interest and principal on state debt;
(b) the legislative branch;
(c) the judicial branch;
(d) the school BASE funding program, including special education; and
(e) salaries of elected officials during their terms of office.

(3) (a) As used in this section, "projected general fund budget deficit" means an amount, certified by the budget director to the governor, by which the projected ending general fund balance for the biennium is less than 2% of the general fund appropriations for the second fiscal year of the biennium. In determining the amount of the projected general fund budget deficit, the budget director shall take into account revenue, established levels of appropriation, anticipated supplemental appropriations for school equalization aid, and anticipated reversions.

(b) If the budget director determines that an amount of actual or projected receipts will result in an amount less than the amount projected to be received in the revenue estimate established pursuant to 5-18-107, the budget director shall notify the revenue and taxation interim committee of the estimated amount. Within 20 days of notification, the revenue and taxation interim committee shall provide the budget director with any recommendations concerning the amount. The budget director shall consider any recommendations of the revenue and taxation interim committee prior to certifying a projected general fund budget deficit to the governor.

17-7-151. Budget performance — comparison. (1) The measure of budget performance is the total actual or estimated expenditure of state resources that reflects the cost of general government operations funded by taxes and fees.

(2) In preparing budget comparisons, the office of budget and program planning and the legislative fiscal division shall compare actual expenditures of state resources in the first year of the current biennium plus appropriations of state resources in the second year of the current biennium to appropriations of state resources in the next biennium. Anticipated reversions may be deducted from appropriated amounts per agreement between the two offices.

(3) The legislative fiscal analyst and the budget director shall enter into an agreement on measurement standards for budget comparisons. The office of budget and program planning and the legislative fiscal division shall use the same methodology to estimate the amounts of statutory appropriations. If there are differences in estimates of revenue or amounts of statutory appropriations, the legislative fiscal analyst shall explain the differences as part of the independent analysis of the executive budget.

(4) Budget comparisons must include the same attributes and methods of calculation. Items that are not appropriated at the beginning of a biennium, such as budget amendments, supplemental appropriations, and emergency appropriations, must be included in budget comparisons, but must be segregated and indicated as noncomparable items.

17-7-301. Authorization to expend during first year of biennium from appropriation for second year — proposed supplemental appropriation defined — limit on second-year expenditures. (1) An agency may make expenditures during the first fiscal year of the biennium from appropriations for the second fiscal year of the biennium if authorized by the general appropriations act. An agency that is not authorized in the general appropriations act to make first-year expenditures may be granted spending authorization by the approving authority upon submission and approval of a proposed supplemental appropriation to the approving authority. The proposal submitted to the approving authority must include a plan for reducing expenditures in the second year of the biennium that allows the agency to contain expenditures within appropriations. If the approving authority finds that, due to an unforeseen and unanticipated emergency, the amount actually appropriated for the first fiscal year of the biennium with all other income will be insufficient for the operation and maintenance of the agency during the year for which the appropriation was made, the approving authority shall, after careful study and examination of the request and upon review of the recommendation for executive branch proposals by the budget director, submit the proposed supplemental appropriation to the legislative fiscal analyst.

(2) The plan for reducing expenditures required by subsection (1) is not required if the proposed supplemental appropriation is:

(a) due to an unforeseen and unanticipated emergency for fire suppression;

(b) requested by the superintendent of public instruction, in accordance with the provisions of 20-9-351, and is to complete the state's funding of guaranteed tax base aid, transportation aid, or equalization aid to elementary and secondary schools for the current biennium; or

(c) requested by the attorney general and:

(i) is to pay the costs associated with litigation in which the department of justice is required to provide representation to the state of Montana; or

(ii) in accordance with the provisions of 7-32-2242, is to pay costs for which the department of justice is responsible for confinement of an arrested person in a detention center.

(3) Upon receipt of the recommendation of the legislative finance committee pursuant to 17-7-311, the approving authority may authorize an expenditure during the first fiscal year of the biennium to be made from the appropriation for the second fiscal year of the biennium. Except as provided in subsection (2), the approving authority shall require the agency to implement the plan for reducing expenditures in the second year of the biennium that contains agency expenditures within appropriations.

(4) The agency may expend the amount authorized by the approving authority only for the purposes specified in the authorization.

(5) The approving authority shall report to the next legislature in a special section of the budget the amounts expended as a result of all authorizations granted by the approving authority and shall request that any necessary supplemental appropriation bills be passed.

(6) As used in this part, "proposed supplemental appropriation" means an application for authorization to make expenditures during the first fiscal year of the biennium from appropriations for the second fiscal year of the biennium.

(7) (a) Except as provided in subsections (2) and (7)(b), an agency may not make expenditures in the second year of the biennium that, if carried on for the full year, will require a deficiency appropriation, commonly referred to as a "supplemental appropriation".

(b) An agency shall prepare and, to the extent feasible, implement a plan for reducing expenditures in the second year of the biennium that contains agency expenditures within appropriations. The approving authority is responsible for ensuring the implementation of the plan. If, in the second year of a biennium, mandated expenditures that are required by state or federal law will cause an agency to exceed appropriations or available funds, the agency shall reduce all nonmandated expenditures pursuant to the plan in order to reduce to the greatest extent possible the expenditures in excess of appropriations or funding. An agency may not transfer funds between fund types in order to implement a plan.

(1) Any valid obligation not paid within the fiscal year, including valid written interagency or intra-agency service agreements for systems development, shall be encumbered for payment thereof at the end of each fiscal year in the department of administration's accounts. Except as provided in subsection (2), an appropriation shall be deemed to be encumbered at the time and to the extent that a valid obligation against the appropriation is created.

(2) An appropriation may be encumbered by a written interagency or intra-agency agreement with the department for the alteration, repair, maintenance, or renovation of a building pursuant to the provisions of Title 18, chapter 2. If the appropriation is not encumbered by a valid obligation at the end of the next fiscal year, the appropriation reverts to the fund from which it was originally appropriated.

17-7-304. Disposal of unexpended appropriations. (1) All money appropriated for any specific purpose except that appropriated for the university system units listed in subsection (2) and except as provided in subsection (4) must, after the expiration of the time for which appropriated, revert to the several funds and accounts from which originally appropriated. However, any unexpended balance in any specific appropriation may be used for the years for which the appropriation was made or may be used to fund the provisions of 2-18-1203 through 2-18-1205 and 19-2-706 in the succeeding year.

(2) Except as provided in 17-2-108 and subsection (3) of this section, all money appropriated for the university of Montana campuses at Missoula, Butte, Dillon, and Helena and the Montana state university campuses at Bozeman, Billings, Havre, and Great Falls, the agricultural experiment station with central offices at Bozeman, the forest and conservation experiment station with central offices at Missoula, the cooperative extension service with central

offices at Bozeman, and the bureau of mines and geology with central offices in Butte must, after the expiration of the time for which appropriated, revert to an account held by the board of regents. The board of regents is authorized to maintain a fund balance. There is a statutory appropriation, as provided in 17-7-502, to use the funds held in this account in accordance with a long-term plan for major and deferred maintenance expenditures and equipment or fixed assets purchases prepared by the affected university system units and approved by the board of regents. The affected university system units may, with the approval of the board of regents, modify the long-term plan at any time to address changing needs and priorities. The board of regents shall communicate the plan to each legislature, to the finance committee when requested by the committee, and to the office of budget and program planning.

(3) Subsection (2) does not apply to reversions that are the result of a reduction in spending directed by the governor pursuant to 17-7-140. Any amount that is a result of a reduction in spending directed by the governor must revert to the fund or account from which it was originally appropriated.

(4) For the 2 years following the end of a fiscal year, 30% of the money appropriated to an agency for that year by the general appropriations act for personal services, operating expenses, and equipment, by fund type, and remaining unexpended and unencumbered at the end of the year may be spent for any purpose that is consistent with the goals and objectives of the agency. The dollar amount of the 30% amount that may be carried forward and spent must be determined by the office of budget and program planning.

17-7-306 through 17-7-310 reserved.

17-7-311. Proposed supplemental appropriation — procedure. (1) A proposed supplemental appropriation and all supporting documentation must be submitted to the legislative fiscal analyst. The governor may not approve a proposed supplemental appropriation until the governor receives the legislative finance committee's written report for that proposed supplemental appropriation unless:

(a) the report is not received within 90 calendar days from the date the proposed supplemental appropriation and supporting documentation were forwarded to the legislative finance committee, in which case the governor may approve the proposed supplemental appropriation; or

(b) there has been a waiver of the review and report requirements, as provided in subsection (4).

(2) The legislative fiscal analyst shall review each proposed supplemental appropriation submitted by the governor for compliance with statutory requirements and standards and to determine the expenditures that will be reduced in order to contain spending within legislative appropriations. The legislative fiscal analyst shall present a written report of this review to the legislative finance committee. Within 10 days after the legislative finance committee's consideration of the proposed supplemental appropriation, the legislative fiscal analyst shall submit the legislative finance committee's report to the governor.

(3) Upon receipt of the legislative finance committee's written report, the governor may approve or deny the proposed supplemental appropriation or may return the proposed supplemental appropriation to the requesting agency for further information. If the governor has returned the proposed supplemental appropriation to the requesting agency and the requesting agency resubmits the proposed supplemental appropriation to the governor, all procedures provided in this section apply to the resubmitted proposed supplemental appropriation.

(4) (a) If an emergency occurs that poses a serious threat to the life, health, or safety of the public, the legislative fiscal analyst may waive the written review and the legislative finance committee's written report required by this section. After a waiver, the legislative fiscal analyst may complete the written review.

(b) Upon receipt of the waiver, the governor may approve the proposed supplemental appropriation.

(c) A waiver affects only the legislative fiscal analyst's written review and the legislative finance committee's written report on the proposed supplemental appropriation. All other proposed supplemental appropriation requirements and standards remain in effect.

(5) Nothing in this part confers on the legislative finance committee authority to approve or deny a proposed supplemental appropriation.

17-8-101. Appropriation and disbursement of money from treasury. (1) For purposes of complying with Article VIII, section 14, of the Montana constitution, money deposited in the general fund, the special revenue fund type (except money deposited in the treasury from nonstate and nonfederal sources restricted by law or by the terms of an agreement, such as a contract, trust agreement, or donation), and the capital projects fund type, with the exception of refunds authorized in subsection (4), may be paid out of the treasury only on appropriation made by law.

(2) Subject to the provisions of subsection (8), money deposited in the enterprise fund type, debt service fund type, internal service fund type, expendable trust fund type, agency fund type, and state special revenue fund from nonstate and nonfederal sources restricted by law or by the terms of an agreement, such as a contract, trust agreement, or donation, may be paid out of the treasury:

(a) by appropriation; or

(b) under general laws, or contracts entered into in pursuance of law, permitting the disbursement.

(3) The pension trust fund type is not considered a part of the state treasury for appropriation purposes. Money deposited in the pension trust fund type may be paid out of the treasury pursuant to general laws, trust agreement, or contract.

(4) Money paid into the state treasury through error or under circumstances such that the state is not legally entitled to retain it and a refund procedure is not otherwise provided by law may be refunded upon the submission of a verified claim approved by the department.

(5) Authority to expend appropriated money may be transferred from one state agency to another, provided that the original purpose of the appropriation is maintained. The office of budget and program planning shall report semiannually to the legislative finance committee concerning all appropriations transferred under the provisions of this section.

(6) Fees and charges for services deposited in the internal service fund type must be based upon commensurate costs. The legislative auditor, during regularly scheduled audits of state agencies, shall audit and report on the reasonableness of internal service fund type fees and charges and on the fund equity balances.

(7) The creation of accounts in the enterprise fund or the internal service fund must be approved by the department, using conformity with generally accepted accounting principles as the primary approval criteria. The department shall report annually to the office of budget and program planning and the legislative finance committee on the nature, status, and justification for all new accounts in the enterprise fund and the internal service fund.

(8) Enterprise and internal service funds must be appropriated if they are used as a part of a program that is not an enterprise or internal service function and that otherwise requires an appropriation. An enterprise fund that transfers its ending fund balance to the general fund is subject to appropriation. The payment of funds into an internal service fund must be authorized by law.

However, the quarterly allotment shall be based on the requirements of that office, institution, or agency during that quarter based on previous experience of that office, institution, or agency and not on a prorated quarterly basis.

18-1-102. State contracts to lowest bidder — reciprocity. (1) (a) Except as provided in subsection (1)(b), in order to provide for an orderly administration of the business of the state of Montana in awarding public contracts for the purchase of goods and for construction, repair, and public works of all kinds, a public agency shall award:

(i) a public contract for construction, repair, or public works to the lowest responsible bidder without regard to residency. However, a resident bidder must be allowed a preference on a contract against the bid of any nonresident bidder from any state or country that enforces a preference for resident bidders. The preference given to resident bidders of this state must be equal to the preference given in the other state or country.

(ii) a public contract for the purchase of goods, if the goods are comparable in quality and performance, to the lowest responsible resident bidder whose:

(A) bid is not more than 3% higher than that of the lowest responsible nonresident bidder;

(B) offered goods are Montana-made and whose bid is not more than 5% higher than that of the lowest responsible nonresident bidder; or

(C) offered goods are Montana-made and whose bid is not more than 3% higher than that of the lowest responsible resident bidder whose offered goods are not Montana-made.

(b) The transportation commission or the department of transportation may not enter into a contract for [a federal-aid highway project,] a state-funded highway project[,] or a construction project with a bidder whose operations are not headquartered in the United States unless:

(i) the foreign country in which the bidder is headquartered affords companies based in the United States open, fair, and nondiscriminatory access to bidding on highway projects and construction projects located in the foreign country; and

(ii) the department of transportation has entered into a reciprocity agreement with the foreign country that addresses:

(A) the equal and fair treatment of bids originating in the United States and in the foreign country;

(B) specific ownership requirements and tax policies in the United States and in the foreign country that may result in the unequal treatment of all bids received, regardless of their origin;

(C) the means by which contractors from both the United States and the foreign country are notified of highway projects and construction projects available for bid; and

(D) any other differences in public policy or procedure that may result in the unequal treatment of bids originating in the United States or in the foreign country for projects located in either the United States or the foreign country.

(c) (i) If both subsections (1)(a)(ii)(B) and (1)(a)(ii)(C) are applicable to bids for a contract, the contract must be awarded to the resident bidder whose offered goods are Montana-made if the bid is:

(A) not more than 3% higher than that of a resident bidder whose offered goods are not Montana-made; and

(B) not more than 5% higher than that of the nonresident bidder.

(ii) However, a combination of preferences under this subsection (1)(c) may not exceed 5%.

(2) The preferences in this section apply:

(a) whether the law requires advertisement for bids or does not require advertisement for bids; and

(b) to contracts involving funds obtained from the federal government unless expressly prohibited by the laws of the United States or regulations adopted pursuant to federal laws. *(Bracketed language void on occurrence of contingency—sec. 3, Ch. 306, L. 1999.)*

Compiler's Comments

1999 Amendment: Chapter 306 at beginning of (1) inserted exception clause; inserted (1)(b) prohibiting department of transportation and transportation commission from entering into contracts for highway construction projects with bidders not headquartered in United States unless reciprocity agreement in place; and made minor changes in style. Amendment effective April 14, 1999.

Contingent Voidness: Section 3, Ch. 306, L. 1999, provided: "**Contingent voidness.** (1) If the federal government notifies the state in writing that the enforcement of [this act] places at risk this state's eligibility to receive federal funds for highway projects, then the bracketed language in [this act] is void pursuant to subsection (2).

(2) The bracketed language in [this act] is void on the date that the director of the department of transportation certifies to the governor in writing that the director has received written notice of the federal government's intention to terminate allocation of highway funds to Montana because of the enforcement of [this act]."

18-1-103. Resident defined. (1) For the purpose of 18-1-102, 18-1-111, and this section, the word "resident" includes actual residence of an individual within this state for a period of more than 1 year immediately prior to bidding.

(2) In a partnership enterprise or an association, the majority of all partners or association members must have been actual residents of the state of Montana for more than 1 year immediately prior to bidding.

(3) Domestic corporations organized under the laws of the state of Montana are prima facie eligible to bid as residents, but this qualification may be set aside and a successful bid disallowed when it is shown to the satisfaction of the board, commission, officer, or individual charged with the responsibility for the execution of the contract that the corporation is a wholly owned

subsidiary of a foreign corporation or that the corporation was formed for the purpose of circumventing the provisions relating to residence.

(4) Notwithstanding the foregoing, any bidder on a contract for the purchase of goods, whether an individual, partnership, or corporation, foreign or domestic and regardless of ownership thereof, whose offered goods are Montana-made is a resident for the purpose of 18-1-102, 18-1-111, and this section.

18-1-106. Department of commerce to determine residency of selected contractors — applications for redetermination — determination as prima facie evidence. (1) The department of commerce shall determine whether or not certain contractors are residents of the state of Montana within the meaning of 18-1-102 and 18-1-103. Any public agency charged by law with the responsibility for the execution of any contract subject to the provisions of 18-1-102 may request that a determination of resident/nonresident status be made by the department. All requests must specify the name and address of the licensed public contractor for whom a determination of resident/nonresident status is required.

(2) If a determination is made that a public contractor is not a resident but thereafter qualifies as a resident, the contractor may apply to the department of commerce for a redetermination of residency. If, upon redetermination, the public contractor is found to qualify as a resident, the contractor must be furnished a letter by the department attesting to resident status.

(3) The determination of the department of commerce that a public contractor is or is not a resident within the meaning of 18-1-102 and 18-1-103 is prima facie evidence of that fact.

The bid specification and the contract must provide that a preference in hiring for positions of employment be given to Indian residents of the reservation who have substantially equal qualifications for any position. For the purposes of this section, the definitions in 2-18-111 apply.

(2) The commissioner of labor and industry shall enforce this section, investigate complaints of its violation, and may adopt rules to implement this section.

(2) It is the intent of 18-1-102, 18-1-103, and this section that, whenever possible, Montana-made goods that are suitable substitutes for goods manufactured or produced outside the state and comparable in price, quality, and performance are preferred for use in all projects and in all state institutions.

(3) Failure to comply with the law in this respect disqualifies such contractor as a qualified bidder for future contracts with the public agency for a period of 2 years.

If a bond is not provided, the bidder shall pay the public authority the difference in money between the amount of the bid of the bidder and the amount for which the public authority legally contracts with another party to perform the work or supply the property, commodities, or services, as the case may be, if the latter amount is in excess of the former.

(b) whenever the bids are solicited for the purchase and sale of any forms of indebtedness of the public authority, expressly covenant that the security accompanying the bid in the amount specified by the public authority must be kept and retained by the public authority as liquidated damages for failure to consummate the purchase of the forms of indebtedness that may be awarded on acceptance of bid and in compliance with the terms of the bid.

(2) The public authority shall distinctly specify in the solicitation or advertisement for bids the penal or other sum fixed by statute to be paid by a bidder failing or refusing as aforesaid whenever the amount of the bid security is fixed by statute. Otherwise, the public authority shall specify the amount, which may not be less than 2% of the principal amount of the indebtedness for a bid for the purchase of indebtedness and 10% of the bid price for any other bid, that it considers reasonably necessary to protect and indemnify the public authority against the failure or refusal of the bidder to enter into the contract or consummate the purchase of indebtedness, as the case may be.

Sojourners or persons who come to Montana solely in pursuance of any contract or agreement to perform labor may not be considered to be bona fide residents of Montana within the meaning and for the purpose of this part.

(2) "Commissioner" means the commissioner of labor and industry provided for in 2-15-1701.

(9) (a) "Public works contract" means a contract for construction services let by the state, county, municipality, school district, or political subdivision or for nonconstruction services let by the state, county, municipality, or political subdivision in which the total cost of the contract is in excess of $25,000. The alternative methods of determining the prevailing rate of wages must provide for review and the incorporation of data from work of a similar character that is conducted as near as possible to the original district.

(b) When work of a similar character is not being performed in the district, the standard prevailing rate of wages, including fringe benefits for health and welfare and pension contributions, that meets the requirements of the Employee Retirement Security Act of 1974 and other bona fide programs approved by the United States department of labor and the rate of travel allowance must be those rates established by collective bargaining agreements in effect in the district for each craft, classification, or type of worker needed to complete the contract.

18-2-407. Forfeiture for failure to pay standard prevailing wage. (1) Any contractor, subcontractor, or employer who pays workers or employees at less than the standard prevailing wage as established under the public works contract shall forfeit to the department a penalty at a rate of up to 20% of the delinquent wages plus fringe benefits, attorney fees, audit fees, and court costs. Money collected by the department under this section must be deposited in the general fund. A contractor, subcontractor, or employer shall also forfeit to the employee the amount of wages owed plus $25 a day for each day that the employee was underpaid.

(2) Whenever it appears to the contracting agency or to the Montana commissioner of labor and industry that there is insufficient money due to the contractor or the employer under the terms of the contract to cover penalties, the Montana commissioner of labor and industry may, within 90 days after the filing of notice of completion of the project and its acceptance by the contracting agency, maintain an action in district court to recover all penalties and forfeitures due. This part does not prevent the individual worker who has been underpaid or the commissioner of labor and industry on behalf of all the underpaid workers from maintaining an action for recovery of the wages due under the contract as provided in Title 39, chapter 3, part 2, except that appeal of the hearings officer's decision is made directly to district court rather than to the board of personnel appeals.

18-2-409. Montana residents to be employed on state construction contracts. (1) On any state construction project funded by state or federal funds, except a project partially funded with federal aid money from the United States department of transportation or where residency preference laws are specifically prohibited by federal law and to which the state is a signatory to the construction contract, at least 50% of the work must be performed by bona fide Montana residents, as defined in 18-2-401.

(2) For any contract awarded for a state construction project, except a project partially funded with federal aid money from the United States department of transportation or where residency preference laws are specifically prohibited by federal law, there must be inserted in the bid specification and the contract a provision, in language approved by the commissioner of labor and industry, implementing the requirements of subsection (1). The bid specification and the contract must provide that at least 50% of the workers on the project will be bona fide Montana residents. If there are two or more contracts and due to a lack of qualified personnel a contractor cannot guarantee that at least 50% of his workers will be Montana residents, his contract must provide that the percentage the commissioner of labor and industry believes possible will be Montana residents and one or more of the other contracts must provide for a higher percentage of Montana residents so that 50% of the workers on the project will be Montana residents.

(3) The commissioner of labor and industry shall enforce this section and investigate complaints of its violation and may adopt rules to implement this section.

(2) In initially determining the districts, the commissioner must:

(a) follow the rulemaking procedures in the Montana Administrative Procedure Act; and

(b) publish the reasons supporting the creation of each district.

(3) A district boundary may not be changed except for good cause and in accordance with the rulemaking procedures in the Montana Administrative Procedure Act.

(4) The presence of collective bargaining agreements in a particular area may not be the sole basis for the creation of boundaries of a district, nor may the absence of collective bargaining agreements in a particular area be the sole basis for changing the boundaries of a district.

(5) For each prevailing wage rate district established under this section, the commissioner shall determine the standard prevailing rate of wages to be paid employees, as provided in 18-2-401 and 18-2-402.

(a) pay the amount of fringe benefits and the basic hourly rate of pay that is part of the standard prevailing rate of wages directly to the worker or employee in cash;

(b) make an irrevocable contribution to a trustee or a third person pursuant to a fringe benefit fund, plan, or program that meets the requirements of the Employee Retirement Income Security Act of 1974 or that is a bona fide program approved by the United States department of labor; or

(c) make payments using any combination of methods set forth in subsections (1)(a) and (1)(b) so that the aggregate of payments and contributions is not less than the standard prevailing rate of wages, including fringe benefits for health and welfare and pension contributions that meet the requirements of the Employee Retirement Income Security Act of 1974, travel, or other bona fide programs approved by the United States department of labor, that is applicable to the district for the particular type of work being performed.

(2) The fringe benefit fund, plan, or program described in subsection (1)(b) must provide benefits to workers or employees for health care, pensions on retirement or death, life insurance, disability and sickness insurance, or bona fide programs that meet the requirements of the Employee Retirement Income Security Act of 1974 or that are approved by the United States department of labor.

(3) A private contractor or subcontractor shall file a copy of the fringe benefit fund, plan, or program described in subsection (2) with the department.

However, in the case of public works contracts that amount to $50,000 or less in cost, the notice of acceptance and the completion date of the project is not required unless the department requests that information. A contractor or a subcontractor shall pay employees receiving an hourly wage on a weekly basis. If a wage violation complaint is filed with the department, the contractor or subcontractor shall provide the employee's payroll records to the department within 5 days of receiving the payroll request from the department.

History: En. Sec. 5, Ch. 139, L. 1981; amd. Sec. 6, Ch. 609, L. 1993.

History: En. Sec. 6, Ch. 139, L. 1981.

18-2-425. Prohibition — project labor agreement. (1) Except as otherwise provided in this chapter, the state or any political subdivision that contracts for the construction, maintenance, repair, or improvement of public works may not require that a contractor, subcontractor, or material supplier or carrier engaged in the construction, maintenance, repair, or improvement of public works execute or otherwise become a party to any project labor agreement, collective bargaining agreement, prehire agreement, or other agreement with employees, their representatives, or any labor organization as a condition of bidding, negotiating, being awarded, or performing work on a public works contract.

(2) For the purposes of this section, "public works" means:

The authority to remove or suspend must be exercised in accordance with rules adopted by the department.

(3) The causes for removal or suspension include the following:

(a) violation of contract provisions, as set forth in subsections (3)(a)(i) and (3)(a)(ii), of a character that is regarded by the department to be so serious as to justify removal action:

(i) deliberate failure without good cause to perform in accordance with the specifications or within the time limit provided in the contract; or

(ii) a recent record of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts, provided that failure to perform or unsatisfactory performance caused by acts beyond the control of the contractor may not be considered to be a basis for removal;

The protest must be submitted to the department in writing no later than 14 days after execution of the contract.

(3) If the protest is not resolved by mutual agreement, the department shall issue in writing a decision on the protest within 30 days after receipt of the protest. The decision must:

(a) state the reason for the action taken by the department with regard to the contract; and

(b) inform the aggrieved party of the party's right to request, within 14 days after the date of the department's written decision, a contested case hearing pursuant to the Montana Administrative Procedure Act.

(4) In a protest or contested case proceeding, the department may, in an appropriate case, order a remedy provided in subsection (5) or (6).

(6) (a) If after an award it is determined that a solicitation or award of a contract is in violation of law and the person awarded the contract has not acted fraudulently or in bad faith, the contract may be:

(i) ratified and affirmed, provided it is determined that doing so is in the best interests of the state; or

(ii) terminated, and the person awarded the contract must be compensated for the actual expenses reasonably incurred under the contract, plus a reasonable profit, before the termination.

(b) If after an award it is determined that a solicitation or award of a contract is in violation of law and the person awarded the contract has acted fraudulently or in bad faith, the contract may be:

(i) declared void; or

(ii) ratified and affirmed if that action is in the best interests of the state, without prejudice to the state's rights to appropriate damages.

(7) The exclusive method of judicial review of a solicitation or award by the department pursuant to this chapter is by a petition for judicial review pursuant to 2-4-702. In a proceeding pursuant to that section, the court may, in an appropriate case, order a remedy provided by subsection (5) or (6) of this section. Except as provided in subsections (6)(a)(ii) and (6)(b)(ii), there is no right under any legal theory to recover a form of damages or expenses for a solicitation or award of a contract in violation of law. Any other claim, cause of action, or request for relief for solicitations or awards allegedly made in violation of law may not be heard or granted by a district court other than as provided in this section.

18-4-302. Methods of source selection. (1) Unless otherwise authorized by law, all state contracts for supplies and services must be awarded by a source selection method provided for in this title. Supplies or services offered for sale, lease, or rental by public utilities are exempt from this requirement if the prices of the supplies or services are regulated by the public service commission or other governmental authority.

(2) At the time that the department or another agency opens bids or proposals, if a supplier's current publicly advertised or established catalog price is received at or before the time that the bids or proposals are opened and is less than the bid of the lowest responsible and responsive bidder or offeror or improves upon the conditions for the best proposal received using the same factors and weights included in the proposal, the department or agency may reject all bids and purchase the supply from that supplier without meeting the requirements of 18-4-303 through 18-4-306.

(3) An office supply procured by the department's central stores program may be purchased by an agency, without meeting the requirements of 18-4-303 through 18-4-306, from a supplier whose publicly advertised price, established catalog price, or discount price offered to the agency is less than the price offered by the central stores program if the office supply conforms in all material respects to the terms, conditions, and quality offered by the central stores program. A state office supply term contract must include a provision by which the contracting parties acknowledge and agree to the provisions of this subsection.

18-4-303. Competitive sealed bidding. (1) An invitation for bids must be issued and must include a purchase description and conditions applicable to the procurement.

(2) Adequate public notice of the invitation for bids must be given a reasonable time before the date set forth in the invitation for the opening of bids, in accordance with rules adopted by the department. Notice may include publication in a newspaper of general circulation at a reasonable time before the bid opening.

(3) Bids must be opened publicly at the time and place designated in the invitation for bids. Each bidder has the right to be present, either in person or by agent, when the bids are opened and has the right to examine and inspect all bids. The amount of each bid and other relevant information as may be specified by rule, together with the name of each bidder, must be recorded. The record must be open to public inspection. After the time of award, all bids and bid documents must be open to public inspection in accordance with the provisions of 2-6-102 and are subject to the requirements of subsection (4).

(4) Bids must be available for public inspection when the bids are opened if:

(a) the invitation for bids is issued by a state agency to contract with the private sector to provide services currently conducted by state employees; and

(b) acceptance of bids would result in the displacement of five or more state employees.

(5) Bids must be unconditionally accepted without alteration or correction, except as authorized in this chapter. Bids must be evaluated based on the requirements set forth in the invitation for bids, which may include criteria to determine acceptability, such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose. Those criteria

that will affect the bid price and be considered in evaluation for award must be objectively measurable, such as discounts, transportation costs, and total or life-cycle costs. The invitation for bids must set forth the evaluation criteria to be used. Only criteria set forth in the invitation for bids may be used in bid evaluation.

(6) Correction or withdrawal of inadvertently erroneous bids, before or after award, or cancellation of awards or contracts based on bid mistakes may be permitted in accordance with rules adopted by the department. After bid opening, changes in bid prices or other provisions of bids prejudicial to the interest of the state or fair competition may not be permitted. Except as otherwise provided by rule, all decisions to permit the correction or withdrawal of bids or to cancel awards or contracts based on bid mistakes must be supported by a written determination made by the department.

(7) The contract must be awarded with reasonable promptness by written notice to the lowest responsible and responsive bidder whose bid meets the requirements and criteria set forth in the invitation for bids, including the preferences established by Title 18, chapter 1, part 1. If all bids exceed available funds as certified by the appropriate fiscal officer and the low responsible and responsive bid does not exceed the funds by more than 5%, the director or the head of a purchasing agency may, in situations in which time or economic considerations preclude resolicitation of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the low responsible and responsive bidder in order to bring the bid within the amount of available funds.

(8) When it is considered impractical to initially prepare a purchase description to support an award based on price, an invitation for bids may be issued requesting the submission of unpriced offers, to be followed by an invitation for bids limited to those bidders whose offers have been qualified under the criteria set forth in the first solicitation.

History: En. Sec. 14, Ch. 519, L. 1983; amd. Sec. 2, Ch. 761, L. 1991; amd. Sec. 12, Ch. 443, L. 1997.

(a) the Uniform Trade Secrets Act, Title 30, chapter 14, part 4;

(b) matters involving individual safety as determined by the department;

(c) information requested by the department to establish vendor responsibility unless prior written consent has been given by the vendor, pursuant to 18-4-308; and

(d) other constitutional protections.

(5) The request for proposals must state the evaluation factors and their relative importance. The award must be made to the responsible and responsive offeror whose proposal best meets the evaluation criteria. Other factors or criteria may not be used in the evaluation. The contract file must demonstrate the basis on which the award is made.

(6) The department may discuss a proposal with an offeror for the purpose of clarification or revision of the proposal.

(b) contract performance security to guarantee the faithful performance of the contract and the payment of all laborers, suppliers, mechanics, and subcontractors; or

(c) both bid and contract performance security.

In determining the amount and type of contract performance security required for each contract, the department shall consider the nature of the performance and the need for future protection to the state. In determining the need for and amount of bid security, the department shall consider the risks involved to the state if a successful bidder or offeror fails to enter into a formal contract. The considerations must include but are not limited to the type of supply or service being procured, the dollar amount of the proposed contract, and delivery time requirements. The department may adopt rules to assist it in making these determinations and in protecting the state in dealing with irrevocable letters of credit. Bid and contract security requirements must be included in the invitations for bids or requests for proposals.

(4) If a bidder or offeror to whom a contract is awarded fails or refuses to enter into the contract or provide contract performance security, as required by the invitation for bid or request for proposal, after notification of award, the department may, in its discretion, require the bidder to forfeit the bid security to the state and become immediately liable on the bid security, but not in excess of the sum stated in the security. (2) A lease or contract for the operation of a vending facility entered into prior to October 1, 1981, is not subject to this part while the lease or contract remains in effect. In any case where the department determines that a private vendor operating a vending facility on state property on October 1, 1981, who but for this part could reasonably be expected to renew his contract for the vending facility, would be subjected to economic hardship should the contract be allowed to expire at the end of its term, the department may agree to a one-time renewal of that vendor's contract for the vending facility for a period not to exceed 4 years.

(3) The department of administration or any other department of state government that administers state property subject to this part shall give reasonable notice to the department of the expiration or termination of any lease or contract in effect for a vending facility.

The department may charge a use fee in lieu of rental, on a basis to be determined by the department, in the case of any blind vendor operating a vending facility on state property whose net income for at least 10 of the preceding 12 months has exceeded twice the poverty level income for a nonfarm family of four as determined by the federal government.

(4) The department may purchase, sell, lease, maintain, and manage as necessary the equipment, stocks, and supplies required for the operation of those vending facilities administered as provided for in this part.

(5) The department shall, by rule, provide for appropriate allocation between the department and the blind vendors of liability for the operation of vending facilities operated pursuant to this part.

(6) After consultation with departments that are served by vending facilities subject to this part, the department may take action as necessary to assure the quality of services being provided by blind vendors.

History: En. Secs. 5, 7, Ch. 175, L. 1981.

18-5-416. Vending machines. The department may, except on state property, directly or through contractual arrangements, operate a facility consisting solely of vending machines if it has determined that operation by a blind vendor would be inappropriate. The department shall not directly operate vending machines on any state property where the department does not directly operate vending machines on October 1, 1981, unless, after competitive bid, the department is unable to obtain a suitable private contractor to operate vending machines on the state property. The department shall not, except through competitive bid, authorize a blind vendor to operate on state property a vending facility which consists solely or primarily of vending machines and which does not require the active presence of a vendor during its hours of operation.

Amendment effective March 15, 1999.

18-8-203. Public notice of agency requirements. Each agency shall publish in advance its requirement for professional services. The announcement must state concisely the general scope and nature of the project or work for which the services are required and the address of a representative of the agency who can provide further details. An agency may comply with this section by:

(1) publishing an announcement on each occasion when professional services provided by a licensed professional are required by the agency; or

(2) announcing generally to the public its projected requirement for any category or type of professional services.

History: **En. Sec. 3, Ch. 51, L. 1987.**

18-8-204. Procedures for selection. (1) In the procurement of architectural, engineering, and land surveying services, the agency may encourage firms engaged in the lawful practice of their profession to submit annually a statement of qualifications and performance data. The agency shall evaluate current statements of qualifications and performance data on file with the agency, together with those that may be submitted by other firms regarding the proposed project, and conduct discussions with one or more firms regarding anticipated concepts and the relative utility of alternative methods of approach for furnishing the required services.

(2) (a) The agency shall then select, based on criteria established under agency procedures and guidelines and the law, the firm considered most qualified to provide the services required for the proposed project.

(b) The agency procedures and guidelines must be available to the public and include at a minimum the following criteria as they relate to each firm:

(i) the qualifications of professional personnel to be assigned to the project;
(ii) capability to meet time and project budget requirements;
(iii) location;
(iv) present and projected workloads;
(v) related experience on similar projects; and
(vi) recent and current work for the agency.

(c) The agency shall follow the minimum criteria of this part if no other agency procedures are specifically adopted.

History: **En. Sec. 4, Ch. 51, L. 1987.**

18-8-205. Negotiation of contract for services. (1) The agency shall negotiate a contract with the most qualified firm for architectural, engineering, and land surveying services at a price which the agency determines to be fair and reasonable. In making its determination, the agency shall take into account the estimated value of the services to be rendered, as well as the scope, complexity, and professional nature thereof.

(2) If the agency is unable to negotiate a satisfactory contract with the firm selected at a price the agency determines to be fair and reasonable, negotiations with that firm must be formally terminated and the agency shall select other firms in accordance with 18-8-204 and continue as directed in this section until an agreement is reached or the process is terminated.

History: En. Sec. 5, Ch. 51, L. 1987.

18-8-206 through 18-8-210 reserved.

18-8-211. Coordination with other statutes. (1) This part need not be complied with by an agency when the contracting authority makes a finding in accordance with this or any other applicable law that an emergency requires the immediate execution of the work involved. This part does not relieve the contracting authority from complying with applicable law limiting emergency expenditures.

(2) The limitation on the preparation of working drawings contained in 18-2-111 applies to this part.

(3) The procedure for appointment of architects and consulting engineers pursuant to 18-2-112 applies to this part, except that the agency shall select its proposed list of three architects or consulting engineers in accordance with this part prior to submission to the department of administration.

(2) No agency may separate service contracts or split or break projects for the purpose of circumventing the provisions of this part.

History: En. Sec. 7, Ch. 51, L. 1987; amd. Sec. 3, Ch. 22, L. 1993; amd. Sec. 7, Ch. 518, L. 1993.

The transfer of contributions may include both taxed contributions and tax-deferred contributions and interest. However, if less than all of the accumulated contributions on deposit in a pension trust fund is being transferred, the transfer of taxed and tax-deferred amounts must be made on a proportionate basis, with the remainder refunded to the member. The transferring agency shall identify at the time of the transfer the taxed and tax-deferred amounts being transferred.

(3) Subject to any statutory provision establishing stricter limitations, only active or vested inactive members are eligible to purchase, qualify, or transfer service credits, membership service, or contributions. *(Terminates on occurrence of contingency—sec. 47(3), Ch. 58, L. 1999.)*

19-2-704. *(Effective on occurrence of contingency)* **Purchasing service credits allowed — payroll deduction.** (1) Subject to the rules promulgated by the board, an eligible member may elect to contribute amounts in addition to the mandatory employee contributions required by the retirement system in which the member participates for the purpose of purchasing service credits as provided by the statutes governing the retirement system.

(2) Subject to any statutory provision establishing stricter limitations, only active or vested inactive members are eligible to purchase, qualify, or transfer service credits, membership service, or contributions.

(3) A member who wishes to redeposit amounts withdrawn under 19-2-602 or who is eligible to purchase service as provided by the statutes governing the retirement system to which the member belongs may make a lump-sum payment, installment payments, or a combination of a lump-sum payment and installment payments.

(4) Installment payments must be paid directly to the board, unless the member makes payments by irrevocable payroll deduction. The minimum installment period for payments made directly to the board is 3 months, and the maximum installment period is 5 years.

(5) To elect installment payments by irrevocable payroll deduction, the member shall file with the board and the member's employer a binding, irrevocable, written application and authorization for payroll deductions. The application and authorization:

(a) must be executed by the member and the member's employer;

(b) must specify the dollar amount of each deduction and the number of deductions to be made, subject to any maximum amounts or duration established by state or federal law;

(c) must provide that the deductions are to be made over a period of time of no less than 3 months and no more than 5 years in duration;

(d) may not give the member the option of receiving the deduction amounts directly instead of having them paid by the employer to the board; and

(e) must specify that the contributions being picked up, although designated as employee contributions, are being paid by the employer directly to the board in lieu of contributions paid directly by the employee.

(6) If the board notifies the employer that a proper written application and authorization has been received by the board, the employer shall initiate the payroll deduction as follows:

(a) An employer shall pick up the member's elective contributions made pursuant to a payroll deduction authorization. The contributions picked up by the employer must be paid from the same source as is used to pay compensation to the member and must be included as part of the member's earned compensation before the deduction is made.

(b) Employee contributions, even though designated as employee contributions for state law purposes, are paid by the member's employer in lieu of contributions paid directly by the member to the board.

(c) The member may not choose to receive the contributed amounts directly instead of having them paid by the employer to the board.

(d) The effective date of the employer pickup and payment pursuant to this section is the date on which the employee contribution is first deducted from the employee's compensation. However, the effective date may not be prior to the date that the member properly completes the written application and authorization for payroll deductions and files it with the board. The pickup may not apply to any contributions made before the effective date or to any contributions related to compensation earned for services rendered before the effective date.

(e) A contract for installment payments initiated before July 1, 1999, may be made only if the member executes a written application and authorization for payroll deductions pursuant to this section. If the member does not execute a written application and authorization for payroll deductions pursuant to this section, the installment contract payments agreed to by the member must be paid by the member directly to the board.

(f) A member may make more than one binding, irrevocable payroll deduction authorization as long as a subsequent deduction authorization does not amend a previous binding, irrevocable authorization. A member may not prepay an amount under a binding, irrevocable payroll deduction.

(7) If a member terminates service or dies before completing all payments required by a payroll deduction authorization made pursuant to this section, the deduction authorization expires and the board shall prorate the service credit based on the amount paid as of the date of termination unless further payment is made as provided in this subsection. In the case of a termination, the member may make a lump-sum payment for the balance of the service subject to the limitations of section 415 of the Internal Revenue Code. In the case of death of the member, the payment may be made from the member's estate subject to the limitations of section 415 of the Internal Revenue Code.

19-2-706. Additional service for member involuntarily terminated from membership service. (1) An employee of the state or university system is entitled to the involuntary termination provision provided in subsection (3) if:

(a) the employee is a member of the public employees', game wardens' and peace officers', sheriffs', or highway patrol officers' retirement system;

(b) the employee's active service is involuntarily terminated because of elimination of the employee's position as a result of privatization, reorganization of an agency, closure of or a reduction in force at an agency, or other actions by the legislature or, in the case of a legislator, because of term limits terminating the service of the legislator in either one of the houses of the legislature;

(c) the employee is eligible for a normal service retirement or early retirement under the applicable provisions of the retirement system to which the member belongs; and

(d) the employee waives termination benefits for which the employee would otherwise be eligible under the State Employee Protection Act.

(2) The cost of each year of service purchased under this section is the total actuarial cost of purchasing the service based on the most recent actuarial valuation of the retirement system.

(3) The employer of an eligible member under subsection (1) shall pay a portion of the total cost of purchasing up to 3 years of additional service that the member was qualified to purchase under 19-3-513, 19-6-804, 19-7-804, or 19-8-904. The employer-paid portion applied toward the service purchase must be calculated using the formula A x B x C when:

(a) A is equal to a maximum of 3 additional years of service that the member is eligible to purchase;

(b) B is equal to the sum of the employer and employee contribution rates in the member's retirement system; and

(c) C is equal to the member's gross compensation paid during the immediate preceding 12 months of membership service. The employer may not be charged more than the total actuarial cost of the service purchased by the terminated employee.

(4) The member shall pay the difference, if any, between the full actuarial cost of the service to be purchased and the amount contributed by the employer under subsection (3). A member may elect to purchase less than the full amount of service for which the member is eligible under this section, but the election may not reduce the amount of the employer's contribution as calculated under subsection (3).

(5) The board may allow an employer to pay the contributions required under subsection (3) in installments for up to 10 years and may charge interest at a rate set by the board pursuant to 19-2-403.

(6) A member who has received additional service under this section and who returns to employment for the same jurisdiction for 600 or more hours in a calendar year forfeits the additional service. The employer's contribution to purchase that member's additional service, minus any retirement benefits already paid, must be credited to the employer. As used in this subsection, the same jurisdiction means all agencies of the state, including the university system.

1999 Amendment: Chapter 471 near beginning inserted reference to a defined benefit plan; and made minor changes in style. Amendment effective on occurrence of contingency or July 1, 2002, whichever is earlier.

19-2-907. Alternate payees — family law orders — rulemaking. (1) A participant in a retirement system may have the participant's rights modified or recognized by a family law order.

(2) For purposes of this section:

(a) "family law order" means a judgment, decree, or order of a court of competent jurisdiction under Title 40 concerning child support, parental support, spousal maintenance, or marital property rights that includes a transfer of all or a portion of a participant's payment rights in a retirement system to an alternate payee in compliance with this section; and

(b) "participant" means a member or an actual or potential beneficiary, survivor, or contingent annuitant of a retirement system designated pursuant to Title 19, chapter 3, 5, 6, 7, 8, 9, 13, or 17.

(3) A family law order must identify an alternate payee by full name, current address, and social security number. An alternate payee's rights and interests granted in compliance with this section are not subject to assignment, execution, garnishment, attachment, or other process. An alternate payee's rights or interests may be modified only by a family law order amending the family law order that established the right or interest.

(4) A family law order may not require:

(a) a type or form of benefit, option, or payment not available to the affected participant under the appropriate retirement system or plan; or

(b) an amount or duration of payment greater than that available to a participant under the appropriate retirement system.

(5) In a defined benefit plan, a family law order may only provide for payment to an alternate payee as follows:

(a) Service retirement benefit payments or withdrawals of member contributions may be apportioned by directing payment of a percentage of the amount payable or payment of a fixed amount of no more than the amount payable to the participant.

(b) The maximum amount of disability or survivorship benefits that may be apportioned to alternate payees is the monthly benefit amount that would have been payable on the date of termination of service if the member had retired without disability or death. Conversion of a disability retirement to a service retirement pursuant to 19-2-406(4), 19-3-1015(2), 19-6-612(2), or 19-8-712(2) does not increase the maximum monthly amount that may be apportioned to an alternate payee.

(c) Retirement benefit adjustments for which a participant is eligible after retirement may be apportioned only if existing benefit payments are apportioned. The adjustments must be apportioned in the same ratio as existing benefit payments.

(d) Payments must be limited to the life of the appropriate participant. The duration of payments to an alternate payee may be further limited only to a specified maximum time, the life of the alternate payee, or the life of a specified participant. Payments to an alternate payee may be limited to a specific amount each month if the number of payments is specified. The alternate payee's rights and interests survive the alternate payee's death and may be transferred by inheritance.

(e) The participant may be required to choose a specified form of benefit payment or designate a beneficiary or contingent annuitant if the retirement system or plan allows for that option.

(6) The board may assess a participant or an alternate payee for all costs of reviewing and administering a family law order, including reasonable attorney fees. The board may adopt rules to implement this section.

(7) Each family law order establishing a final obligation concerning payments by the retirement system must contain a statement that the order is subject to review and approval by the board.

(8) The board shall adopt rules to provide for the application of a family law order within the defined contribution plan.

(3) Notwithstanding any other provision of law to the contrary, the board may modify a request by a member to make a contribution to a retirement system if the amount of the contribution would exceed the limits provided in section 415 of the Internal Revenue Code, by using the following methods:

(a) If the retirement system's law requires a lump-sum payment for the purchase of service credit, the board may establish a periodic payment plan for the member in order to avoid a contribution in excess of the limits under section 415(c) or 415(n) of the Internal Revenue Code.

(b) If payment pursuant to subsection (3)(a) will not avoid a contribution in excess of the limits imposed by section 415(c) of the Internal Revenue Code, the board shall either reduce the member's contribution to an amount within the limits of that section or refuse the member's contribution.

(4) The limitation year for purposes of section 415 of the Internal Revenue Code is the calendar year beginning each January 1 and ending December 31.

If a member fails to apply for retirement benefits by April 1 of the year following the calendar year in which the member attains age 70 ½ or April 1st of the year following the calendar year in which the member terminates employment, whichever is later, the board shall begin distribution of the benefit as required by the retirement system to which the member belongs or, subject to subsection (2), as an option 4 benefit in chapters 3, 5, 7, and 8 of this title.

(2) The member's entire interest in the retirement system must be distributed over the life of the member or the lives of the member and a designated beneficiary, over a period not extending beyond the life expectancy of the member or the life expectancy of the member and designated beneficiary. Death benefits must be distributed in accordance with section 401(a)(9) of the Internal Revenue Code and the regulations implementing that section.

(5) When a member dies before distribution of benefits has begun, the entire interest of the member must be distributed within 5 years of the member's death. The 5-year payment rule does not apply to any portion of the member's interest that is payable to a designated beneficiary over the life or life expectancy of the beneficiary and that begins within 1 year after the date of the member's death. The 5-year payment rule does not apply to any portion of the member's interest that is payable to a surviving spouse, payable over the life or life expectancy of the spouse, and that begins no later than the date the member would have reached 70 ½ years of age. Distributions to a member's beneficiary must begin as soon as administratively feasible, but must begin no later than December 31 of the calendar year immediately following the calendar year in which the member died. If the beneficiary has not elected the form of payment by that date, payment to the beneficiary must be made in the form of a lifetime monthly benefit payment if the beneficiary is eligible for a monthly benefit or in a lump sum if that is the only benefit payable to the beneficiary.

(2) For the purposes of section 401(a) of the Internal Revenue Code, the plan document for each retirement system is composed of the applicable provisions of the Montana constitution, this chapter, the applicable chapter in Title 19 governing the system, and applicable rules adopted by the board.

(3) The board may adopt rules to implement this section.

19-3-201. *(Temporary)* **Contracts with political subdivisions.** (1) Any municipal corporation, county, or public agency in the state may become a contracting employer and make all or specified groups of its employees members of the retirement system by a contract entered into between the board and the legislative body of the contracting employer. The contract may include any provisions that are consistent with chapter 2 and this chapter and necessary in the administration of the retirement system as it affects the contracting employer and its employees.

(2) The approval of the contract is subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of the contracting employer shall adopt a resolution giving notice of intention to approve the contract and containing a summary of the major provisions of the retirement system. The contract may not be approved unless the employees proposed to be included in the retirement system adopt the proposal by a majority affirmative vote in a secret ballot. The ballot at the election must include the summary of the retirement system as set forth in the resolution. The election must be conducted as prescribed by the legislative body of the contracting employer. Approval of the contract must be by ordinance adopted by the affirmative vote of two-thirds of the members of the legislative body, within 20 days after the adoption of the resolution or by an ordinance adopted by a majority vote of the electorate of the contracting employer voting on the contract.

(b) The contract must specify that all employees of the contracting employer or groups of employees as agreed to between the board and the contracting employer must become members. The groups of employees to be included must be by departments, duties, or other similar classifications and not by individual employees. The board may disapprove any classification into groups if, in its opinion, the classification affects adversely the interest of the retirement system. Membership in the retirement system is compulsory for all employees who are included under the contract and who are hired after the effective date of the contract.

(c) The contract may be amended in the manner prescribed in this section for the original approval of contracts. Groups of excluded employees may be subsequently included by amendment.

(3) The termination of the contract is subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of a contracting employer shall adopt a resolution giving notice to its employees that it intends to terminate retirement coverage.

(b) All employees covered under the retirement system must be given notice of the termination resolution and be permitted to vote for or against the resolution by secret ballot.

(c) If a majority of covered employees votes for termination, the legislative body, within 20 days after the approval of the resolution by the employees, may adopt by a 2/3 majority a resolution terminating coverage under the system effective the last day of that month and forward the resolution and a certified copy of the election results to the board.

(d) Upon receipt of the termination resolution, the board may request an actuarial valuation of the liabilities of the terminating agency to the retirement system, and the board may withhold approval of the termination of contract until satisfactory arrangements are made to provide funding for any excess accrued liabilities not previously funded by the terminating agency.

1999 Amendments — Composite Section — Coordination: Chapter 471 in (1) in first sentence inserted "of the defined benefit plan", near end of second sentence after "status of members" deleted "of the retirement system", and at end inserted sentence allowing an employee to join the defined contribution plan only as provided in Title 19, chapter 3, part 21; in (2) and (3) near beginning inserted "of the defined benefit plan"; in (3) at end of first sentence substituted "plan" for "system"; and in (4) near beginning of first sentence inserted "of either the defined benefit plan or the defined contribution plan, subject to the provisions of this chapter". Amendment effective on occurrence of contingency or July 1, 2002, whichever is earlier.

Section 99(1)(d), Ch. 562, L. 1999, in three places after "members" or "member" inserted "of the defined benefit plan"; in (1) in second sentence after "members" deleted "of the retirement system" and inserted third sentence relating to defined contribution plan participation; and substituted (4) providing that person who returns to service within 30 days of termination of service or who terminates one service and remains in another service is active member for former (4) that read: "(4) Every employee who reenters service shall become a member unless the employee has had an original election of exemption from membership and the employee's service was not interrupted by a break of more than 1 month. A seasonal employee who has had an original election of exemption from membership is not subject to the requirement regarding the break in service while continuing in the employee's original employment and employed on a seasonal basis, but upon termination of employment to accept new employment or absence of more than 1 month in returning to original employment in any ensuing season, the seasonal employee shall become a member of the retirement system upon reentry." Amendment effective July 1, 1999.

The amendments to this section made by sec. 24, Ch. 562, L. 1999, were rendered void by sec. 99(1)(d), Ch. 562, L. 1999, a coordination section.

Purported Contingent Effective Date: Section 79(4), Ch. 471, L. 1999, provided that the amendments to this section are "effective contingent upon certification, as provided in [section 65] [not codified], that the defined contribution retirement plan is ready to become operational or on July 1, 2002, whichever is earlier". Section 65 provided in subsection (2) that "The board shall certify to the governor and the secretary of state the date on which the defined contribution retirement plan established pursuant to [sections 42 through 63] [chapter 3, part 21, of this title] is ready to become operational and shall provide a copy of the certification to the code commissioner." The amendments contained in sec. 35, Ch. 471, L. 1999, were the same as the amendments contained in sec. 99(1)(d), Ch. 562, L. 1999, except the amendment to the first sentence of (4), which was rendered void by the deletion of (4) in Ch. 562. The effect of the amendments is that this section is not subject to the contingency in sec. 79(4), Ch. 471, L. 1999. Instead, the amendments are effective July 1, 1999, pursuant to sec. 101, Ch. 562, L. 1999.

19-3-402. Federally subsidized employees eligible. A person whose compensation is paid either fully or in part from federal funds but who is not subject to the federal retirement system is considered an employee and is entitled to all benefits and is required to make all employee contributions under the retirement system based upon the full salary received by such employee, including that portion of salary paid from federal funds.

19-3-403. Exclusions from membership. The following persons may not become members of the retirement system:

(1) inmates of state institutions;

(2) persons in state institutions principally for the purpose of training but who receive compensation;

(3) independent contractors;

(4) persons who are members of any other retirement or pension system supported wholly or in part by funds of the United States government, any state government, or political subdivision of the state and who are receiving credit in the other system for service. It is the purpose of this subsection to prevent a person from receiving credit for the same service in two retirement systems supported wholly or in part by public funds, except when the service qualifies, is applied for, and is purchased pursuant to 19-3-503. A member of the retirement system who, because of employment by the state, is required to become a member of any other system described in this subsection is considered, solely for the purposes of making regular contributions, as permanently separated from service. Exclusion under this subsection is subject to the following exceptions:

(a) When an employer has entered into a collective bargaining agreement that includes provisions for payments or contributions by the employer in lieu of wages to a retirement or pension plan qualified by the internal revenue service for its employees, the employees remain eligible, if otherwise qualified, for membership in the retirement system.

(b) For the purpose of this subsection (4), persons receiving pensions, retirement benefits, or other payments from any source on account of employment other than as an employee are not considered, because of receipt, members of any other retirement or pension system.

(5) court commissioners, elected officials, or appointive members of any board or commission who serve the state or any contracting employer intermittently and who are paid on a per diem basis;

(6) full-time students employed at and attending the same public elementary school, high school, community college, or unit of the state university system, except that a person excluded from membership as a student of a public community college or a unit of the state university system who later becomes a member by otherwise becoming an employee may affirmatively exercise the option of qualifying the service excluded by this subsection by applying to the board in writing after becoming a member and become eligible to receive credited service for the excluded service under the provisions of 19-3-505.

(1) any employee of the state of Montana, its university system or any of the colleges, schools, components, or units of the university system; and

(2) any employee of a contracting employer eligible to participate under the contract between the board and the contracting employer under 19-3-201.

History: En. Sec. 48, Ch. 265, L. 1993.

19-3-412. Optional membership. (1) The following employees in covered employment may become members of the retirement system at their option by filing an irrevocable, written application with the board within 180 days of commencement of their employment:

(a) elected officials of the state or local governments who are paid on a salary or wage basis rather than on a per diem or other reimbursement basis;

(b) employees serving in employment that does not cumulatively exceed a total of 960 hours of covered employment with all employers under this chapter in any fiscal year;

(c) employees directly appointed by the governor;

(d) employees working 6 months or less for the legislative branch to perform work related to the legislative session;

(e) the chief administrative officer of any city or county;

(f) employees of county hospitals or rest homes in counties of the third, fourth, fifth, sixth, and seventh class.

(2) Employees and officials described in subsections (1)(a) through (1)(f) who are employees or officials but not members on July 1, 1999, have until December 1, 1999, to file an irrevocable, written application with the board.

(3) If an employee declines optional membership, the employee shall execute a statement waiving membership and the employer shall retain the statement. An employee who declines optional membership may not receive membership credit or service credit for the employment for which membership was declined.

(4) An employee who declined optional membership but later becomes a member may qualify service credit for the period of time beginning with the date of employment in which membership was declined to the commencement of membership. Qualification of service pursuant to this subsection must comply with 19-3-505.

(5) Membership in the retirement system is not optional for an employee who is already a member. Upon employment in a position for which membership is optional:

(a) a member who was an active member before the employment remains an active member;

(b) a member who was an inactive member before the employment becomes an active member; and

(c) a member who was a retired member before the employment is subject to part 11 of this chapter.

(6) An employee who declines membership while employed in a position for which membership is optional may not later become a member while still employed in that position. If, after a break in service of 30 days or more an employee who was a member in an optional membership position is reemployed in the same position or is employed in a different position for which membership is optional, the employee shall again choose or decline membership. However, if the break in service is less than 30 days, an employee who declined membership is bound by the employee's original decision to decline membership.

(7) An employee accepting a position that requires membership shall become a member even if the employee previously declined membership and did not have a 30-day break in service.

(8) If an employee or official fails to file with the board an irrevocable, written application within the time allowed in this section, the employee or official waives membership.

(1) Time, not to exceed 5 years, during which a member is absent from service because of injury or illness is considered membership service if, within 1 year after the end of the absence, the injury or illness is determined to have arisen out of and in the course of the member's employment. However, the member may not earn service credits for this period unless the member complies with subsections (2) and (3), in which case the absence is considered as time spent in service for both service credits and membership service.

(2) (a) A member absent because of an employment-related injury entitling the member to workers' compensation payments may, upon the member's return to service, contribute to the retirement system an amount equal to the contributions that would have been made by the member to the system on the basis of the member's compensation at the commencement of the member's absence plus regular interest accruing from 1 year from the date after the member returns to covered service to the date the member contributes for the period of absence.

An employer electing to make an interest payment shall do so for all employees similarly situated. If the employer elects not to pay the interest costs, this amount must be paid by the employee.

(3) At some time after returning to covered service, a member shall file with the board a written notice of the member's intent to pay the contributions under subsection (2).

(4) A member loses the right to contribute for an absence under this section if all of the member's accumulated contributions are refunded pursuant to 19-2-602 or for the period of time during which retirement benefits are received if the member retires during the absence.

19-3-505. Qualification of previous employment with employer. (1) Subject to the provisions of this section, a member who has employment for which optional membership was declined or employment with an employer prior to the employer's contract coverage may request to qualify all or a portion of the employment as membership service by filing written application with the board.

(2) (a) If the board approves the application, the member shall pay to the board the sum of the amount that the member and the member's employer would have contributed during the period of employment if the employment had been covered by the retirement system and the regular interest that would have accumulated on the amount to the time of payment. However, the employer may pay the employer's portion, including accrued regular interest as provided in subsection (2)(b).

(b) The employer shall establish a policy as to the payment of retroactive employer contributions and apply this policy indiscriminately for all employees and former employees. All employee appeals of discrimination are subject to the determination of the board. All successful appeals obligate the employer to pay the employer and employee contributions with accrued interest for that employee filing the appeal with the board. Each appeal must be heard on its individual merits and may not bind the employer to pay all retroactive payments for all former and present employees.

(3) A member may secure service credit not previously credited by submitting salary information certified by the member's employer or former employer to the board. The board shall determine the eligibility of all service credit requests.

(b) Upon receiving the member's payment under subsection (1)(a), the board shall transfer from the member's former retirement system to the public employees' retirement system an amount equal to the employer contributions made during the member's service but no more than an amount equal to the normal cost contribution rate minus the employee contribution rate in the public employees' retirement system, according to the most recent actuarial valuation, based on the salaries earned by the employee as a member of the former system.

(2) (a) A member may, at any time before retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide salary and employment documentation certified by the member's former public employer. 19-3-510. Employment in United States government. (1) A member who is assigned to an agency of the United States government under Title IV, the Intergovernmental Personnel Act of 1970, may qualify the federal employment as service in the retirement system under subsection (2), provided that:

(a) the member has accrued 5 years or more of membership service in the retirement system; and

(b) the member returns to full-time service with the former state or local government employer for at least 1 year after completing employment in the United States government.

(2) A member of the retirement system who is assigned to an agency of the United States government has the option to:

(a) continue the member's payments into the pension trust fund; or

(b) qualify the period of federal employment under this section within 2 years after return to service under the retirement system.

(3) Salary earned while on assignment to an agency of the United States government must be considered compensation for the purposes of the retirement system and may be included in the determination of final average salary, provided that the final average salary cannot exceed 100% of the member's highest annual compensation earned as a state or local government employee.

19-3-511. Transfer of service credits and contributions from teachers' retirement system. (1) An active member may at any time before retirement make a written election with the board to qualify in the public employees' retirement system all of the member's service in the teachers' retirement system for which the member either has received or is eligible to receive a refund.

(2) The amount that must be paid or transferred to the retirement system to qualify this service under this section is the sum of subsections (2)(a) and (2)(b) as follows:

(a) The teachers' retirement system shall transfer an amount equal to 72% of the amount payable by the member.

(b) The member shall pay either directly or by transferring contributions on account with the teachers' retirement system an amount equal to the member's accumulated contributions at the time that active membership was terminated with the teachers' retirement system, plus accrued interest. Interest must be calculated from the date of termination until payment is received by the public employees' retirement system, based on the interest tables in use by the teachers' retirement system.

(3) The amount of service credit granted in subsection (1) must be on a month-by-month basis. Military service credit transferred from the teachers' retirement system must be included in the 5-year maximum military service credit provided for in 19-3-503.

(4) Subject to the provisions of 19-2-403, the board is the sole authority in determining the amount of service credit qualified under this section and the amount paid to the retirement system under subsection (2).

(5) If an active member who also has service credit in the teachers' retirement system dies before the member qualifies this service in the public employees' retirement system and if the service credits from both systems, when combined, entitle the member's designated beneficiary to a survivorship benefit, the payment of the survivorship benefit is the liability of the public employees' retirement system. Before payment of the survivorship benefit, the teachers' retirement board shall transfer to the public employees' retirement system the contributions necessary to qualify this service in the public employees' retirement system as provided in subsection (2).

(6) If the board determines that a member was erroneously classified and reported to the teachers' retirement system, the member's accumulated contributions and service, together with the employer contributions plus interest, must be transferred to the public employees' retirement system. Employee and employer contributions due as calculated under 19-3-315 and 19-3-316 are the liability of the employee and the employing entity, respectively, where the error occurred. For the period of time that the employer contributions are held by the teachers' retirement system, interest paid on employer contributions transferred under this subsection must be calculated at the short-term investment pool rate earned by the board of investments in the fiscal year preceding the transfer request.

(a) public service employment covered under a public retirement system other than a system provided for in Title 19 for which the member received a refund of the member's membership contribution; and

(b) public service employment that occurred before the public employer adopted a public retirement system.

(2) A member may not qualify more than 5 years of service under this section. To qualify this service, a member shall:

(a) at any time before retirement make a written election with the board to qualify the service; and

(b) contribute to the pension trust fund the actuarial cost of granting the service in the public employees' retirement system, as determined by the board based on the most recent actuarial valuation of the system.

(3) Service qualified under this section may not be used to qualify a member to purchase military service under 19-3-503.

(4) Service qualified under this section may not be used in calculating a member's retirement benefit unless the member's last 5 years of service credit were earned under the public employees' retirement system. If a member's qualified service may not be used in calculating the member's retirement benefit, the member may choose to receive a refund of the accumulated contributions made to qualify the service.

19-3-1015. Medical examination of disability retiree — cancellation and reinstatement. (1) The board may, in its discretion, require a disabled member to undergo a medical examination. The examination must be made by a physician or surgeon appointed by the board, at a place mutually agreed upon by the retired member and the board. Upon the basis of the examination, the board shall determine whether the disabled member is unable, by reason of physical or mental incapacity, to perform the essential elements of either the position held by the member when the member retired or the position proposed to be assigned to the member. If the board determines the member is not incapacitated or if the member refuses to submit to a medical examination, the member's retirement benefit must be canceled.

(2) If the board determines that a disabled member should no longer be subject to medical review, the board may grant service retirement status to the member without recalculating the monthly benefit. The board shall notify the member in writing as to the change in status. If the disabled member disagrees with the board's determination, the member may make a written application to the board to request the board to reconsider its action. The written application for reconsideration must be made within 60 days after receipt of the notice of the status change.

(3) (a) Except as provided in subsections (3)(b) and (3)(c), a member whose disability retirement benefit is canceled because the board has determined that the member is no longer incapacitated must be reinstated to the position held by the member immediately before the member's retirement or to a position in a comparable pay and benefit category with duties within the member's capacity if the member was an employee of the state or of the university. If the member was an employee of a contracting employer, the board shall notify the proper official of the contracting employer that the disability retirement benefit has been canceled and that the former employee is eligible for reinstatement to duty. The fact that the former employee was retired for disability may not prejudice any right to reinstatement to duty that the former employee may have or claim to have.

(b) A member who is employed by an employer terminates any right to reinstatement provided by this section.

(c) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement to duty.

(4) If a member whose disability retirement benefit is canceled is not reemployed in a position subject to the retirement system, the member's service is considered, for the purposes of 19-2-602, to have been discontinued coincident with the commencement of the member's retirement benefit.

19-3-1501. Optional forms of benefits. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who makes an election must be converted, in lieu of all other benefits under this chapter, into an optional retirement benefit that is the actuarial equivalent of the original benefit. The optional retirement benefit is initially payable during the member's or designated beneficiary's lifetime, with a subsequent benefit to the contingent annuitant whom the member or designated beneficiary nominated by written designation, executed and filed with the board on the application for benefits, as follows:

(a) Option 2—a continuation of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(b) Option 3—a continuation of one-half of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) Option 4—upon the initial payee's death, other actuarially equivalent amounts as may be approved by the board.

(2) Election of an optional retirement benefit must be by written application filed prior to the first payment of the benefit.

(3) If a benefit recipient or the recipient's contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(4) If a member dies after retirement and within 30 days from the date the member's election or changed election of an optional retirement benefit is received by the board, then the election is void and the death is considered as that of a member before retirement.

(5) (a) Upon written application to the board, a retired member who is receiving an optional retirement benefit that became effective before October 1, 1999, may designate a different contingent annuitant, select a different option, or convert the member's optional retirement benefit to a regular retirement benefit if:

(i) the original contingent annuitant has died; or

(ii) the member's marriage to the original contingent annuitant has been dissolved and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of the dissolution settlement or family law order.

(b) Upon receipt of the written application, the board shall actuarially adjust the member's monthly retirement benefit to reflect the change.

(6) (a) A retired member receiving an optional retirement benefit pursuant to subsection (1)(a) or (1)(b) that is effective after October 1, 1999, may file a written application with the board to have the optional retirement benefit revert to the regular retirement benefit available at the time of the member's retirement if:

(i) the contingent annuitant has died, in which case the optional benefit must revert effective on the first day of the month following the contingent annuitant's death; or

(ii) the member's marriage to the contingent annuitant is dissolved and the beneficiary was not granted the right to receive the optional retirement benefit as part of the dissolution settlement or a family law order, in which case the benefit must revert effective on the first day of the month following receipt of the written application and verification that the dissolution settlement or family law order does not grant the optional benefit to the contingent annuitant.

(b) A regular retirement benefit provided pursuant to this subsection (6) must be increased by the value of any postretirement adjustments received by the member since the effective date of the member's retirement.

(7) A written application pursuant to subsection (5) or (6) must be filed with the board within 18 months of the death of or dissolution of marriage to the contingent annuitant.

(a) (i) a member who is an active member of the defined benefit plan on the date that the defined contribution plan becomes effective may, within 12 months after that date, elect to transfer to and become a member of the plan;

(ii) a member who was an inactive member of the defined benefit plan on the date that the defined contribution plan becomes effective and who is rehired into covered employment after the plan effective date may, within 12 months after the member's rehire date, elect to transfer to and become a member of the plan;

(b) a member who is initially hired into covered employment on or after the date that the defined contribution plan becomes effective may, within 12 months of the member's hire date, elect to become a member of the plan.

(2) (a) Elections made pursuant to this section must be made on a form prescribed by the board.

(b) A member failing to make an election prescribed by this section remains a member of the defined benefit plan.

(c) An election under this section, including the default election pursuant to subsection (2)(b), is a one-time irrevocable election. Subject to 19-3-2113, this subsection (2)(c) does not prohibit a new election after an employee has terminated membership in either plan and returned to covered employment.

(3) A member in either the defined benefit plan or the defined contribution plan who becomes inactive after an election under this section and who returns to active membership remains in the plan previously elected.

(4) A system member may not simultaneously be a member of the defined benefit plan and the defined contribution plan and must be a member of either the defined benefit plan or the defined contribution plan. A period of service may not be credited in more than one retirement plan within the system.

(5) The provisions of this part do not prohibit the board from adopting rules to allow an employee to elect the defined contribution plan on the first day of covered employment.

(6) A member of the defined benefit plan who is subject to a family law order pursuant to 19-2-907 or an execution or income-withholding order pursuant to 19-2-909 may not transfer to the defined contribution plan unless the order is modified to apply under the defined contribution plan or, for university employees making an election pursuant to 19-3-2112, the optional retirement program.

19-3-2121. *(Effective on occurrence of contingency or July 1, 2002, whichever is earlier)* **Determination and adjustment of plan choice rate and contribution allocations — rulemaking.** (1) The board shall provide for the periodic review of the sufficiency of the plan choice rate and shall adjust the allocation of contributions under 19-3-2117 as specified in this section. The board shall provide that the data necessary to comply with this section is collected and maintained for all system members.

(2) The plan choice rate set in 19-3-2117(2)(b) must be adjusted as provided in this section, taking into account:

(a) as determined under subsection (3), the change in the normal cost contribution rate in the defined benefit plan that is the result of member selection of the defined contribution plan;

(b) as determined under subsection (4), the anticipated reduction in defined contribution plan costs because of forfeitures; and

(c) as determined under subsection (5), the sufficiency of the plan choice rate to actuarially fund the defined contribution plan's share of the defined benefit plan's unfunded liabilities.

(3) The change in the normal cost contribution rate must be an amount equal to the difference between the normal cost contribution rate in the defined benefit plan that would have resulted if all system members remained in the defined benefit plan and the normal cost contribution rate in the defined benefit plan for the actual members of the defined benefit plan, multiplied by the

covered payroll of members in the defined benefit plan, divided by the covered payroll of members in the defined contribution plan. The measurements under this subsection must be based on the defined benefit plan in effect on the effective date of the defined contribution plan until the board determines that the defined benefit plan has been amended in a manner that significantly affects plan choices available to system members. After a board determination that the defined benefit plan has been significantly changed, the measurements in this subsection with respect to members entering the system after the significant change must be made on the basis of the defined benefit plan, as amended.

(4) The anticipated reduction in defined contribution plan costs as a result of forfeitures under 19-3-2116 must be determined as the amount of forfeitures expected during the next biennium based on actual forfeitures in the preceding biennium, adjusted by taking into account the gains or losses during the preceding biennium resulting from forfeitures of greater or lesser amounts than expected, divided by twice the covered payroll of members of the defined contribution plan.

(5) The sufficiency of the plan choice rate to actuarially fund the appropriate share of the defined benefit plan's unfunded liabilities must be determined as follows:

(a) The board shall determine the number of years required to actuarially fund the defined benefit plan's unfunded liabilities as of the June 30, 1998, actuarial valuation, which must be the initial schedule for the defined contribution plan to actuarially fund the plan's share of the unfunded liabilities. The board shall reduce the schedule by 1 year each biennium.

(b) During each subsequent actuarial valuation of the defined benefit plan conducted pursuant to 19-2-405, the board shall determine whether the plan choice rate minus the sum of the amounts provided in subsections (2)(a) and (2)(b) of this section is sufficient to pay the unfunded liability obligations within the schedule determined under subsection (5)(a) of this section. If the amount is insufficient to fund the liability over a period of 10 years longer than the scheduled period or is more than sufficient to fund the liability over a period of 10 years earlier than the scheduled period, the board shall determine to the nearest 0.1% the amount of the increase or decrease in the plan choice rate that is required to actuarially fund the liabilities according to the established schedule.

(6) If the board determines that the plan choice rate should be increased or decreased, the plan choice rate under 19-3-2117(2)(b) must be increased or decreased accordingly. If the plan choice rate is increased, the allocation of employer contributions to member accounts under 19-3-2117(2)(a) must be decreased by that amount. If the plan choice rate is decreased, the allocation of employer contributions to member accounts under 19-3-2117(2)(b) must be increased by that amount.

(7) By November 1 of the year of a determination pursuant to this section that the allocation of employer contributions under 19-3-2117(2) must be changed, the board shall notify system members, participating employers, employee and employer organizations, the governor, and the legislature of its determination and of the changes required.

(8) Effective January 1 of the year after the regular legislative session that immediately follows a determination under this section, the plan choice rate and the allocation of contributions under 19-3-2117(2) must be adjusted according to the board's determination.

(b) a range of investment alternatives that:

(i) provides sound and diversified funds;

(iv) tends to minimize through diversification the overall risk of large losses.

(3) Subject to a competitive bidding process, the investment alternatives may include the investment alternatives offered to members of the state deferred compensation plan pursuant to chapter 50 of this title.

(4) The board shall from time to time review the suitability and management of investment alternatives and may change the alternatives to be offered. The board shall notify affected members of potential changes before any changes become effective.

(5) Assets within each member's retirement account must be invested as directed by the member.

(6) The board shall provide for a balanced fund to be established as a default investment fund. In the case of a member failing to direct how the member's retirement account is to be invested, the member's entire account balance must be invested in the default fund.

(7) This section does not prohibit the board from contracting with the board of investments established in 2-15-1808 to provide one or more investment alternatives within the plan.

19-5-701. Optional forms of benefits. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who so elects, must be converted, in lieu of all other benefits under this chapter, into an optional retirement benefit that is the actuarial equivalent of the original benefit. The optional retirement benefit is initially payable during the member's or designated beneficiary's lifetime, with a subsequent benefit payable to the contingent annuitant that the member or designated beneficiary nominated by written designation, executed and filed with the board on the application for benefits, as follows:

(a) Option 2—a continuation of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(b) Option 3—a continuation of one-half of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) Option 4—upon the initial payee's death, other actuarially equivalent amounts as may be approved by the board.

(2) Election of an optional retirement benefit must be by written application filed prior to the first payment of the benefit.

(3) If a benefit recipient or the recipient's contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(4) If the member dies after retirement and within 30 days from the date the member's election or changed election of an optional retirement benefit is received by the board, the election is void and the death is considered as that of a member before retirement.

(5) (a) A retired member receiving an optional retirement benefit pursuant to subsection (1)(a) or (1)(b) that is effective after October 1, 1999, may file a written application with the board to have the optional retirement benefit revert to the regular retirement benefit available at the time of the member's retirement if:

(i) the contingent annuitant has died, in which case the optional benefit must revert effective on the first day of the month following the contingent annuitant's death; or

(ii) the member's marriage to the contingent annuitant is dissolved and the beneficiary was not granted the right to receive the optional retirement benefit as part of the dissolution settlement or a family law order, in which case the benefit must revert effective on the first day of the month following receipt of the written application and verification that the dissolution settlement or family law order does not grant the optional benefit to the contingent annuitant.

(b) A regular retirement benefit provided pursuant to this subsection (5) must be increased by the value of any postretirement adjustments received by the member since the effective date of the member's retirement.

(6) A written application pursuant to subsection (5) must be filed with the board within 18 months of the death of or dissolution of marriage to the contingent annuitant.

(7) (a) Upon written application to the board, a retired member who is receiving an optional retirement benefit may designate a different contingent annuitant, select a different option, or convert the member's optional retirement benefit to a regular retirement benefit if:

(i) the original contingent annuitant has died; or

(ii) the member has been divorced from the original contingent annuitant and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of the divorce settlement.

(b) Upon receipt of the written application, the board shall actuarially adjust the member's monthly retirement benefit to reflect the change.

General Provisions

19-6-101. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) "Compensation" means remuneration paid for services to a member out of funds controlled by an employer before any pretax deductions allowed by the Internal Revenue Code have been made and exclusive of maintenance, allowances, and expenses.

(2) "Dependent child" means an unmarried child of a deceased retired member, who is:

(a) under 18 years of age; or

(b) under 24 years of age and attending an accredited postsecondary educational institution as a full-time student in anticipation of receiving a certificate or degree.

(3) "Final average salary" means the average monthly compensation received by a member for any 3 years of continuous service upon which contributions have been made or, in the event a member has not served 3 years, the total compensation earned divided by the number of months served. Lump-sum payments for severance pay, sick leave, and annual leave paid to an employee upon termination of service may be used in the calculation of a retirement benefit only to the extent that they are used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of the final average salary. A lump-sum payment may not be added to a single month's compensation.

(4) "Surviving spouse" means the spouse married to a retired member at the time of the retired member's death.

(5) "Survivor" means a surviving spouse or dependent child of a member.

(1) In case of the disability of a member, a disability retirement benefit must be granted the member that is the actuarial equivalent of the service retirement benefit under 19-6-502 standing to the member's credit at the time of the member's disability retirement. If the disability is a direct result of any service to the Montana highway patrol in the line of duty, then the member who is disabled must be retired on a disability retirement benefit of one-half the member's final average salary regardless of the member's length of service.

(2) Upon the death of a retired member receiving a disability retirement benefit as provided in subsection (1), the benefit must be paid to the member's surviving spouse or dependent child, if there is a spouse or child, in the same manner as provided for in 19-6-505(2) and (3).

19-6-612. Medical examination of disability retiree — cancellation of benefit. (1) The board may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine whether the recipient can perform the essential elements of the position held by the recipient when the recipient retired. If the board determines that the recipient is not incapacitated, the recipient's disability retirement benefit must be canceled when the recipient is offered a position under subsection (3) or when, if a position is available, the recipient cannot be reinstated under subsection (3) for reasons unrelated to the disability. If the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled.

(2) If the board determines that a recipient of a disability retirement benefit should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating the recipient's monthly benefit. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, the recipient may submit a written application to the board to request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) (a) Except as provided in subsection (3)(b), a recipient whose disability retirement benefit is canceled because the board has determined that the recipient is no longer incapacitated must be reinstated to the position held by the recipient immediately before the recipient's retirement or to a position in a comparable pay and benefit category within the recipient's capacity, whichever is first open. The fact that the recipient was retired for disability may not prejudice any right to reinstatement to duty that the recipient may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement to duty.

(4) The department of justice may request a medical or psychological review as to the ability of the recipient to return to work as a member of the highway patrol. If the board's findings are upheld, the department of justice shall pay the cost of the review.

(1) (a) A member may, at any time before retirement, make a written election with the board to qualify all or any portion of the member's service in the public employees', sheriffs', game wardens' and peace officers', firefighters' unified, or municipal police officers' retirement system for which the member either has received or is eligible to receive a refund of the member's membership contributions. To qualify this service, the member shall contribute to the pension trust fund the actuarial cost of granting the service credit in the highway patrol officers' retirement system, as determined by the board, based on the most recent actuarial valuation minus the employer contribution provided in subsection (1)(b).

(b) Upon receiving the member's payment under subsection (1)(a), the board shall transfer from the member's former retirement system to the highway patrol officers' retirement system an amount equal to the employer contributions made during the member's service but no more than an amount equal to the normal contribution rate minus the employee contribution rate in the highway patrol officers' retirement system, according to the most recent actuarial valuation.

(2) (a) A member may, at any time before retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide compensation and employment documentation certified by the member's public employer. The board shall grant service credit subject to rules adopted by the board upon contribution by the employee of the actuarial cost of granting this service in the highway patrol officers' retirement system, as determined by the board, based on the most recent actuarial valuation of the system.

(b) The board is the sole authority under this subsection (2) in determining what constitutes full-time public service.

However, the member may not earn service credits for this period unless the member complies with subsections (2) through (4), in which case the absence is considered as time spent in service for both service credits and membership service.

Part 1
General Provisions

19-7-101. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) "Compensation" means remuneration paid for services to a member out of funds controlled by an employer before any pretax deductions allowed by the Internal Revenue Code are made and exclusive of maintenance, allowances, and expenses.

(2) "Final average salary" means the average monthly compensation received by a member for any 3 years of continuous service from which contributions were deducted or, in the event that a member has not served 3 years, the total compensation earned divided by the number of months served. Lump-sum payments for sick leave and annual leave paid to an employee upon termination of employment may be used in the calculation of a retirement benefit only to the extent that they are used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of the final average salary. A lump-sum payment may not be added to a single month's compensation.

(3) "Investigator" means a person who is employed as a criminal investigator or as a gambling investigator for the department of justice.

(4) "Sheriff" means any elected or appointed county sheriff or undersheriff or any appointed, lawfully trained, appropriately salaried, and regularly acting deputy sheriff. The board shall adopt rules incorporating both the peace officers standards and training council's current law enforcement training requirements and the legislatively authorized salary requirements as effective for deputy sheriffs who are eligible for membership in this retirement system.

19-7-612. Medical examination of disability retiree — cancellation of benefit. (1) The board, in its discretion, may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the essential elements of the position held by the recipient when the recipient was retired. If the board determines that the recipient is not incapacitated, the recipient's disability retirement benefit must be canceled when the recipient is offered a position under subsection (2) or when, if a position is available, the recipient cannot be reinstated under subsection (2) for reasons unrelated to the disability. If the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled when the recipient is notified of the determination of the board.

(2) (a) Except as provided in subsection (2)(b), a person other than an elected official whose disability retirement benefit is canceled because the person is no longer incapacitated must be reinstated to the position held by the person immediately before the person's retirement or to a position in a comparable pay and benefit category within the person's capacity, whichever is first open. The fact that the person was retired for disability may not prejudice any right to reinstatement to duty that the person may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(3) The public body required to reinstate a person under subsection (2) may request a medical or psychological review as to the ability of the member to return to work as a member of the sheriff's department. If the board's findings are upheld, the public body shall pay the cost of the review.

The Public Employees' Retirement Act — general provisions — service credit and additional contributions, Title 19, ch. 2, part 7.

Management of benefit payments, Title 19, ch. 2, part 9.

19-7-801. Membership in municipal police officers' retirement system prior to or following city-county consolidation — payment of benefits by two systems. (1) A law enforcement officer who has not changed employment but who has, because of a city-county consolidation, been transferred either from a city police force to a county sheriff's department or from a county sheriff's department to a city police force as a law enforcement officer is eligible for a service retirement benefit if the officer's combined service in the sheriffs' retirement system and the municipal police officers' retirement system satisfies the minimum membership service requirement of the system to which the officer last made contributions. A member who has elected to continue membership in the public employees' retirement system under 19-7-301 may continue the election. However, credit for service in the public employees' retirement system that has not been transferred prior to January 1, 1979, may not be transferred.

(2) Eligibility for and calculation of disability retirement, death benefits, and refund of contributions are governed by the provisions of the retirement system to which the officer last made contributions.

(3) The service retirement benefit of a member described in subsection (1) must be calculated separately for each system based on the service credited under each system. The calculation for the sheriffs' retirement system portion of the benefit must include the appropriate reduction in the retirement benefit for an optional retirement benefit elected under 19-7-1001. The final salary or final average salary for each calculation must be based on the highest compensation earned while a member of either system. Each system shall pay its proportionate share, based on the number of years of service credited, of the combined benefit.

(4) Upon the death of a retired member receiving a service retirement benefit under this section, the survivor or contingent annuitant and the continuing benefit must be determined separately for each system as follows:

(a) For the municipal police officers' retirement system portion of the benefit, the surviving spouse must receive a benefit equal to the municipal police officers' retirement system portion of the service retirement benefit as calculated at the time of the member's retirement. If the retired member leaves no surviving spouse or upon the death of the surviving spouse, the retired member's surviving dependent child, or children collectively if there are more than one, shall receive the same monthly benefits that a surviving spouse would receive for as long as the child or one of the children remains dependent as defined in 19-9-104. The benefits must be made to the child's appointed guardian for the child's use. If there is more than one dependent child, upon each child no longer qualifying as dependent under 19-9-104, the pro rata benefits to that child must cease and be paid to the remaining children until all the children are no longer dependent.

(b) For the sheriffs' retirement system portion of the benefit:

(i) the contingent annuitant must receive a continuing benefit as determined under 19-7-1001, if the retired member elected an optional retirement benefit; or

(ii) if the retired member did not elect an optional retirement benefit, any payment owed the retired member, including the excess, if any, of the retired member's accumulated contributions standing to the retired member's credit at the time of retirement less payments made to the retired member must be paid to the retired member's designated beneficiary.

To qualify this service, the member shall contribute to the pension trust fund the actuarial cost of granting the service in the sheriffs' retirement system, as determined by the board, based on the most recent actuarial valuation minus the employer contribution provided in subsection (1)(b).

(b) Upon receiving the member's payment under subsection (1)(a), the board shall transfer from the member's former retirement system to the sheriffs' retirement system an amount equal to the employer contributions made during the member's service but no more than an amount equal to the normal contribution rate minus the employee contribution rate in the sheriffs' retirement system, according to the most recent actuarial valuation, based on the compensation earned by the employee as a member of the former system.

(2) (a) A member may, at any time before retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide compensation and employment documentation certified by the member's public employer. The board shall grant service credit upon contribution by the employee of the actuarial cost of granting this service in the sheriffs' retirement system, as determined by the board, based on the most recent actuarial valuation of the system.

However, the member may not earn service credits for this period unless the member complies with subsections (2) through (4), in which case the absence is considered as time spent in service for both service credits and membership service.

(2) After returning to service and while still in service, a member desiring service credit for the period of time referred to in subsection (1) shall file with the board a written application to pay the contributions under subsection (3).

(b) If a member elects to contribute under subsection (3)(a), the employer shall contribute employer contributions for the period of absence based on the salary as calculated in subsection (3)(a) and shall pay interest on the employer's contribution calculated in the same manner as interest on the employee's contribution under subsection (3)(a). An employer electing to make an interest payment shall do so for all employees similarly situated. If the employer elects not to pay the interest costs, this amount must be paid by the employee.

The optional retirement benefit is initially payable during the member's or designated beneficiary's lifetime with a subsequent benefit to the contingent annuitant that the member or designated beneficiary nominated by written application, executed and filed with the board with the application for benefits, as follows:

(a) Option 2—a continuation of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(ii) the member's marriage to the contingent annuitant is dissolved and the beneficiary was not granted the right to receive the optional retirement benefit as part of the dissolution settlement or a family law order, in which case the benefit must revert effective on the first day of the month following receipt of the written application and verification that the dissolution settlement or family law order does not grant the optional benefit to the contingent annuitant.

(b) A regular retirement benefit provided pursuant to this subsection (5) must be increased by the value of any postretirement adjustments received by the member since the effective date of the member's retirement.

(6) A written application pursuant to subsection (5) must be filed with the board within 18 months of the death of or dissolution of marriage to the contingent annuitant.

(7) (a) Upon written application to the board, a retired member who is receiving an optional retirement benefit may designate a different contingent annuitant, select a different option, or convert the member's optional retirement benefit to a regular retirement benefit if:

(i) the original contingent annuitant has died; or

(ii) the member has been divorced from the original contingent annuitant and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of the divorce settlement.

General Provisions

19-8-101. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) "Compensation" means remuneration paid for services to a member out of funds controlled by an employer before any pretax deductions allowed by the Internal Revenue Code are made and exclusive of maintenance, allowances, and expenses.

(2) "Final average salary" means the average monthly compensation received by a member for any 3 years of continuous service upon which contributions were made or, in the event a member has not served 3 years, the total compensation earned divided by the number of months served. Lump-sum payments for severance pay, sick leave, and annual leave paid to an employee upon termination of employment may be used in the calculation of a retirement benefit only to the extent that they are used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of the final average salary. A lump-sum payment may not be added to a single month's compensation.

(3) "Game warden" means a state fish and game warden hired by the department of fish, wildlife, and parks and includes all warden supervisory personnel whose salaries or compensation is paid out of the department of fish, wildlife, and parks money.

(4) "Motor carrier officer" means an employee of the department of transportation appointed as a peace officer pursuant to 61-12-201.

(5) "Peace officer" or "state peace officer" means a person who by virtue of the person's employment with the state is vested by law with a duty to maintain public order or make arrests for offenses while acting within the scope of the person's authority or who is charged with specific law enforcement responsibilities on behalf of the state.

19-8-712. Medical examination of disability retiree — cancellation of benefit. (1) The board, in its discretion, may require the recipient of a disability retirement benefit to undergo a medical examination. The examination must be made by a physician or surgeon at the recipient's place of residence or at another place mutually agreed on, at the board's expense. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the essential elements of the position held by the recipient when the recipient retired. If the board determines that the recipient is not incapacitated, the recipient's disability retirement benefit must be canceled when the recipient is offered a position under subsection (3) or when, if a position is available, the recipient cannot be reinstated under subsection (3) for reasons unrelated to the disability. If the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled when the recipient is notified of the determination of the board.

(2) If the board determines that a recipient of a disability retirement benefit should no longer be subject to medical review, the board may grant a service retirement status to the recipient without recalculating the recipient's monthly benefit. The board shall notify the recipient in writing as to the change in status. If the recipient disagrees with the board's determination, the recipient may submit a written application to the board to request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after receipt of the notice of the status change.

(3) (a) Except as provided in subsection (3)(b), a recipient whose disability retirement benefit is canceled because the board has determined that the recipient is no longer incapacitated must be reinstated to the position held by the recipient immediately before the recipient's retirement or to a position in a comparable pay and benefit category within the recipient's capacity, whichever is first open. The fact that the recipient was retired for disability may not prejudice any right to reinstatement to duty that the recipient may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(4) The member's former employer may request a medical or psychological review as to the ability of the recipient to return to work as a peace officer. If the board's findings are upheld, the former employer shall pay the cost of the review.

19-8-801. Optional forms of benefits. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who so elects must be converted in lieu of all other benefits under this chapter into an optional retirement benefit that is the actuarial equivalent of the original benefit. The optional retirement benefit is initially payable during the member's or designated beneficiary's lifetime with a subsequent benefit to the contingent annuitant that the member or designated beneficiary nominated by written designation, executed and filed with the board on the application for benefits, as follows:

(a) Option 2—a continuation of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(b) Option 3—a continuation of one-half of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) Option 4—upon the initial payee's death, other actuarially equivalent amounts as may be approved by the board.

(2) Election of an optional retirement benefit must be by written application filed prior to the first payment of the benefit.

(3) If a benefit recipient or the recipient's contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(4) If the member dies after retirement and within 30 days from the date the member's election or changed election of an optional retirement benefit is received by the board, the election is void and the death is considered as that of a member before retirement.

(5) (a) A retired member receiving an optional retirement benefit pursuant to subsection (1)(a) or (1)(b) that is effective after October 1, 1999, may file a written application with the board to have the optional retirement benefit revert to the regular retirement benefit available at the time of the member's retirement if:

(i) the contingent annuitant has died, in which case the optional benefit must revert effective on the first day of the month following the contingent annuitant's death; or

(ii) the member's marriage to the contingent annuitant is dissolved and the beneficiary was not granted the right to receive the optional retirement benefit as part of the dissolution settlement or a family law order, in which case the benefit must revert effective on the first day of the month following receipt of the written application and verification that the dissolution settlement or family law order does not grant the optional benefit to the contingent annuitant.

(b) A regular retirement benefit provided pursuant to this subsection (5) must be increased by the value of any postretirement adjustments received by the member since the effective date of the member's retirement.

(6) A written application pursuant to subsection (5) must be filed with the board within 18 months of the death of or dissolution of marriage to the contingent annuitant.

(7) (a) Upon written application to the board, a retired member who is receiving an optional retirement benefit may designate a different contingent

annuitant, select a different option, or convert the member's optional retirement benefit to a regular retirement benefit if:

(i) the original contingent annuitant has died; or

(ii) the member has been divorced from the original contingent annuitant and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of the divorce settlement.

(b) Upon receipt of the written application, the board shall actuarially adjust the member's monthly retirement benefit to reflect the change.

To qualify this service, the member shall contribute to the pension trust fund the actuarial cost of granting the service in the game wardens' and peace officers' retirement system, as determined by the board, based on the most recent actuarial valuation of the system minus the employer contribution provided in subsection (1)(b).

However, the member may not earn service credits for the absence unless the member complies with subsections (2) and (3), in which case the absence is considered as time spent in service for both service credits and membership service.

(2) (a) A member absent because of an employment-related injury entitling the member to workers' compensation payments may, upon the member's return to service, contribute an amount equal to the contributions that the member would have made on the basis of the member's compensation at the commencement of the member's absence plus regular interest accruing from 1 year from the date after the member returns to covered service to the date the member contributes for the period of absence.

(b) Whenever a member elects to contribute under subsection (2)(a), the employer shall contribute employer contributions for the period of absence based on the salary as calculated in subsection (2)(a) and may pay interest on the employer's contribution calculated in the same manner as interest on the employee's contribution under subsection (2)(a). An employer electing to make an interest payment shall do so for all employees similarly situated. If the employer elects not to pay the interest costs, this amount must be paid by the employee.

(3) At some time after returning to covered service, a member shall file with the board a written notice of the member's intent to pay the contributions under subsection (2).

(4) A member loses the right to contribute for an absence under this section if all of the member's accumulated contributions are refunded pursuant to 19-2-602 or for the period of time during which benefits are received if the member retires during the absence.

Part 1
General Provisions

19-9-101. Short title. This chapter may be cited as the "Municipal Police Officers' Retirement Act".

History: En. 11-1860 by Sec. 1, Ch. 456, L. 1977; R.C.M. 1947, 11-1860.

19-9-102. Purpose — application of prior law. (1) As cities other than those participating in the statewide police reserve fund provided for in Chapter 335, Laws of 1974, currently have local police retirement funds, the legislature finds and declares that the law regarding such funds, although in conflict with this chapter, cannot be repealed. It is the express intention of the legislature to allow two separate and distinct retirement systems to exist. The first, which includes local police retirement funds, applies to such cities, other than those of the first and second class, that wish to adopt it. The second, created by this chapter, applies to first- and second-class cities, those other cities that wish to adopt it, and any city that has adopted the above-mentioned statewide police reserve fund.

(2) The following may not be applied in any way to a city operating under the plan created by this chapter: 7-32-4107, 7-32-4120, 7-32-4131, and chapter 19 of this title.

History: En. 11-1892 by Sec. 33, Ch. 456, L. 1977; R.C.M. 1947, 11-1892; amd. Sec. 11, Ch. 114, L. 1979.

19-9-103. Municipal police officers' retirement system established. There is a retirement plan known as the municipal police officers' retirement system. The plan is governed by the provisions of chapter 2 and this chapter.

History: **En. 11-1862 by Sec. 3, Ch. 456, L. 1977; R.C.M. 1947, 11-1862; amd. Sec. 180, Ch. 265, L. 1993; amd. Sec. 71, Ch. 562, L. 1999.**

1999 Amendment: Chapter 562 substituted "There is a retirement plan known as the municipal police officers' retirement system. The plan is governed" for "A municipal police officers' retirement system is established, which is governed". Amendment effective July 1, 1999.

(1) Cities other than those participating in the statewide police reserve fund administered by the board in accordance with Chapter 335, Laws of 1974, as of June 30, 1977, may elect to join the retirement system by passing an ordinance stating the election and the consent of the city to be bound by the provisions of this retirement system. Upon the enactment of an ordinance, the provisions of this retirement system become applicable to the city. Any city enacting an election ordinance shall send a certified copy of the ordinance to the board and shall, as soon as possible, deposit all cash and securities held by it in its local police reserve or retirement fund into the municipal police officers' pension trust fund. The value of the securities must be determined by the board.

(2) The trustees or other administrative head of the local plan as of the effective date of the election shall certify the proportion, if any, of the funds of the plan that represents the accumulated contributions of the active members and the relative shares of the members as of that date. The shares must be charged to the employer and credited to the respective members in the retirement system and administered as if the contributions had been made during membership in the retirement system. Any excess of employer credits over charges under this section must be offset, with interest, against future required employer contributions for a period determined by the board. Any excess of employer charges over credits under this section are payable by the employer, with interest, for a period of 10 years or less as determined by the board.

19-9-905. Reinstatement upon termination of disability benefit. (1) (a) Except as provided in subsection (1)(b), a retired member whose disability retirement benefit is canceled as provided in 19-9-904 must be reinstated to the position held by the member immediately before retirement or to a position in a comparable pay and benefit category with duties within the member's capacity, whichever is first open. The board shall advise the employer that the disability retirement benefit has been canceled and that the member is eligible for reinstatement to duty. The fact that the member was retired for disability may not prejudice any right to reinstatement to duty that the member may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(2) The city may request a medical or psychological review as to the ability of the member to return to work as a police officer. If the board's findings are upheld, the city shall pay the costs of the review.

(3) If the retired member again becomes an active member by returning to service with an employer within 30 days following receipt of notice under 19-9-904, the member must be considered to have been continuously employed during the term of the member's disability. If the retired member fails to become an active member by returning to service with an employer within 30 days following receipt of the notice, the member's termination of service is considered to have occurred as of the member's disability retirement date and the retirement benefit, if any, to which the member becomes entitled on the member's service retirement date must be determined accordingly.

19-13-102. Purpose — application of prior law. (1) Because cities other than those of the first or second class currently have fire department relief associations, the legislature finds and declares that the law regarding these associations cannot be repealed. It is the express intention of the legislature to allow two separate and distinct retirement systems to exist. The first, which includes fire department relief associations, applies to cities other than those of the first or second class that wish to adopt it. The second, created by this chapter, applies to cities of the first or second class and those other cities that wish to adopt it. The purpose of the second system is to provide equity and security for retired firefighters who served cities of the first and second class and other cities electing to join the plan by creating a centrally administered system responsible for continuing all retirement payments from the assets of the system.

(2) Title 19, chapter 18, may not be applied in any way to a city operating under the plan created by this chapter except as otherwise provided.

History: En. Sec. 2, Ch. 566, L. 1981.

19-13-104. Definitions. Unless the context requires otherwise, the following definitions apply in this chapter:

(1) Any reference to "city" or "town" includes those jurisdictions that, before the effective date of a county-municipal consolidation, were incorporated municipalities, subsequent districts created for urban firefighting services, or the entire county included in the county-municipal consolidation.

(2) "Compensation" means:

(a) for a full-paid firefighter, the regular remuneration, excluding overtime, holiday payments, shift differential payments, compensatory time payments, and payments in lieu of sick leave, paid for the firefighter's service as a firefighter out of funds controlled by an employer before any pretax deductions allowed under the Internal Revenue Code have been made;

(b) for a part-paid firefighter employed by a city of the second class:

(i) 15% of the regular remuneration, excluding overtime, holiday payments, shift differential payments, compensatory time payments, and payments in lieu of sick leave, paid on July 1 of each year to a newly confirmed, full-paid firefighter of the city that employs the part-paid firefighter; or

(ii) if that city does not employ a full-paid firefighter, 15% of the average regular remuneration, excluding overtime, holiday payments, shift differential payments, compensatory time payments, and payments in lieu of sick leave, paid on July 1 of each year to all newly confirmed, full-paid firefighters employed by cities of the second class.

(3) "Dependent child" means a child of a deceased member who is:

(a) unmarried and under age 18; or

(b) unmarried, under age 24, and attending an accredited postsecondary educational institution as a full-time student in anticipation of receiving a certificate or degree.

Lump-sum payments for annual leave paid to the member upon termination of service may be used to replace, on a month-for-month basis, the normal compensation for a month or months included in the calculation of final average compensation.

(6) "Firefighter" means a person employed as a full-paid or part-paid firefighter by an employer.

(7) "Full-paid firefighter" means a person appointed as a firefighter under 7-33-4106.

19-13-211. Election to join retirement system — transfer of assets. (1) Except for cities with only volunteer firefighters, a city other than one described in 19-13-210 may, after July 1, 1981, elect to join the retirement system by passing an ordinance stating the election and the consent of the city to be bound by the provisions of this retirement system. The fire department relief association of the city may pass a resolution to the same effect. Upon the enactment of the ordinance and passage of the resolution, the provisions of this retirement system become applicable to the city. Any city that enacts an election ordinance and in which the fire department relief association passes a resolution shall send certified copies to the board and shall, as soon as possible, deposit into the pension trust fund all cash and securities held by its fire department relief association. The value of the securities must be determined by the board.

(2) The board of trustees of the fire department relief association as of the effective date of the election shall certify the proportion, if any, of the funds of the association that represents the accumulated contributions of the active members and the relative shares of the members as of that date. Following the transfer of the cash and securities required by subsection (1) and the certification required by this subsection, the fire department relief association may conclude its affairs. The shares of the members must be charged to the employer and credited to the respective members in the retirement system and administered as if the contributions had been made during membership in the retirement system. Any excess of employer credits over charges under this section must be offset, with interest, against future required employer contributions. Any excess of employer charges over credits under this section are payable by the employer, with interest, on a basis determined by the procedure described in 19-13-213.

19-13-212. Termination of participation in retirement system or reduction of employer contributions. (1) If a city voluntarily terminates its contributions in the retirement system or significantly reduces the number of full-paid firefighters it employs to a degree that, in the board's opinion, inadequately funds the accrued or accruing benefits of retirement system members, the board shall request as part of the required actuarial valuation an actuarial investigation of the funding status of the city.

(2) Based on the actuarial investigation, the board may request and the city shall pay annually the amount determined to be necessary to provide adequate funding for the liabilities of the city. This amount must be in addition to any other contributions required by the retirement act.

(3) Six years after the actuarial investigation is conducted, a city making payments as provided in subsection (2) may request the board to review the city's funding status relative to the annual payments. As a result of the review, the board may adjust the payments.

History: En. Sec. 1, Ch. 468, L. 1983; amd. Sec. 210, Ch. 265, L. 1993; Sec. 19-13-110, MCA 1991; redes. 19-13-212 by Code Commissioner, 1993.

19-13-213. Excess unfunded liabilities of prior plans. (1) The legislature finds and declares that many cities operating under prior plans have excess and unfunded liabilities, and the liabilities cannot be amortized by the percentage contributions set forth in this chapter.

(2) The board shall, within 6 months after a city is granted membership in the retirement system, determine the excess and unfunded liability of the city's previous plan. If the board determines that the city has an excess and unfunded liability under a previous plan that is not funded by sums on deposit or funds available for deposit in the pension trust fund, the city shall pay an additional sum over a period of time to amortize the city's excess liability.

History: En. Sec. 24, Ch. 566, L. 1981; amd. Sec. 3, Ch. 286, L. 1983; amd. Sec. 5, Ch. 661, L. 1983; amd. Sec. 1, Ch. 44, L. 1991; amd. Sec. 211, Ch. 265, L. 1993; Sec. 19-13-503, MCA 1991; redes. 19-13-213 by Code Commissioner, 1993.

19-13-214. Taxing authority of employers. (1) For the purpose of making contributions required of a city under this chapter, whenever the demand for deposits of such contributions cannot be met within the general taxing authority and other revenues available to the city for that purpose, the appropriate authority of the city may levy any additional tax authorized by law until the general taxing authority and other revenue available for that purpose is sufficient to meet the demand.

(2) "General taxing authority", as used in this section, means that levy which the city may make under the all-purpose levy or under multiple-purpose levies, if the city is using multiple-purpose levies.

(3) No provision of any statute relating to the all-purpose levy may be so construed as to limit the additional taxing authority created by this section.

History: En. Sec. 32, Ch. 566, L. 1981; Sec. 19-13-606, MCA 1991; redes. 19-13-214 by Code Commissioner, 1993.

(2) If a member has retired from active duty in the armed forces of the United States with military retirement benefits, the member may not qualify military service under subsection (1).

(b) If an appropriate vacancy does not exist within an inactive member's fire department when the member's disability benefit is canceled under 19-13-804, the member's benefit must be reinstated until a vacancy occurs.

(c) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(2) The city may request a medical or psychological review as to the ability of the member to return to work as a firefighter. If the board's findings are upheld, the city shall pay the costs of the review.

(3) If the inactive member again becomes an active member by returning to active work for an employer within 30 days following receipt of notice under 19-13-804, the member is considered to have been continuously employed during the term of the member's disability. (2) to a member who has become maimed or disabled for life in line of duty;

(3) to a member who has suffered injury in line of duty;

(4) to a member who has contracted sickness in line of duty;

(5) funeral expenses of a member;

(6) pensions to the surviving spouse, orphan, or orphans of a deceased member.

19-18-602. Service pension. (1) Each association shall pay, out of its disability and pension fund, a service pension to each of its members who elects to retire from active service after having completed 20 years or more of active duty and has reached the age of 50 years as a fully paid member of a paid or partly paid and partly volunteer fire department of the city or town in which the association was formed. The pension shall be equal to one-half of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department.

(2) Effective July 1, 1974, a member who completes 20 years of service and elects to serve additional years shall receive the pension provided for in subsection (1) increased at the rate of 1% per year for each additional year of service completed, up to a maximum of 60% of the sum last received by the member as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department. No member is eligible to receive a service pension prior to attaining the age of 50 years.

(3) The monthly pension paid to members retiring on or after July 1, 1973, must be at least one-half the regular monthly salary, excluding overtime and payments in lieu of sick leave and annual leave, paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. The monthly pension paid to a member retiring prior to July 1, 1974, must be at least $200. In the case of volunteer firefighters, the pension may not exceed $150 a month.

(4) As of July 1, 1977, a member is not eligible to receive a service pension under this section unless he is making a monthly contribution to the disability and pension fund, as required by 19-18-501, and is on active duty as a fully paid member of a fire department when he reaches the age of 50 years.

(5) A member of a pure volunteer fire department who has served 20 years or more as an active member of the fire department is entitled to the benefits provided for in this chapter regardless of his age. A member of a pure volunteer fire department who has completed 10 years' service as an active member of the fire department but who is prevented from completing 20 years' service by dissolution or discontinuance of his volunteer fire department, personal relocation due to transfer or loss of employment, personal disability, or any other factor beyond his reasonable control may nevertheless qualify for a partial or reduced pension in an amount and to the extent determined by the board of trustees of the association, regardless of his age.

19-18-603. Partial service pension. (1) A member of a fire department relief association is eligible to receive a partial service pension if he:

(a) has completed at least 10 years of active duty as a fully paid member of a fire department but has not both completed 20 years of service and attained age 50 as an active firefighter;

(b) is permanently separated from service on or after July 1, 1977;

(c) does not qualify for a disability pension under 19-18-604; and

(d) does not receive a refund of his contributions under 19-18-502.

(2) The right to receive the pension vests upon the firefighter's permanent separation from service, but the payments may not commence until the date he would have both reached his 50th birthday and completed 20 years of service as a member of a fire department had his active duty not been terminated.

(3) The pension shall be paid out of the disability and pension fund and shall consist of monthly payments in an amount equal to the number of years of the firefighter's service divided by the number of years of service the firefighter would have had if he had remained in active duty as a member of a fire department until the date he would have both attained age 50 and completed 20 years of service, multiplied by one-half of the sum last received by the firefighter as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, for his services as an active member of the fire department.

(4) If the firefighter dies after he is permanently separated from service and before he both reaches the age of 50 years and would have completed 20 years of service as an active member of a fire department, the payments prescribed in subsection (3) shall be made to the surviving spouse commencing on the date the firefighter would have both reached his 50th birthday and completed 20 years of service as an active member of a fire department and terminating upon the surviving spouse's death or remarriage. If there is no surviving spouse or the surviving spouse dies or remarries and if the firefighter leaves one or more children who have not reached the age of 18 years, the children shall receive the payments until the youngest reaches the age of 18 years.

(5) If the firefighter dies after he both reaches the age of 50 years and would have completed 20 years of service as an active member of a fire department, the payments shall be made to the surviving spouse or children as provided in subsection (4).

(6) The pension escalation provisions of 19-18-602 do not apply to pensions received under this section.

19-18-605. Pensions to surviving spouses and children. (1) Each association shall pay, out of its disability and pension fund, a monthly pension to the surviving spouse or children of a deceased member of the association who on the date of his death was an active member of the fire department in the city or town in which the association was formed, who had elected to retire from active service in the fire department and receive a service pension as provided for by 19-18-602, or who, prior to death, had suffered a sickness or injury and was receiving or was qualified to receive a disability pension as provided by 19-18-604. The pension shall be equal to one-half of the last month's salary received as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, by the deceased member for services rendered as an active member of the fire department in the city or town in which the association was formed.

(2) Effective July 1, 1974, if the deceased member had completed 20 years of service and had elected to serve additional years, the pension provided for in subsection (1) shall be increased at the rate of 1% per year for each additional year of service completed, up to a maximum of 60% of the last month's salary received as a monthly compensation, excluding overtime and payments in lieu of sick leave and annual leave, by the deceased member for his services as an active member of the fire department.

(3) The monthly pension paid to the surviving spouse or children of an active member who dies after July 1, 1973, or an active member who elects to retire after July 1, 1973, must be at least one-half the regular monthly salary paid to a confirmed active firefighter of that city, as provided each year in the budget of that city. The monthly pension paid to the surviving spouse or children of an active member who died prior to July 1, 1974, or who elected to

retire before July 1, 1974, must be at least $200. In the case of a volunteer firefighter, the pension paid to a surviving spouse or children may not exceed the amount provided for a service pension for a volunteer firefighter under 19-18-602(3).

(4) A pension may be paid to the surviving spouse only so long as such spouse remains unmarried. A surviving spouse is not entitled to a pension under this section if the marriage was entered into after the firefighter had elected to retire from active service and had begun to receive a service pension as provided for by 19-18-602 or if the marriage was entered into after the firefighter had qualified for and had begun to receive a disability pension as provided for by 19-18-604. The pension provided for in this section may not be paid to the children of deceased firefighters after they have attained the age of 18.

General Provisions

19-19-101. Definition. Unless the context requires a different meaning, any reference to "municipality", "city", or "town" in this chapter includes those jurisdictions which, prior to the effective date of a county-municipal consolidation, were incorporated municipalities, subsequent districts created for urban law enforcement services, or the entire county included in the county-municipal consolidation.

History: En. 11-1839.1 by Sec. 1, Ch. 489, L. 1977; R.C.M. 1947, 11-1839.1; Sec. 19-10-101, MCA 1991; redes. 19-19-101 by Code Commissioner, 1993.

Part 2

Management of Police Retirement Funds

19-19-201. Local boards of trustees of funds. (1) Each city or town that has a police retirement fund must have a board of trustees of the fund, except as provided in subsection (4).

(2) A board of trustees existing under subsection (1) must consist of the mayor, clerk, and attorney of the city or town and two members from the active list of police officers of the city or town.

(3) The two trustees who are also police officers shall serve terms of 2 years. They must be selected by a majority vote of the members of the police department on the active list of the city or town. One must be selected each year between May 1 and May 10, so that their terms are staggered. Immediately after the selection has been made, a certificate of election must be certified to the city clerk by the presiding officer of the board and secretary of the meeting at which the selection was made.

(4) The board of trustees of the police retirement fund of a city that elects to participate in the municipal police officers' retirement system under 19-9-207 is abolished as of the time that the transfer of the cash and securities and the certification required by that section is completed. The functions of the board are transferred as of the date of the election to the public employees' retirement board, as provided in the Municipal Police Officers' Retirement Act.

19-19-405. Credit for military service. A police officer serving in the United States military in time of war or national emergency shall be given credit in his police record for such service in the same manner as though he were on active police duty.

History: En. 11-1843 by Sec. 13, Ch. 335, L. 1974; amd. Sec. 11, Ch. 224, L. 1977; amd. Sec. 3, Ch. 489, L. 1977; R.C.M. 1947, 11-1843(part); Sec. 19-10-405, MCA 1991; redes. 19-19-405 by Code Commissioner, 1993.

19-19-406. Election to qualify previous military service. (1) A member with 15 years or more of service as a police officer may, at any time prior to his retirement, make a written election with the board to qualify all or any portion of his active service in the armed forces of the United States for the purpose of calculating retirement benefits, up to a maximum of 5 years, if he is not otherwise eligible to receive credit. To qualify this service he must contribute to the account the actuarial cost of granting the service to be determined by the board based on his compensation and normal contribution rate as of his 16th year and as many succeeding years as are required to qualify this service, with interest from the date he becomes eligible for this benefit to the date he contributes. He may not qualify more of his military service than he has service as a police officer in excess of 15 years. Military service purchased under this section may not be used in the determination of eligibility for a service retirement requiring a minimum of 20 years service.

(2) If a member has retired from active duty in the armed forces of the United States with normal service retirement benefits, he may not qualify his military service under subsection (1). However, a member who is serving or has served in the military reserves with the expectation of receiving a military service pension may qualify his active military service under subsection (1) if his active duty in the armed forces of the United States is not more than 25% of the total of all his years of military service, including reserve and active duty time.

Part 1
General Provisions

19-20-101. Definitions. As used in this chapter, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Accumulated contributions" means the sum of all the amounts deducted from the compensation of a member or paid by a member and credited to the member's individual account in the annuity savings fund, together with interest. Regular interest must be computed and allowed to provide a benefit at the time of retirement.

(2) "Actuarial equivalent" means a benefit of equal value when computed, with regular interest, on the basis of the 1971 Group Annuity Mortality Table, with ages set back 4 years and an interest rate of 8% compounded annually.

(3) "Average final compensation" means the average of a member's earned compensation during the 3 consecutive years of full-time service or as provided under 19-20-805 that yield the highest average and on which contributions have been made as required by 19-20-602. If amounts defined in subsection (6)(b) have been converted by an employer to earned compensation for all members and have been continuously reported as earned compensation in a like amount for at least the 5 fiscal years preceding the member's retirement, the amounts may be included in the calculation of average final compensation. If amounts defined in subsection (6)(b) have been reported as earned compensation for less than 5 fiscal years or if the member has been given the option to have amounts reported as earned compensation, any amounts reported in the 3-year period that constitute average final compensation must be included in average final compensation as provided under 19-20-716(1)(b).

(4) "Beneficiary" means a person formally designated by a member, retiree, or benefit recipient to receive a retirement allowance or payment upon the death of the member, retiree, or benefit recipient.

(5) "Creditable service" is that service defined by 19-20-401.

(6) (a) "Earned compensation" means, except as limited by 19-20-715, remuneration, exclusive of maintenance, allowance, and expenses, paid for services by a member out of funds controlled by an employer before any pretax deductions allowed under the Internal Revenue Code are deducted from the member's compensation.

(b) Earned compensation does not mean:

(i) direct employer premium payments on behalf of members for health or dependent care expense accounts or any employer contribution for health, medical, pharmaceutical, disability, life, vision, dental, or any other insurance;

(ii) any direct employer payment or reimbursement for professional membership dues; maintenance; housing; day care; automobile, travel, lodging, or entertaining expenses; or any similar payment for any form of maintenance, allowance, or expenses;

(iii) the imputed value of health, life, or disability insurance or any other fringe benefits; or

(iv) any noncash benefit provided by an employer to or on behalf of an employee.

(c) Unless included pursuant to 19-20-716, earned compensation does not include termination pay.

(d) Adding a direct employer-paid or noncash benefit to an employee's contract or subtracting the same or like amount as a pretax deduction is considered a fringe benefit and not earned compensation.

(e) Earned compensation does not include compensation paid to a member from a plan for the deferral of compensation under section 457(f) of the Internal Revenue Code.

(7) "Employer" means the state of Montana, the trustees of a district, or any other agency or subdivision of the state that employs a person who is designated a member of the retirement system.

(8) "Full-time service" means service that is full-time and that extends over a normal academic year of at least 9 months. With respect to those members employed by the office of the superintendent of public instruction, any other state agency or institution, or the office of a county superintendent, full-time service means service that is full-time and that totals at least 9 months in any year.

(9) "Internal Revenue Code" means the federal Internal Revenue Code of 1954 or 1986, as applicable to a governmental plan, as the code provided on July 1, 1999.

(10) "Member" means a person who has an individual account in the annuity savings fund. An active member is a person included under the provisions of 19-20-302. An inactive member is a person included under the provisions of 19-20-303.

(11) "Part-time service" means service that is less than full-time or that totals less than 9 months in a normal academic year. Part-time service must be credited in the proportion that the actual time worked compares to full-time service.

(12) "Prior service" means employment of the same nature as service but rendered before September 1, 1937.

(13) "Regular interest" means interest at 4% a year compounded annually or at a rate as may be set by the retirement board in accordance with 19-20-501(2).

(14) "Retired member" means a person who has terminated employment that is eligible for membership under 19-20-302 and who has received at least one monthly retirement benefit paid pursuant to this chapter.

(b) The maximum amount of disability or survivorship benefits that may be apportioned to alternate payees is the monthly benefit amount that would have been payable on the date of termination of service if the member had retired without disability or death.

(c) Retirement benefit adjustments for which a participant is eligible after retirement may be apportioned only if existing benefit payments are apportioned. The adjustments must be apportioned in the same ratio as existing benefit payments.

(d) Payments must be limited to the life of the appropriate participant. The duration of payments to an alternate payee may be further limited only to a specified maximum time, the life of the alternate payee, or the life of a specified participant. Payments to an alternate payee may be limited to a specific amount per month if the number of payments is specified. The alternate payee's rights and interests survive the alternate payee's death and may be transferred by inheritance.

(e) The participant may be required to choose a specified form of benefit payment or designate a beneficiary or contingent annuitant if the retirement system allows for that option.

(6) The board may assess a participant or an alternate payee for all costs of reviewing and administering a family law order, including reasonable attorney fees. The board may adopt rules to implement this section.

(2) (a) For each year of service to be credited, a member who became a member before July 1, 1989, shall contribute to the retirement system an amount equal to the combined employer and employee contribution for the member's first full year's teaching salary earned after becoming a member of the retirement system or after returning to the retirement system, whichever is later, plus interest. The contribution rate must be that rate in effect at the time the member is eligible to purchase the service.

(b) For each year of service to be credited under this section, a member who became a member on or after July 1, 1989, shall contribute the actuarial cost of the service based on the most recent valuation of the system.

(3) The interest on contributions required under subsection (2)(a) must be paid at the rate that the contributions would have earned had the contributions been in the member's account from the date the member was eligible to qualify the service.

(4) The contributions and interest may be made in lump-sum payment or in installments as agreed between the person and the retirement board.

(5) The provisions of 19-20-405 apply to creditable service purchased under this section.

19-20-409. Transfer of service credits and contributions from public employees' retirement system. (1) An active member may at any time before retirement make a written election with the retirement board to qualify in the teachers' retirement system all of the member's previous creditable service in the public employees' retirement system. The amount that must be paid to the retirement system to qualify this service under this section is the sum of subsections (2) and (3).

(2) The public employees' retirement system shall transfer to the teachers' retirement system an amount equal to 72% of the amount payable by the member.

(3) The member shall pay either directly or by transferring contributions on account with the public employees' retirement system an amount equal to the member's accumulated contributions at the time that active membership was terminated, plus accrued interest. Interest must be calculated from the date of termination until payment is received by the retirement system, based on the interest tables in use by the public employees' retirement system.

(4) A member who qualifies service from the public employees' retirement system in the teachers' retirement system must complete 5 years of membership service in the teachers' retirement system to qualify or purchase military service, out-of-state teaching service, employment while on leave, and private school employment.

(5) The retirement board shall determine the service credits that may be transferred.

(6) If an active member who also has creditable service in the public employees' retirement system before becoming a member of the teachers' retirement system dies before qualifying this service in the teachers' retirement system and if the member's service credits from both systems, when combined, entitle the member's beneficiary to a death benefit, the payment of the death benefit is the liability of the teachers' retirement system. Before payment of the death benefit, the public employees' retirement board must transfer to the teachers' retirement system the contributions necessary to qualify this service in the teachers' retirement system as provided in subsections (2) and (3).

(7) If the retirement board determines that an individual's membership was erroneously classified and reported to the public employees' retirement system, the member's accumulated contributions and service, together with employer contributions plus interest, must be transferred to the teachers' retirement system and any employee and employer contributions due as calculated in 19-20-602 and 19-20-605, respectively, are the liability of the employee and the employing entity where the error occurred. For the period of

time that the employer contributions are held by the public employees' retirement system, interest paid on employer contributions transferred under this subsection must be calculated at the short-term investment pool rate earned by the board of investments in the fiscal year preceding the transfer request.

(1) (a) At any time before retirement, a member with 5 years or more of creditable service in the retirement system may make a written election with the retirement board to qualify up to 5 years of employment service with the Montana cooperative extension service, subject to the limitation contained in 19-20-405, if:

(i) the member became a member of the retirement system before July 1, 1989;

(ii) the service involved instructional service at a unit of the Montana university system; and

(iii) the member received a refund of membership contributions under the civil service retirement system or the federal employees' retirement system for the service to be qualified.

(b) To qualify service under subsection (1)(a), the member shall contribute to the retirement system an amount equal to the combined employer and employee contribution for the member's first full year's teaching salary earned after becoming a member of the retirement system for each year of creditable service plus interest at the rate that the contribution would have earned had the contribution been in the member's account upon the completion of 5 years of membership service. The contribution rate must be that rate in effect at the time that the member is eligible for the service.

(2) In addition to service purchased under subsection (1) and subject to 19-20-407, a member with 5 years or more of qualified service in the retirement system may qualify any cooperative extension service by contributing to the system the full actuarial cost of the service.

(3) Contributions to qualify service under this section may be made in a lump-sum payment or in installments as agreed upon by the member and the retirement board.

(2) (a) A member who became a member before July 1, 1989, shall contribute an amount equal to:

(i) the contributions that the member would have made had the member not been absent, based on the member's compensation at the commencement of the absence;

(ii) the interest that begins to accrue 1 year from the date that the member returns to covered employment; and

(iii) the interest not paid by the employer under subsection (3).

(b) A member who became a member on or after July 1, 1989, shall pay the actuarial cost of the service based on the most recent valuation of the system.

The employer may contribute an amount equal to the interest accruing on the employer's contributions calculated in the same manner as interest on the employee's contributions under subsection (2)(a). If the employer elects not to pay the interest, this amount must be paid by the employee.

(4) A member shall file with the retirement board a written notice of the member's intent to pay the contributions under subsection (2).

(5) Payment of the employee's contributions may be made in one sum at the time of filing the notice or in installments before termination of covered employment as agreed between the board and the member.

1999 Amendment: Chapter 111 at end of first sentence in (1) substituted "eligible retirement plan" for "qualified retirement plan"; at beginning of (2) after "If" substituted "in the case of a transfer, the transferred account" for "the account", after first "taxed" substituted "amounts" for "contributions", and after second "taxed" substituted "amounts" for "contribution and interest balances"; inserted (3) requiring board to accept direct rollover of eligible distributions from another retirement plan to the extent allowed by federal tax law; and made minor changes in style. Amendment effective July 1, 1999.

19-20-415. *(Effective on later of occurrence of contingency or July 1, 1999)* **Procedure for purchase of service credit and pick up.** (1) A member who wishes to redeposit pursuant to 19-20-602(2) amounts previously withdrawn or who is eligible to purchase service credit pursuant to this part shall make the following series of elections to accomplish the redeposit or purchase:

(a) The member may elect a lump-sum payment, a series of installment payments, or a combination of lump-sum payments and installment payments.

(b) If a series of installment payments are elected by the member, the member may elect to pay the installments directly to the board or to have the installments paid by payroll deduction or the member may select a combination of both.

(c) With respect to installments payable by payroll deduction, if the member's employer has adopted the resolution described in subsection (2), the member shall elect the irrevocable payroll deduction authorization provided in subsection (4). If the member's employer has not adopted the resolution, the member may elect only a revocable payroll deduction authorization.

(2) An employer may adopt a resolution to pick up and pay the member's elective contributions made pursuant to a binding, irrevocable payroll deduction authorization. The contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member. The resolution must contain the following statements:

(a) that the member contributions, even though designated as member contributions for state law purposes, are being paid by the employer in lieu of the contributions by the member; and

(b) that the member may not choose to receive the contributed amounts directly instead of having them paid by the employer to the system.

(3) (a) With respect to any member's elective contributions, the effective date of the employer pick up is the later of:

(i) the adoption of the employer's resolution; or

(ii) the execution of the irrevocable payroll deduction authorization form.

(b) The pick up does not apply to a contribution made before the effective date of the employer's resolution. An irrevocable payroll deduction authorization in effect on the effective date of the employer's resolution is void and the provisions of subsection (1) apply.

(4) If the irrevocable payroll deduction authorization is elected by the member, it must be executed by the member and the member's employer. Subject to any maximum amounts or duration established by state or federal law, the irrevocable payroll deduction authorization must specify:

(a) the amount of the deduction;

(b) the number of installments;

(c) the number of years and type of service that the member is purchasing; and

(d) that the contributions being picked up, although designated as member contributions, are being paid by the employer directly to the board in lieu of contributions by the member.

(5) The minimum duration of the irrevocable payroll deduction authorization is 3 months, and the maximum duration is 5 years. The minimum number of years specified to be purchased may not be less than 1 year or the total number of years that the member is eligible to purchase. The maximum may not exceed the total number of years that the member is eligible to purchase.

(6) The irrevocable payroll deduction authorization may not give the member the option of receiving the deduction amounts directly instead of having them paid by the employer to the system. A member may make more than one binding, irrevocable payroll deduction authorization so long as a subsequent deduction authorization does not amend a previous binding, irrevocable payroll deduction authorization. A member may not prepay any amounts under a binding, irrevocable payroll deduction authorization.

(7) If a member terminates or dies prior to completion of the installment payments, the binding, irrevocable payroll deduction authorization expires and the board shall prorate the service credit purchased based upon the amount paid as of the date of termination or death. In the case of a termination, the member may make a lump-sum contribution for the balance of the service subject to the limitations of section 415 of the Internal Revenue Code. In the case of the member's death, the payment to purchase service may be made from the member's estate subject to the limitations of section 415 of the Internal Revenue Code.

19-20-602. *(Temporary)* **Annuity savings fund — member's contribution.** (1) The annuity savings fund is a fund in which the contributions for the members to provide for their retirement allowance or benefits must be accumulated in individual accounts for each member. The normal contribution of each member is 7.15% of the member's earned compensation.

(2) Contributions to and payments from the annuity savings fund must be made in the following manner:

(a) (i) Each employer, pursuant to section 414(h)(2) of the federal Internal Revenue Code of 1954, as amended and applicable on July 1, 1985, shall pick up and pay the contributions that would be payable by the member under this section for service rendered after June 30, 1985.

(ii) The member's contributions picked up by the employer must be designated for all purposes of the retirement system as the member's contributions, except for the determination of a tax upon a distribution from the retirement system. These contributions must become part of the member's accumulated contributions but must be accounted for separately from those previously accumulated.

(iii) The member's contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member and must be included in the member's earned compensation as defined in 19-20-101.

(iv) The employer shall deduct from the member's compensation an amount equal to the amount of the member's contributions picked up by the employer and remit the total of the contributions to the retirement board.

(b) The deductions must be made notwithstanding that the minimum compensation provided by law for a member may be reduced by the deductions. Each member is considered to consent to the deductions prescribed by this section, and payment of salary or compensation less the deductions is a complete discharge of all claims for the services rendered by the member during the period covered by the payment, except as to the benefits provided by the retirement system.

(3) In addition to the normal contributions and subject to the approval of the retirement board, a member may redeposit in the annuity savings fund, by a single payment or by an increased rate of contribution, an amount equal to accumulated contributions that the member has previously withdrawn, plus

interest in the amount the contributions would have earned had the contributions not been withdrawn.

(4) The accumulated contributions of a member withdrawn by the member or paid to the member's estate or to the member's designated beneficiary in event of the member's death must be paid from the annuity savings fund. (2) Contributions to and payments from the annuity savings fund must be made in the following manner:

(a) Each employer, pursuant to section 414(h)(2) of the Internal Revenue Code:

(i) shall pick up and pay the contributions that would be payable by the member under this subsection (2) for service rendered after June 30, 1985;

(ii) shall pick up and pay the contributions that would be paid in the manner provided in 19-20-716; and

(iii) may pick up and pay the contributions that would be payable by the member pursuant to 19-20-415.

(b) The member's contributions picked up by the employer must be designated for all purposes of the retirement system as the member's contributions, except for the determination of a tax upon a distribution from the retirement system. These contributions must become part of the member's accumulated contributions but must be accounted for separately from those previously accumulated.

(c) The member's contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member and must be included in the member's earned compensation as defined in 19-20-101. The employer shall deduct from the member's compensation an amount equal to the amount of the member's contributions picked up by the employer and remit the total of the contributions to the retirement board.

(d) The deductions must be made notwithstanding that the minimum compensation provided by law for a member may be reduced by the deductions. Each member is considered to consent to the deductions prescribed by this section, and payment of salary or compensation less the deductions is a complete discharge of all claims for the services rendered by the member during the period covered by the payment, except as to the benefits provided by the retirement system.

(3) In addition to the normal contributions, subject to the approval of the retirement board, and to the extent permitted by section 415(k)(3) of the Internal Revenue Code, a member may redeposit in the annuity savings fund, by a single payment or by an increased rate of contribution, an amount equal to accumulated contributions that the member has previously withdrawn, plus

Upon the retirement of a member, the member's accumulated contributions must be transferred from the annuity savings fund to the pension accumulation fund.

19-20-715. Compensation limit. (1) Compensation in excess of the limitations set forth in section 401(a)(17) of the Internal Revenue Code must be disregarded for individuals who are not eligible employees. The limitation on compensation for eligible employees may not be less than the amount that was allowed to be taken into account under this chapter on July 1, 1993. For purposes of this section, an eligible employee is an individual who was a member in the retirement system prior to July 1, 1996.

(2) In determining a member's retirement allowance under 19-20-802 or 19-20-804, the compensation reported in each year of the 3 years that make up the average final compensation may not be greater than 110% of the previous year's compensation included in the calculation of average final compensation or the earned compensation reported to the retirement system, whichever is less, except as provided by rule by the retirement board.

(3) Earned compensation in excess of the amount specified in subsection (2) is considered termination pay and must be included in the calculation of average final compensation as provided in 19-20-716.

History: En. Sec. 8, Ch. 111, L. 1995; amd. Sec. 21, Ch. 442, L. 1997.

19-20-716. *(Temporary)* **Termination pay.** If a member receives termination pay at the time of termination and elects to retire at that time, the member shall select one of the following options:

(1) The member may use termination pay in the calculation of the member's average final compensation. The member and the employer shall pay contributions to the retirement system as determined by the board to adequately compensate the system for the additional retirement benefit. The contributions must be made at the time of termination.

(2) The member may use a yearly amount of termination pay added to each of the 3 consecutive years' salary used in the calculation of the member's average final compensation. To determine the amount of termination pay used in the calculation of average final compensation, termination pay must be divided by the total number of years of creditable service to determine a yearly amount. The member and the employer shall pay contributions on the termination pay according to the rates provided for in 19-20-602 and 19-20-605(1).

(3) The member may exclude the termination pay from the average final compensation. A contribution is not required of either the member or the employer, and any contributions made under 19-20-602 and 19-20-605 must be refunded.

19-20-716. *(Effective on later of occurrence of contingency or July 1, 1999)* **Termination pay.** (1) If a member terminates and receives termination pay at the time of retirement, the member shall select, subject to subsection (4) and by executing a binding, irrevocable written election at least 90 days before the member's termination date, one of the following options:

(a) Option 1—The member may use the total termination pay in the calculation of the member's average final compensation. The member and the employer shall pay contributions to the retirement system as determined by the board to adequately compensate the system for the additional retirement benefit. The contributions must be made at the time of termination.

(b) Option 2—The member may use a yearly amount of the total termination pay added to each of the 3 consecutive years' salary used in the calculation of the member's average final compensation. To determine the amount of termination pay used in the calculation of average final compensation, termination pay must be divided by the total number of years of creditable service to determine a yearly amount. The member and the employer shall pay contributions on the termination pay according to the rates provided for in 19-20-602 and 19-20-605(1). The contributions must be made at the time of termination.

(c) Option 3—The member may exclude the termination pay from the average final compensation. A contribution is not required of either the member or the employer.

(2) A binding, irrevocable election required by this section must be executed by both the member and the employer and must contain statements with regard to the contributions required to be made by the member under subsections (1)(a) and (1)(b) that:

(a) the contributions being picked up, although designated as member contributions, are being paid by the employer directly to the system in lieu of contributions by the member and that the picked up contributions are paid from the same source as compensation is paid;

(b) the member may not choose to directly receive the amounts deducted from the member's termination pay instead of having them paid by the employer to the system;

(c) the member may not prepay any portion of the contributions; and

(d) the effective date of the pick up is the date of execution of the binding, irrevocable election by both the member and employer. The pick up does not apply to a contribution made before the effective date of the pick up.

(3) Pursuant to subsection (2), contributions required under subsection (1)(a) or (1)(b) must be:

(a) deducted from the portion of termination pay that:

(i) constitutes wages for the purposes of section 3121 of the Internal Revenue Code, determined without regard to the wage base limitation; and

(ii) can be included in the member's gross income for federal tax purposes; and

(b) picked up by the employer.

(4) If a member fails to make the written election within the time period required in subsection (1) or if the member contribution is greater than the total amount of termination pay, the member may contribute for the purposes specified in subsections (1)(a) and (1)(b) all or any part of the termination pay

received. A contribution made pursuant to this subsection cannot be picked up by the employer and is subject to the limitations of section 415 of the Internal Revenue Code.

Amendment effective on later of occurrence of contingency or July 1, 1999.

Contingent Effective Date: Section 29(3), Ch. 111, L. 1999, provided: "The provisions in [sections 9, 13, and 18] [19-20-415, 19-20-602, and 19-20-716], providing for the making of contributions required to purchase service or for purposes of termination pay by employer pick up, are effective on the later of July 1, 1999, or the date that the internal revenue service determines in a private letter ruling that the creation and use of the employer pick up method of making contributions provided in those sections comply with the requirements of the Internal Revenue Code regarding a qualified retirement plan."

19-20-717. Effect of no designation or no surviving beneficiary. (1) If a beneficiary is not designated or if no designated beneficiary survives the payment recipient, the estate of the payment recipient is the beneficiary and is entitled to any lump-sum payment or retirement benefit accrued but not received prior to the death of the payment recipient. If the estate would not be probated but for the amount due from the retirement system, all of the amount due must be paid directly, without probate, to the surviving next of kin of the deceased or to the guardians of the survivor's estate, share and share alike.

(2) Payment must be made in the same order in which the following groups are listed:

(a) husband or wife;
(b) children;
(c) father and mother;
(d) grandchildren;
(e) brothers and sisters; or
(f) nieces and nephews.

(3) A payment may not be made to a person included in any of the groups listed in subsection (2) if at the date of payment there is a living person in any of the groups preceding the group of which the person is a member, as listed. Payment must be made upon receipt from the person of an affidavit, upon a form supplied by the system, that there are no living individuals in the groups preceding the group of which the person is a member and that the estate of the deceased will not be probated.

(4) The payment must be in full and complete discharge and acquittance of the board and system on account of the member's or payment recipient's death.

19-20-718. *(Effective on later of occurrence of contingency or July 1, 1999)* **Maximum contribution limitation.** (1) Notwithstanding any other provision of law to the contrary, the board may modify a request by a participant to make a contribution to the system if the amount of the contribution would exceed the limits in section 415(c) or 415(n) of the Internal Revenue Code by using the following methods:

(a) If the system's law requires a lump-sum payment for purchase of service credit, the board may establish a periodic payment plan in order to avoid a contribution in excess of the limits of section 415(c) or 415(n) of the Internal Revenue Code.

(b) If the board's option in subsection (1)(a) will not avoid a contribution in excess of the limits in section 415(c) of the Internal Revenue Code, the board may direct the excess contribution to the qualified excess benefit arrangement pursuant to section 415(m) of the Internal Revenue Code.

(2) If the board's options in subsections (1)(a) and (1)(b) will not avoid a contribution in excess of the limits of section 415(c) of the Internal Revenue Code, the board shall reduce or refuse the contribution.

(3) The board shall use the provisions of section 415(n) of the Internal Revenue Code, as the provisions apply to a government plan, to facilitate member's service purchases. An eligible participant in a retirement plan, as defined by section 1526 of the Taxpayer Relief Act of 1997, 26 U.S.C. 415, may purchase service credit without regard to the limitations of section 415(c)(1) of the Internal Revenue Code under the Montana statutes in effect on August 5, 1997.

(4) For the purpose of calculating the maximum contribution under section 415 of the Internal Revenue Code, the definitions of "compensation", "wages", and "salary" include the amount of any elective deferral, as defined in section 402(g) of the Internal Revenue Code, or any contribution that is contributed or deferred by the employer at the election of the member and that is not includable in the gross income of the member by reason of sections 125, 403(b), or 457 of the Internal Revenue Code.

19-20-804. Allowance for service retirement. (1) Upon termination, an eligible member must receive a retirement allowance equal to one-sixtieth of the member's average final compensation, as limited by 19-20-715, multiplied by the sum of the number of years of creditable service and service transferred under 19-20-409.

(2) Except as provided in subsection (4), a retired member may be employed part-time in a position specified in 19-20-302 and may earn, without loss of retirement benefits, an amount not to exceed the greater of:

(a) one-third of the sum of the member's average final compensation plus normal annual salary increases for teaching personnel employed by the school district, state agency, political subdivision, or university unit that employed the member at the time of retirement; or

(b) one-third of the median of the average final compensation for members retired during the preceding fiscal year as determined by the retirement board.

(3) (a) Except as provided in subsection (4), the retirement benefit of a retired member employed in a full-time position or earning more than allowed by subsection (2) must be canceled beginning the month in which the retired member returns to full-time employment or earns more than allowed.

(b) The retirement benefits of a retired member who was employed in a full-time position or who exceeded the amount that the retired member was eligible to earn under subsection (2) and who was reemployed for less than 1 year must, upon termination of employment, be reinstated beginning the later of either the month following termination or July 1 of the school year following the date on which the retired member was reemployed. The reinstated retirement benefit is the amount that the retired member would have been entitled to receive had the retired member not returned to employment.

(c) Upon retirement after cancellation of a retired member's benefit pursuant to subsection (3)(a), a retired member who is reemployed as an active member for a minimum of 1 year of full-time service must receive a recalculated benefit. The recalculated benefit is based on the service credit accumulated at the time of the member's previous retirement plus any service credit accumulated subsequent to reemployment.

(4) If an early-retired member under 19-20-802 is reemployed with the same employer within 30 days from the member's effective date of retirement or if the early-retired member is guaranteed reemployment with the same employer, the member must be considered to have continued in the status of an active member and not to have separated from service. Any retirement allowance payments received by the member must be repaid to the system, together with interest, at the actuarially assumed rate, and the retirement allowance must be terminated.

19-20-805. Earned compensation — part-time service. The earned compensation of a member who retired under 19-20-802 or 19-20-804 and had less than 3 consecutive years of full-time service during the 5 years preceding the member's retirement is the compensation that the member would have earned in the final 3 years had the member's part-time service been full-time service. To determine the compensation that the member would have earned, the compensation reported must be divided by the part-time service credited to the member's account.

19-20-901. Eligibility for disability retirement — determination by board. (1) Upon the application of a member or of the member's employer for a disability retirement allowance, any member who has 5 or more years of creditable service and who has become disabled while being an active member may be retired by the retirement board the month immediately following the month in which employment is terminated. In order for a member to be eligible for disability retirement, the retirement board or its representative shall certify that the member is mentally or physically incapacitated for the further performance of the member's duties, that the incapacity is likely to be permanent, and that the member should be retired. The board's representative shall report to the board the representative's findings and any action taken by the representative, and the action must be presented to the board for approval by the board.

(2) In making a determination under subsection (1), the retirement board or its representative may:

(a) order examinations by a physician, psychologist, or vocational rehabilitation counselor;

(b) conduct hearings, administer oaths and affirmations, take depositions, and certify to official acts; and

(c) issue subpoenas to compel the attendance of witnesses and the production of books, papers, correspondence, memorandums, and other records considered necessary as evidence in connection with a claim for disability retirement. The subpoenas issued under this subsection (2)(c) are enforceable as provided in 2-4-104.

(3) The retirement board may secure and pay reasonable compensation for professional services and advice that the board determines necessary to carry out the purposes of this part.

19-20-902. Allowance for disability retirement. (1) Upon retirement for disability, a member must receive a disability retirement allowance equal to the greater of:

(a) one-sixtieth of the member's average final compensation multiplied by the sum of the number of years of creditable service, including service transferred under 19-20-409; or

(b) one-fourth of the member's average final compensation.

(2) The earned compensation in the year of termination that is included in the calculation of average final compensation of a member who is awarded a disability retirement allowance prior to the completion of a full year is the compensation, pay, or salary that the member would have received under the member's contract had the member completed the full year. Any termination pay received by the member is limited to the amount actually paid and is not the amount that the member would have earned had the member completed the full year.

19-20-903. Medical examination of disability retiree. (1) Once each year during the first 5 years following the retirement of a member on a disability retirement allowance and once in every 3-year period thereafter, the retirement board may require a disability benefit recipient who has not yet attained the age of 60 to undergo a medical examination by a physician or physicians designated by the retirement board. The examination must be made at the place of residence of the benefit recipient or other place mutually agreed upon. Based on the examination, the board shall determine whether the disabled member is unable, by reason of physical or mental incapacity, to perform the essential elements of the position held by the member when the member retired. If the board determines that the member is not incapacitated, the member's retirement benefit must be canceled. If the member disagrees with the board's determination, the member may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after the receipt of the notice of the status change.

(2) A member whose disability retirement benefit is canceled because the board has determined that the member is no longer incapacitated must be given preference by the member's former employer for the position held at the time of retirement or for a comparable position that becomes available within 1 year of cancellation of the disability retirement. The member may agree to accept an offer of employment by an employer. Employment in any capacity by an employer terminates any right granted by this section. The fact that the former employee was retired on disability may not prejudice any right to reinstatement to duty that the former employee may have or claim to have. This section does not affect any requirement for the former employee to meet or to be able to meet professional certification and licensing standards unrelated to the previous disability, otherwise necessary for reinstatement to duty.

(3) If a disability benefit recipient who has not yet attained the age of 60 refuses to submit to a medical examination as required in subsection (1), the recipient's allowance may be discontinued until withdrawal of the refusal. If a refusal continues for 1 year, all rights in and to a disability pension may be revoked by the retirement board.

19-20-904. Adjustment of allowance. (1) (a) Except as provided by subsection (1)(b), if a retiree receiving a disability retirement allowance is engaged in or is able to engage in a gainful occupation paying more than the difference between the retiree's retirement allowance and the retiree's average final compensation or the difference between the median salary of those members retired during the preceding fiscal year and the retiree's retirement allowance, whichever is greater, the retirement allowance must be reduced to an amount that, together with the amount earnable by the retiree, is equal to the retiree's average final compensation or the median salary of those members retired during the preceding fiscal year, whichever is greater.

(b) If a disabled retiree is reemployed with the same employer within 30 days from the member's effective date of retirement or if the retired member is guaranteed reemployment with the same employer, the member must be considered to have continued in the status of an active member and not to have separated from service. Any retirement allowance payments received by the member must be repaid to the system, together with interest, at the actuarially assumed rate, and the retirement benefit must be terminated.

(2) If the disabled retiree's earning capacity is changed later, the retirement allowance may be further modified, but the new allowance may not exceed the retirement allowance originally granted or an amount that, when added to the amount earnable by the retiree, equals the retiree's average final compensation.

(3) The board may, in its discretion, require a recipient of a disability retirement allowance to annually submit an earning statement and any documentation necessary to support the earnings of the recipient.

19-20-905. Cancellation of allowance and restoration of membership. (1) If a disabled retiree is employed full-time in a capacity that would otherwise meet the eligibility requirements of active membership, as provided under 19-20-302, the retiree's retirement allowance must cease. If the retiree is employed by an employer covered under this chapter, the retiree shall again become an active member of the retirement system. Any prior service certificate on the basis of which the member's service was computed at the time of the member's disability retirement must be restored to full force, and upon the member's subsequent retirement, the member must be credited with the prior service and all subsequent service as a member.

(2) If the member is restored to active membership on or after the attainment of the age of 55 years, the member's retirement allowance upon subsequent retirement may not exceed the retirement allowance that the member would have received had the member remained in service during the period of the member's previous retirement or the sum of the retirement allowance that the member was receiving immediately prior to the member's

last restoration to service and the retirement allowance that the member would have received on account of the member's service since the member's last restoration had the member entered service at that time as a new member.

Amendment effective July 1, 1999.

19-50-102. Deferred compensation programs permitted — rules. (1) The state or a political subdivision may establish deferred compensation plans that are eligible under section 457 of the Internal Revenue Code of 1954 (26 U.S.C. 457), as amended or superseded, and in compliance with regulations of the U.S. department of the treasury.
